## a most precious thing

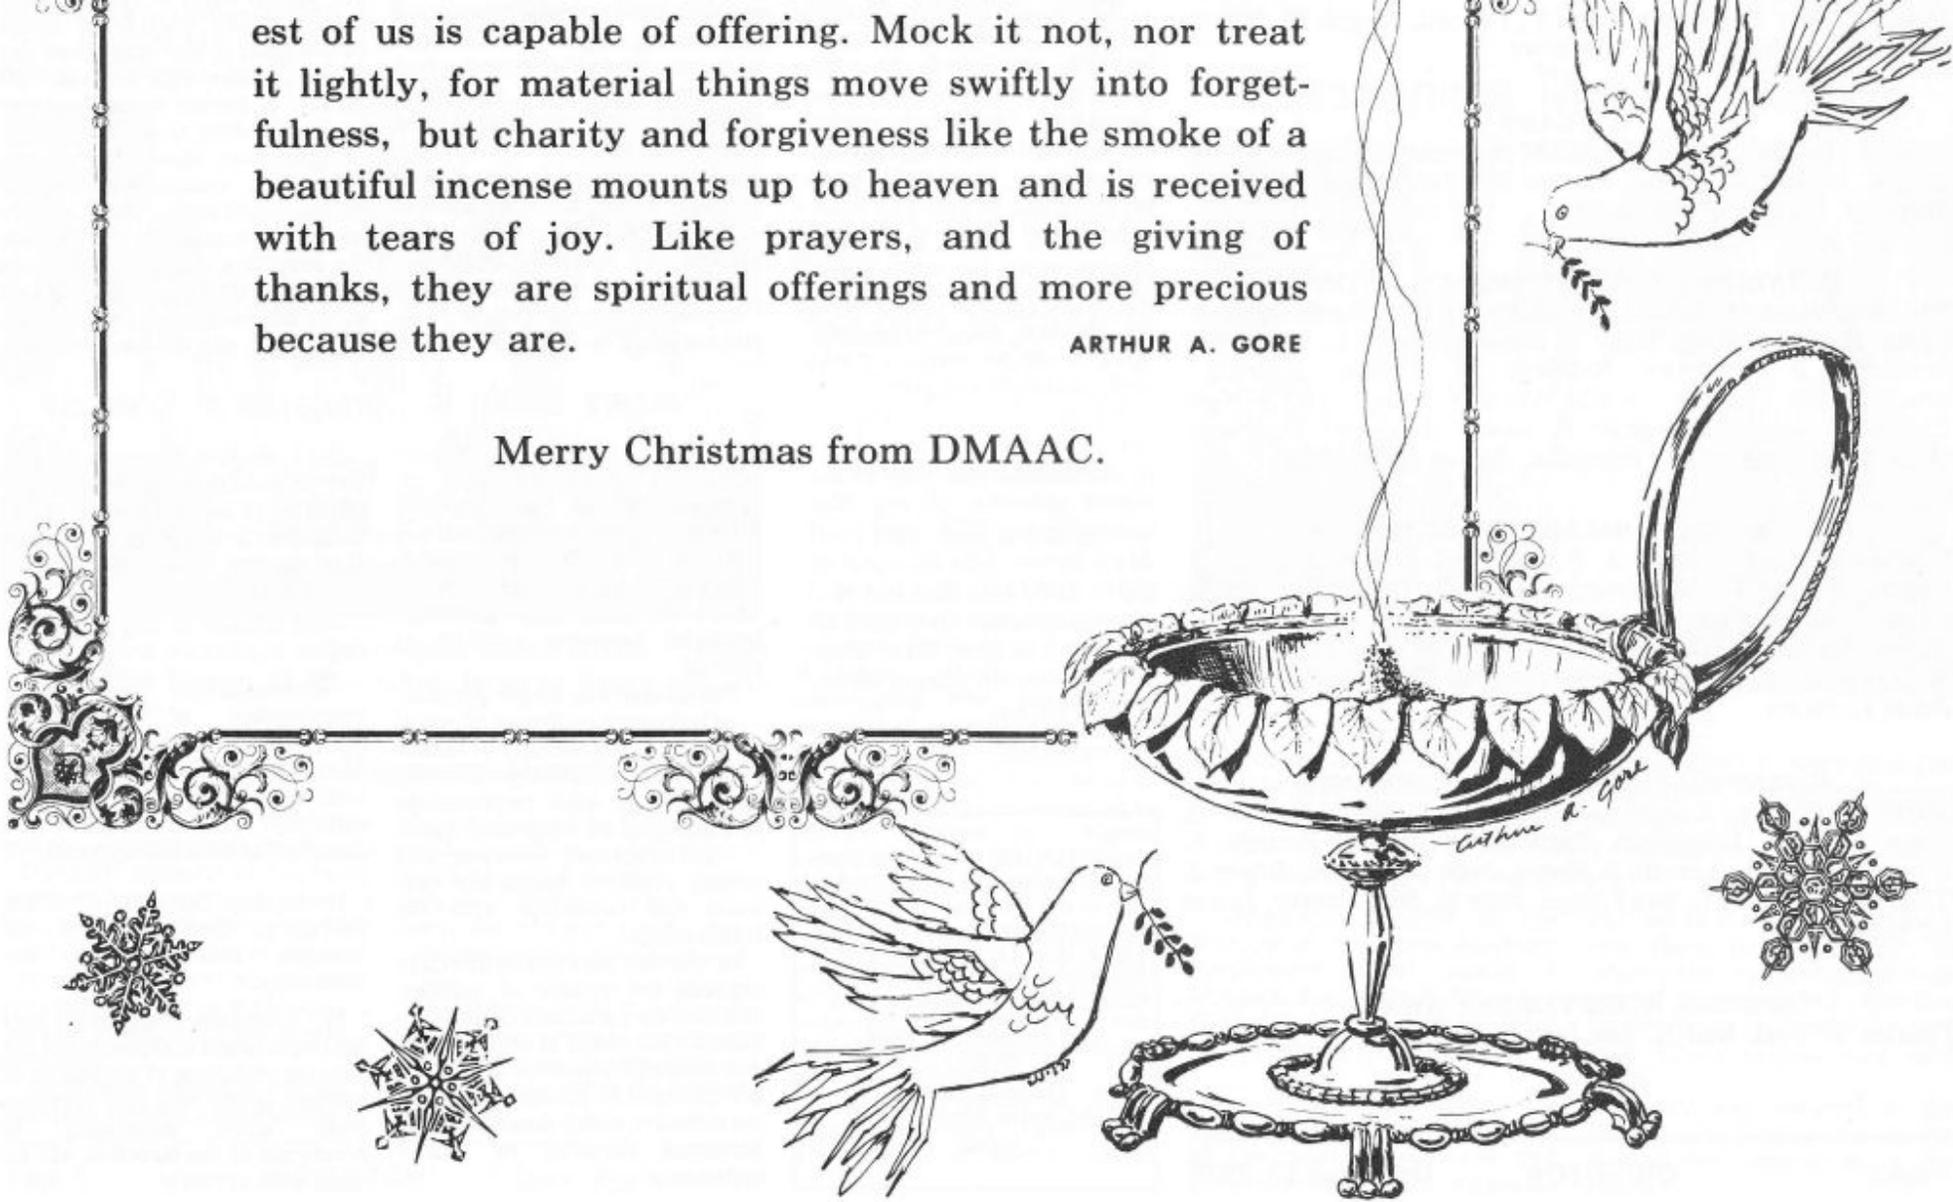

**CHRISTMAS** . . a time that evokes a feeling of excitement, a feeling of closeness, visions of warm houses, bright lights, expectant children, and family togetherness. And with a rush and bustle, preparations are made, with the inevitable indecisions and decisions, while thoughts drifting in the lull encompass the wanderers, the travelers, and the strayed. Hopes are strengthened, faith is renewed, and the urge to do something for someone is awakened. To give, whether a gift, a song, a kind word, a pat on the back, is a precious thing we call charity, a passing off of past hurts, a sharing of our possessions, or more importantly of ourselves. No wonder the wise men considered it and its counterpart forgiveness, the greatest spiritual gifts one can give to another, and which even the poor-

est of us is capable of offering. Mock it not, nor treat it lightly, for material things move swiftly into forgetfulness, but charity and forgiveness like the smoke of a beautiful incense mounts up to heaven and is received with tears of joy. Like prayers, and the giving of thanks, they are spiritual offerings and more precious because they are.

