

## Fast Food Service, Lower Prices Begin Monday at Dining Hall

Fast food service operation coupled with lower prices will be effective in the DMAAC dining halls and snackbar Monday, it was announced this week by the Base Restaurant Council and Food Service International, the concessionaire.

The fast food service concept will be similar to that provided by the various drive-in quick food service establishments in the area. By combining the concepts of the various hamburger, chicken, steak, etc., food chains, the Center dining facilities intends to provide employees with quality food at reasonable prices.

As an example of price reductions, the super special hamburger with fries and beverage will drop from \$1.15 to \$1.00. The hot beef sandwich from \$1.30 to 85¢; a cold ham sandwich from \$1.05 to 75¢; the quarter pounder from 90¢ to 65¢; bacon and egg sandwich from 85¢ to 65¢ and spaghetti and meat sauce from \$1.15 to 85¢.

The change over to the fast food service was dictated by rising food and labor costs which placed the price of conventional meals apparently beyond the acceptable limits of the majority of employees. Under the new plan regular items, such as hamburgers, hot dogs, etc., will be available on a daily basis with other items available on a rotational basis to provide a complete and varied menu. A listing of the entire food service selection and prices was distributed this week throughout the work areas.

In addition to the new food service concept, hours of operation and type of service available at the snack bar in building 36 are being changed to allow for a more economic operation.

**The building 36 snack bar will be open from 6:30 to 9:30 a.m. and from 1:15 to 2:45 p.m. for hot and cold beverages (including shakes) and pastries. The main dining hall at 2nd street will be open from 6:30 a.m. to 1:00 p.m. with full fast food service operation. The dining**

**hall at 8900 will be open from 6:30 a.m. to 2:30 p.m. with full fast food service operation.**

Full fast food service will include breakfast items, soups, sandwiches (hot and cold), hot entrees, salads, desserts, and beverages. A sample listing of the daily specials for the next two weeks is on page 2.

According to officials of the Base Restaurant Council and Food Service International, the reason for the curtailment of snack bar service was one of economy and space limitations. Both the dining hall and the snack bar could not continue to be operated on an economic basis as complete food service operations. Closing of the dining hall would result in an increased amount of lunchtime traffic in the limited space of the snack bar facility which is not designed for seating of patrons. The lack of complete food preparation area in the snackbar was also a factor. At the present time the majority of food dispensed at the snackbar is either prepared or stored in the dining hall and transported to the snack bar.

As an added attraction barbecue pits are being installed outside of the main dining hall for use in the near future. The barbecue menu was added several weeks ago and has met with good employee acceptance.

Carryout service will continue in effect.

## Wilderness Duty Earns Medals For Nine Surveyors

The Joint Commendation Service Medal has been presented to one officer and eight sergeants at the Geodetic Survey Squadron for their performance during an arduous four months in the wilds of Canada and Alaska under hazardous conditions.

The nine are: 1st Lt. Gary Grappon, MSgt. Leroy Everitt, TSgt. William Brewer, TSgt. Robert Labor, TSgt. Ted Martin, TSgt. Hurshel Wade, Jr., Sgt. Calvin Lee, Sgt. Jerry Summerfield, and Sgt. Edward Tafoya.

Their objective was to establish navigation check points for aircraft inertial guidance systems along a 2,000 mile route from Seattle, Washington, to Point Barrow, Alaska, on the shores of the Arctic Ocean. That they did it at all—given the weather, the insects and the logistic problems—was an accomplishment of note; that they set up and operated more than 40 stations in the time normally allowed for just eight stations drew highest praise from Maj. Gen. Hilding L. Jacobson, Jr., deputy director of DMA.

The team had to learn new

With mosquito netting over their faces three members of a Geodetic Survey Squadron team sit at a campsite at Oumalik Test Well in the Alaskan petroleum reserve number four. Left to right: TSgt. Martin, Sgt. Tafoya and Lt. Grappo.

measurements, elevation determinations and survey ties. On occasion, even just walking past the tripod feet of their sensitive instrument caused the soft, boggy ground to heave, spoiling hours of readings and requiring new measurements.

possible discrepancies in charts long thought to be accurate.

Much of the urgency of the mission had to do with the need to beat the oncoming northern winter, but it also involved observing a tight schedule dictated by the nature of satellites. On each

## Hogan Named To Comptroller Award

William Hogan, CM, has been chosen as recipient of the American Society of Military Comptrollers Annual Young Person Award.

The award was presented to Hogan by the Assistant Secretary of Defense (Comptroller), Terence E. McClary at a Washington D.C. luncheon May 23rd.

In his nomination, Hogan was cited for his "significant and noteworthy contributions to DMAAC which exceed in scope and quality those of many other employees far beyond his age and years of service."

At the Center he is credited for designing and successfully implementing a highly effective automated productivity measurement, product efficiency, and program evaluation system. The system paved the way to a recently inaugurated Quarterly Efficiency Review generally recognized by top Center management as the most incisive, potentially beneficial measurement and evaluation tool designed in recent years.

According to the nomination, he has been in the forefront of DMA's priority emphasis on achieving a 10% productivity increase and was responsible for much of the practical, on-line productivity

effort which led to ultimate publication of the DMA Productivity Case Study to the Joint Financial Management Improvement Program Committee, the President, and the Congress. "Coupled with a highly successful employee motivational and educational campaign this program during 1974 alone produced 104 major management improvement actions, netted \$5,334,000 in savings benefits and savings of 247 man years of effort as a direct result of Mr. Hogan's managerial and leadership abilities."

The award was presented in conjunction with the American Society of Military Comptrollers National Symposium.