ARTHUR A. GORE

Merry Christmas from DMAAC.

DEFENSE MAPPING AGENCY  
BUILDING 26, U.S. NAVAL OBSERVATORY  
WASHINGTON, D.C. 20305

25 NOV 1975

HOLIDAY LETTER TO ALL DEFENSE MAPPING AGENCY PEOPLE

As we draw to the end of the year, it is natural for us to think about our material blessings and reflect on our spiritual heritages. This is a good season of the year and I personally always look forward to it with warm feelings.

In the past year I have been able to visit many of you and to see for myself the type of teamwork and dedication that has made DMA a responsible and productive Agency. I believe the mutual dependence that is celebrated in this religious Season by people of many faiths also is reflected in the way we work together, not just in one season of the year but at all times. So, in a real sense, we in the Defense Mapping Agency this Holiday Season are celebrating acts of faith in each other as well as giving expression to our own particular religious convictions.

A spirit of cooperation is vital to any organization. It happens when people of good will take up a common course and pledge to each other their best efforts. This is happening in DMA and it is my fervent hope that in the coming year we can continue to strengthen and support each other in the important work ahead.

Mrs. Cramer and I extend our warmest Season's Greetings to you and your families and our best wishes for the coming year.

Sincerely,

  
S. D. CRAMER, JR.  
Vice Admiral, USN  
Director

## November Honor Roll

### 30 YEARS

Chester Gross, Elmer J. Filla, Ernest E. Gallegos, James C. Hammond, Jr., George A. Seymour, Raymond J. Lott, Byron D. Smith, Norman L. Levine, Michael G. Konick, Robert E. Stanley, Richard A. Batisto, Francis W. Green, Arnold F. Trachsel.

### 20 YEARS

Gene T. Merriott, Charles R. Vogel, Willie P. Austin, Alva D. Sporer, Ronald H. Martens, Richard I. Crews, C. Edward

## Regular Commission For Anderson

Capt. Thomas Anderson MC&G Officer for the DMA Depot Hawaii was recently augmented into the regular Air Force at ceremonies held in Hawaii.

Conducting the ceremonies was Lt. Col. Merlin Smith, Jr., commander of the Depot. Captain Anderson has served in the Air Force for seven years.

## Retirees Info

The Missouri Federation of Chapters of National Association of Retired Federal Employees has announced its meetings for the 2nd Tuesday of each month at the Letter Carriers Hall, 2800 South Grand.

Meeting time is 1:00 p.m.

Retirees interested in the organization can contact the local chapter President, Cecil Lamar, 353-1392 or the state President, William Brewer 821-2831.

## Booklet Lists Top Winter Park Events

While winter means a slow-down of visitor activities in some National Parks, it means a shift of emphasis in a dozen others. The National Parks are becoming more and more popular in winter because of their beauty and the different activities they offer.

OFFICE OF THE DIRECTOR

December 1975

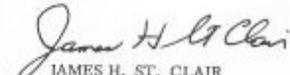

HOLIDAY GREETINGS

As the holiday season approaches and the year 1975 draws to a close, we of the Aerospace Center can feel great self-satisfaction as a result of the contributions made by this Center to the national defense.

Our products and services have maintained that quality of excellence recognized by users throughout the world. Our technology has continued to advance, allowing us to meet the demands of modern day weapon systems. Dedicated Aerospace Center people have sought to produce the best in the most efficient and economical manner and I am confident that we shall continue to meet the challenges of 1976.

As you and your loved ones celebrate this joyous season, accept my sincere thanks for the dedication, professionalism, and loyalty that you have given this organization.

Season Greetings to all the Aerospace Center family and my best wishes for a bountiful and peaceful new year.

  
JAMES H. ST. CLAIR  
Colonel, USAF  
Director

## Safety First In Manual Materials Handling

Annually, nearly twenty-five percent of all compensable work injuries are caused by manual material handling. Lifting, reaching, pulling and pushing are all major causes of material handling injuries. Sure it's a real problem, but what can we do about it?

"Most of the back injuries are fake. Those guys just want some time off." This is not so. One of the first things a supervisor should do is try to understand the manual material handling problem.

Supervisors of employees with back problems should not be puzzled or suspicious if symptoms come and go frequently and erratically. Employees with this

employee's complaint and understand the problem, they must realize how serious strains are and what effects they can have on an individual.

Once the problem is understood, there is more that can be done to prevent manual handling injuries.

Supervisors must be on the lookout for unsafe work areas. Whenever an employee has to lift above the waist level or above the shoulder level, serious problems can be expected. During a lift, the arching of an employee's back makes the nerve route more liable to irritation and pinching.

At the other extreme, work stations that require an individual to maintain a bent-over position are just as likely to cause a back

Sporer, Ronald H. Martens, Richard T. Crews, C. Edward Eichholz, Clint J. Murphy, Leon P. Fennell, Joseph W. Miller, Robert E. LaBeau, Ila O. Matthews.

#### 10 YEARS

John B. LaBusier, Gerald M. Elphingstone, Rose Mary K. Colona, Sandra L. Heins, Sharon K. Wahrenburg, Helen J. Brencick, Loretta G. Smith.

#### OUTSTANDING PERFORMANCE RATING

Thaddeus Vincenty, Walter D. Grimm, Everett Oertli, Allan A. Byma, Earl J. Koenig, Mary Y. Kunkel, Robert L. Wolverton, Reinhardt J. Bergman, Kathleen M. Breuer, Laura J. Breckenkamp, Gregory J. Kuehl, Wayne V. Miller, Betty L. Wolf, Earlene G. Harris, Josephine E. Lewis, Gilbert G. Ferguson, Doris M. Brackett, John Schmalle, James M. Stephens.

#### QUALITY SALARY INCREASE

Thaddeus Vincenty, Allan A. Byma, Earl J. Koenig, Mary Y. Kunkel, Robert L. Wolverton, Walter G. Bean, Graham E. Horton, James Madenfort, Charles L. Grassman, Marvin H. Grawe, Rodney D. Griffin, Jon D. Flinn, Richard H. Duncan, Raymond J. Haack, George F. Jokerst, Thomas N. Dodillet, Juliet L. Bauer.

#### SUSTAINED SUPERIOR PERFORMANCE

Walter D. Grimm, Everett Oertli, Robert L. Black, Preston E. Cage, Park D. Edmonson, Betty R. Eyerman, Francis K. Kuenzie, Eli Shaw, Loretta S. Moore, Jack G. Hughes, Sidney J. Thierjung, Anthony L. San Filippo, Judy M. Bebermeyer, James M. Stephens.

#### SPECIAL ACHIEVEMENT AWARD

Charles W. Teel, Neil R. Van Dermeulen.

different activities they offer.  
*Winter Activities in the National Park System*, a booklet published by the Department of Interior's National Park Service, is available for 50¢ from Consumer Information, Dept. 64, Pueblo, Colorado 81009. The book tells about parks that offer opportunities for cross-country ski tours, downhill skiing, ice skating, ice fishing, and ice boating as well as parks with overnight facilities.

Whether you're young, or not so young, you'll find activities to interest you in the winter splendor of our National Parks. You can twirl down snowy hills on a platter slide. And, kids find out that those inertubes they used all summer can give them a super-fast ride on special slides in some parks.

ORIENTOR is an official newspaper, published bi-weekly on Friday by and for the personnel of the Defense Mapping Agency Aerospace Center, at St. Louis, Missouri. Opinions expressed herein do not necessarily represent those of the DOD.

Col. James H. St. Clair  
Director

David L. Black  
Chief, Public Affairs Office  
Editor

erratically. Employees with this problem are particularly sensitive about being suspected of faking a backache. Often they are reluctant to admit that they feel fine, thinking it will only cast doubt upon earlier painful episodes.

The result is that such people continue to complain of symptoms so that they retain their self-respect and establish credibility for future painful attacks.

Supervisors and fellow employees must sympathize with an

are just as likely to cause a back injury. Ideally, work areas should be designed so that employees can get under the weight they must lift instead of having to reach out or over something to lift it.

Supervisors should try to encourage a standard method of lifting. Although one recommended procedure is not suitable for everyone, supervisors should encourage a lifting technique that keeps the load close to the body, knees bent, and the back straight.

## Changes Made in Standards of Conduct

Deputy Secretary of Defense William P. Clements, Jr., announced that he has approved several changes to Department of Defense (DoD) Directive 5500.7, "Standards of Conduct," in an effort to close any potential loopholes involving conflicts of interest.

The directive no longer permits:—Customary exchange of social amenities between personal friends and relatives when motivated by such relationships and extended on a personal basis.

—Transactions between and among relatives which are personal and consistent with the relationships.

In addition, the revised directive expands the number of military and civilian personnel required to submit statements of employment and financial interests. Following are changes in paragraph XV of the directive which describes DoD personnel required to submit statements:

—All civilian officers and employees paid at the level of grades GS-16 to 18 and at a level of the Executive Schedule in subchapter II of chapter 53 of title 5, United States Code.

—All officers of flag or general rank.

—Commanders and deputy commanders of major installations, activities and operations as determined by the respective secretaries of the military departments and directors of Defense agencies.

In signing the new directive, Secretary Clements said the changes are effective immediately.

Mr. Clements emphasized that the Department of Defense will not tolerate violations of standards of conduct policy and any variance from strict adherence to provisions of the directive will be dealt with severely.

## Old Newsboys Collection Tops \$1,000 Mark

Aerospace Center Old Newsboys and Girls braved the cold weather the morning of November 26th to collect a total of \$1,017.19 for the Globe Democrat Fund for Children, Inc.

The total was second only to the Army Aviation System Command in Federal agency participation in the annual event.

The amount collected at 2nd Street was \$737.14 with South Annex recording \$225.32. One employee sold papers in his home community accounting for an additional \$54.73 to the agency's record.

In the 14 years that the Center has participated in the program this was the most profitable.

Old Newsboys and Girls hawking the papers expressed their appreciation to the work

force for the generous contributions to the Needy Children's Fund.

Selling the papers this year for the Center were: John Hajek, who was assisted by his family at Lemay Ferry and Victory Drive, Deborah Rusan, Virginia Welter, Al Wuensch, Bud Brown, Don Riggs, Al West, George Shalhoob, Andrea Kowal, Sheree Dees, Janis Leathers, Eileen Sinnwell, Louis Foster, George Cline, Jr., Hiram Lloyd, Henry Bauer, Frank Aufmuth, Penman Gilliam, Anthony Birkenmeier, Frank Roth, Lawrence Ayers, Col. Robert Burns and Col. James St. Clair.

Several of the regulars were unable to participate because of illness that day. These included: Patricia Ketzner, Bernice Hendricks and William Kolnik.

Old Newsboys and Newgirls who hawked the papers at 2d Street are shown here, back row, from left to right: Frank Aufmuth, Henry Bauer, Frank Roth, Eileen Sinnwell, Penman Gilliam and Al West. Third row: George Shalhoob, Louis Foster and Lawrence F. Ayers. Second row: Andrew Kowal, Anthony

## New Auto Decals Ready

Next week the Security Office will begin issuing the new bumper decals for all Center employees with vehicles requiring access to the installations.

Decals will be issued at 2nd Street Monday through Friday with make-up day the 22nd. Monday the 15th, persons with last names beginning with A through E may pick-up decals; Tuesday F-J, Wednesday K-O, Thursday P-T and Friday U-Z.

Decals will be issued at Second Street from the table set up in the first floor hallway of Building 36.

South Annex decals will be issued December 23 and 24th from a location near the cafeteria in Building 8900-4.

December 26th will be the make-up day at South Annex for those on leave during the regular issue.

Employees will be required to certify that they have proper insurance coverage for their vehicles as required by state law.

New decals will be required on all vehicles.

## Election for Non-Professionals Next Week

An election will be held on the 16th and 17th of this month under the auspices of the Department of Labor to determine the extent of interest of the DMAAC non-professional employees in having the National Federation of Federal Employees (NFFE) represent them for purposes of exclusive recognition.

The polling place at 8900 South Broadway installation will be in

## Tenth District Representative Tours Aerospace Center

Congressman Bill D. Burlison, Missouri Representative for the 10th Congressional District, toured DMAAC November 28th to learn more about the mission and products of the Defense Mapping Agency.

Escorting the Congressman was Vice Admiral Shannon D. Cramer, Jr., Director of DMA, and Aerospace Center officials.

During his visit Representative Burlison received briefings on the DMA support of strategic and tactical weapons systems, advanced technology and general Center operations. After looking at a display of the DMA products he toured some of the production areas to see the operations first

hand.

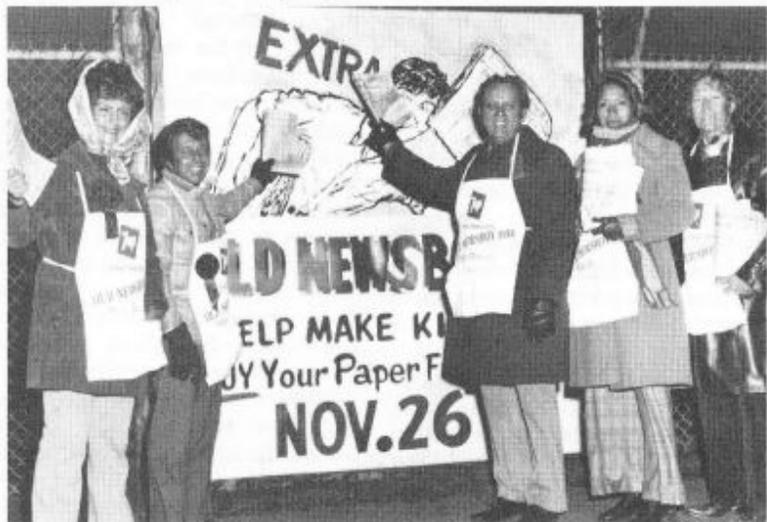

The Congressman's district includes the counties of Bollinger, Butler, Cape Girardeau, Carter, Dunklin, Iron, Jefferson, Madison, Mississippi, New Madrid, Pemiscot, Perry, Reynolds, Ripley, St. Francois, St. Genevieve, Scott, Stoddard and Wayne. Aerospace Center employees are residents of several of the counties within the 10th District.

Upon his departure the Congressman expressed his pleasure at having had the opportunity to learn more about the Agency and the Department of Defense mapping and charting programs.

Congressman Bill Burlison (center) watches and listens intently as Otto Stoessel describes the Press Room operation for the Congressman during his visit to the Aerospace Center November 28th. Looking on are Vice Admiral Shannon D. Cramer, Jr., DMA Director and Col. James H. St. Clair, DMAAC Director.

Lawrence F. Ayers. Second row: Andrew Kowal, Anthony Birkenmeier, Colonel Robert C. Burns and Sheree Dees. Bottom row: Colonel James H. St. Clair, Janis Leathers and Hiram Lloyd. (George Cline not present for picture.)

South Annex Newsboys and Newgirls shown include: Virginia Welter, Bud Brown, Al Wuenscher, Deborah Rusan and Don Riggs.

## Hardship Parking Requires Revalidation

The Security Police Office has put out a reminder to employees currently authorized hardship parking spaces. The statement indicates that hardship parking must be revalidated every quarter to insure that a need continues for the individual to be authorized a parking space under the hardship provision.

All persons currently holding a hardship parking authorization or

any one desiring to apply for one should submit letters of revalidation or request to the Security Police Office. The committee charged with hardship authorization will meet next week.

It will be assumed that those not submitting letters requesting revalidation no longer require a parking space under the hardship provision.

Boarding installation will be in the old NCO Club (Bldg. 8900-4). Voting for South Annex will be from 7:00 a.m. to 4:30 p.m. on the 16th of December.

Voting at Second Street installation will be held on Wednesday, December 17 from 6:30 a.m. till 5:00 p.m. The polling place will be in the basement of Building 25.

Voting will be on official time during regular schedule of hours.

Additional information can be found on the Notice of Election posted on DMAAC bulletin boards.

## National Award For Clean-Up

Carl Lappe, LOSAI, and membership chairman of the Missouri Sportsmen for Clean Outdoors, reports that his organization was recently the recipient of a national honor.

The Missouri Sportsmen for Clean Outdoors was recently presented the Distinguished Service Citation (3rd highest award) in the Keep America Beautiful 1975 National Awards Program.

The 55-family organization was commended for completing several statewide environmental improvement projects, particularly river, park and reservoir cleanup projects that have combined the forces of divers, engineers, Scouts, businessmen and hundreds of other concerned citizens.

Director and Col. James H. St. Clair, DMAAC Director.

## Missourians Meet in College

Three former residents of St. Joseph, Missouri were reunited recently at the Naval War College in Newport, R.I. when Richard C. Webster (center), DMAAC employee, Marine Lieutenant Colonel Fred Cone (left), and Navy Commander Robert Schmidt met at the college's fall enrollment.

Commander Schmidt is the Director of the Naval Academy Preparatory School located in Newport, R.I. while Webster and Colonel Cone were new enrollees into the Naval War College.

The students are among 137 specially selected senior officers of the military services and government civilian agencies

enrolled in the course, which offers them the opportunity to acquire the vital intellectual tools needed to make them effective leaders in any environment where their future careers may lead them.

Webster was assigned to the Cartography Department at the time of his appointment to the school.

# November Retirements Listed

Willard J. McCormick, SOPB, guard supervisor retired November 13 after extended leave.

He served in the U.S. Army from 1935 to 1938 with the 6th U.S. Infantry, Jefferson Barracks, Mo. and from 1944 to 1946 with the 745th Tank Battalion, 3rd Armored Division.

He returned to Federal service at the Navajo Army Depot, Flagstaff, Ariz. in 1959 as a sergeant in Security until 1962 when he transferred to DMAAC as a security guard and later supervisor.

Chief McCormick said his retirement plans include: fishing hunting and travel.

Other retirements for which no

information was furnished the Orienter include:

**Edward J. Gillen, CDCA**, whose disability retirement was effected November 5. A cartographer, he had spent all but six of his 31 years, 4 months total Federal service at DMAAC.

**Patricia A. Ryan, ADL**, spent her total Federal service of 11 years at DMAAC and was assigned as a translator. Her disability retirement was effective November 7.

**Robert E. Smith, CDCM**, engraver foreman, spent 27 of his 28 years, 9 months Federal service at DMAAC. His disability retirement was effected on November 14.

## CTS Adds to Trophies

Triumphantly displaying trophies won in both the Intramural and League Tennis Championship tournaments is the DMA Depot Hawaii (DMADH) tennis team, comprised of Lt. Col. Merlin C. Smith, Jr., Capt. Thomas W. Anderson, Lt. Jeffrey G. Bodie (back row, r to l), and augmentees from various base activities.

## Policeman of Month

John S. Marciniak was selected as DMAAC Security Policeman for the month of November.

He served in the U.S. Navy during WW II and has a total of 15 years Federal service. He transferred to DMAAC from Granite City Engineer Depot on October 4, 1970.

Married and the father of three children he resides in Collinsville, Ill.

## November Promotions

The following people received promotions during the month of November: Fitz J. Bartlett, Jr., GS-13; Patricia A. Bell, GS-5; Linda K. Branson, GS-4; Robert K. Brewer, WP-19; Patricia A. Caola, GS-4; Pamela K. Digby, GS-4; Margaret F. Fetto, GS-4; Earl C. Hill, Jr., GS-13; Eloise B. Hunt, GS-7; Virgil Johnson, GS-4; Albert G. Mann, WG-9; Wilfred P. Moss, WP-19; Francis R. Odem, GS-5.

## Rumsfeld New Defense Chief

Donald Rumsfeld was sworn in as Secretary of Defense Nov. 20 during ceremonies at the Pentagon.

Mr. Rumsfeld has served as Assistant to the President since September 1974. He is a former naval aviator and was a member of Congress from the State of Illinois from 1962 to 1969. He has held several key Cabinet positions and served as United States Ambassador to the North Atlantic Treaty Organization (NATO).

During the ceremonies, President Gerald Ford said

Secretary Rumsfeld knows a strong national defense for America is the surest guardian of the Nation's independence. He said Rumsfeld is "one of the most dedicated, talented, and capable public servants it has been my pleasure to know in 27 years of public life."

The President continued, "The price of that strength and security is high, but it is a price that must be paid, for the price is never greater than the worth of a strong defense."

Donald Rumsfeld is congratulated by President Ford following the swearing-in ceremony as the new Secretary of Defense at the Pentagon Nov. 20. Gen. George S. Brown, Chairman of the Joint Chiefs of Staff, looks on. (U.S. Air Force photo).

## Weights and Measures to Change

An international standard of weights and measures has become metric, because it is not based on a system of tens. The English

back row, r to l), and augmentees from various base activities. Led by player/coach Capt. Anderson, the team finished first in the Intramural League by going undefeated during the 22-week season. Following the league victory, DMADH entered the base championship playoffs which consisted of a double elimination tournament between the top four teams from the tennis league. The depot team sustained a loss in the first round but fought back to eliminate each of the other three contenders in succession, having to defeat the last team twice to finally emerge victorious. (U.S. Air Force Photo).

## 110 Women Request Academy

One hundred and ten young women have requested appointments in the Air Force Academy Class of 1980 entering June 28, 1976. That date is the first time women will be admitted to military academies.

They will be competing for about 150 spaces for women in the Class of 1980.

President Ford signed the bill authorizing women to attend the academies Oct. 7, 1975. By Nov. 13, 1975, 1,736 women had asked for academy admissions information.

Officials say the final date for all nominations, including congressional, to be at the academy is Jan. 31, 1976. Interested young women should contact their Senators or Representatives now to begin the nominations process. They can also write for information and assistance to the Admissions Liaison Office, USAF Academy, CO 80840.

## In Sympathy

Charles Davis, SOPB, died on Sunday, November 23, 1975. He had been at DMAAC since January 1965 on duty as a messenger. In October 1968 he became a vehicle forklift operator and since October 1973 had been assigned as a security policeman.

He is survived by wife Shirley and five children.

Services were held on Sunday, November 30 at the Temple Church of Christ with interment on Monday at Jefferson Barracks National Cemetery.

## Saving Bonds for '76

G. Mann, WG-9; Wilfred P. Moss, WP-19; Francis R. Odem, GS-5.

—Military—

TSgt. Edward C. Wayman received his promotion to Master Sergeant on December 1. Sergeant Wayman is assigned to the Directorate of Administration as Personnel Liaison Non-Commissioned Officer. He has been with the Center since May 1973.

## Birthday to Remember

Several DMAAC employees have unusual birthday celebrations to remember, but one employee definitely has a birthday celebration that he will remember for a long time.

Frank W. Smith, MDRA, had a noisy but unwelcomed birthday celebration on December 7, 1941 when he was on the USS Curtiss in Pearl Harbor on the day of the infamous bombing.

The survivors of the attack have formed a national "Pearl Harbor Survivors Association" and meet once a month in all of the 50 states and numerous cities. Every five years their national convention is held in Honolulu, Hawaii to commemorate the attack and remind the world to keep alert.

In St. Louis this year the local Chapter assembled on the USS Inaugural to honor their shipmates who lost their lives December 7, 1941.

weights and measures will become increasingly necessary with the changing times. A "standard of standards" is required in this shrinking world of improved transportation, communications, and active international trade.

More and more, the nations of the world have been adopting the metric system—including England, the nation from which we adopted the system used in the United States.

Since a system of inches, feet, and yards is becoming obsolete, it appears Congress will soon enact legislation making metrics mandatory.

Although metrics may seem like a foreign language to many of us, it is, in reality, the simpler system of the two. The metric system is a decimal system—based on the number 10. All areas within the system relate to each other, whether it is weight, distance, or capacity.

A gram is the unit of weight, a liter the unit of capacity, and the cubic meter the measure for volume.

To show the relationship of one measure to another, consider that 10 millimeters equal a centimeter, 10 centimeters equal a decimeter, and 10 decimeters equal a meter. Their relationship to our present system, however, is hopelessly complex in terms of exact comparisons. For example, a meter is 39.37 inches, or 3.37 inches greater than a yard.

Our present system does not lend itself to such simple arith-

metics. The English system has caused no end of consternation to school children through the years since it requires the use of fractions. These fractions become archaic with adoption of the metric system.

Complications in exact comparisons are endless. However, approximate comparisons should be easier to accept and be a bit less mind-boggling. As one of the last bastions of the old English system, we are on the threshold of a new learning experience, metrics, and hopefully, a simpler road in mathematics for school children of the future, and those who use figures in their everyday life.

Metrics may wreck havoc on organized sports in the United States. Imagine a football player taking a kickoff on his goal line and returning it 91.44 meters for a touchdown.

Don't worry, though. The system will not be imposed on the spur of the moment. It will take place over a period of years, perhaps a decade, and only then after legislation approving the changeover.

Someday you may be taking your physical examination and hear the doctor say, "For your height, 1.778 meters, 96.5 kilograms is too much weight for you."

But that is better than turning the calendar back several centuries and listening to a physician tell you, "you weigh 10 rotls too much. You should run 50 yojanas per day. That will be 25 gerahs, please."