The team had to learn new techniques in the field not only for operating sensitive electronic gear but also for sheer personal survival. At one point, they talked with the Indians in the area to discover how to cope with biting flies and oversized mosquitoes that cause severe skin infections. The team members fought off the cold damp weather during their July to October survey, frequently working long nights to check the required daytime solar azimuth readings, distance

### Bond Drive

At the three week point in the Savings Bond Campaign it appears that DMAAC employees, now more than ever before, are "Taking Stock in America." Totals as of May 23 show that 242 employees have signed up for payroll savings with a biweekly allotment of \$3800. Also, 275 present bond buyers have shown their support by increasing their allotment.

Remember, Payroll Savings is an easy, painless way to save. The adage, "If you don't see it, you won't spend it," is certainly true. So, if you haven't joined up yet, see your keyworker or project officer today. They'll be glad to answer your questions and provide the necessary forms. You'll be doing yourself a favor as well as supporting your government.

new measurements. Dampness and travel over rugged terrain took their toll of the equipment and repairs had to be made on the spot, often by crew members. One sergeant, whose job was to find markers left by other surveyors and explorers, climbed a mountain at Whittier, Alaska, to locate a control station that up to that time had been considered accessible only by helicopter. Such diligence, individually and through team work, allowed the group to discover

by the nature of satellites. On each pass, a satellite in those latitudes could be tracked for only 12 to 18 minutes, and this had to be done thirteen times a day.

Thanks to the cooperation of the Canadian government and the resourcefulness of the pilots of the Alaska State Office of the U.S. Bureau of Land Management and the Alaskan Air Command, the nine GSS Surveyors, working singly and in two-man parties made their scheduled satellite contacts.

## Quick Reaction by Center Supports Vietnam Airlift

Quick action by DMAAC allowed the airlift of Vietnam refugees to continue on schedule during the first part of the month. The action involved printing and distributing 600 copies of a special approach procedure for the El Toro Marine Corps Air Station runway 34R which was restored to service on Friday May 2 to support airlift of Vietnam refugees.

At 4:00 p.m. on Thursday, May 1, DMAAC was asked to supply the 600 copies of the restored runway procedure chart for distribution to base operations at Wake, Guam, Clark and Hickam installations.

Printing of the procedures was completed at 1:00 p.m. the following day and the copies were delivered to Scott AFB for a

T-39 flight to Norton AFB, in California. At Norton the Operations Center Duty Officer was notified of the shipment and he had it placed on a C-141 departing Norton AFB at midnight for Hickam AFB, Hawaii. At six the next morning the procedures were in the hands of Lt. Col. Smith, DMA Hawaii Depot Commander, who in turn, had them distributed to the requesting base operations at Clark, Guam and Wake.

A similar request from Air Force Communication Service for a TACAN approach to Eglin AFB Auxiliary 2 in support of the airlift to Elgin was also received Friday. This request was printed and distributed arriving to the requestor the next Tuesday.

# President Speaks Out On Equal Employment

In a letter to all agency heads, President Ford has taken a strong stand on the Equal Employment program within the Federal government.

The President said, "Minorities and women have demonstrated their ability to compete successfully under the merit principles. Over one-fifth of the jobs in Government agencies are held by Blacks, Spanish-speaking Americans, American Indians and Asian Americans. Nearly one-third of all Federal employees are women."

He was quick to add, "While I am encouraged by these figures, our efforts must continue. For example, within the general schedule and similar grade groupings, minorities represent

only 5.2% and women only 4.5% of Federal employees at GS-13 and above. I therefore want you to know how I view equal employment opportunity. I urge you to provide strong leadership in your own organization.

"Our nation's strength is based upon the concept of equal opportunity for all our citizens. Decisions motivated by factors not related to the requirements of a job have no place in the employment system of any employer and particularly the Federal Government."

He reminded agency heads that "Equal employment opportunity doesn't just happen; it comes about because managers make it happen."

## Women's Club Installs New Officers

The DMAAC Women's Club installation of officers took place at the luncheon at DeBergerac's on May 8. Mrs. John Radick was installing officer.

Officers for the 1975-76 year are: Mrs. Henry Puricelli, president; Mrs. Joseph Exler, first vice-president; Mrs. Clint Murphy, second vice-president; Mrs. Glen

Mulkey, recording secretary; Mrs. Douglas Wolfsberger, treasurer and Mrs. Myron Carlson, corresponding secretary.

Mrs. C. B. Goldacker presented a check to out-going president Mrs. Gilbert Ferguson for Covers Indian Mission, Tahlequah, Oklahoma, their principal charity for the year.

## Bits And Pieces

From the Black Book:

The approach of the summer vacation season brings about a bustle of activity in most homes. At first there is the gradual swell of excitement as plans are made for the vacation and then the activity increases as school nears completion and the children begin to anticipate with fidgety excitement the summer recess and all it holds in store. We sat down the other evening at my house to make our final plans for vacation. I'm not really sure who showed the most enthusiasm, the kids or ole dad. That same vacation fever is really catching, everywhere I go around the various offices I hear the same kind of talk—"It's only a 300 mile drive."; "If we take a plane it'll give us an extra day."; "Can I borrow a sleeping bag for the week of the 14th?" "We went there last year, and it was great." "Do you think there'll be enough gas?"

dlb..

## Honors

Laura Tolpen, daughter of Roberta and David Tolpen, ADD-N-1, was elected to the National Honor Society recently.

Laura, a sophomore at Parkway North High School, was one of only eleven sophomores inducted into the Parkway chapter.

# RD Picnic Set For June 21

by Mary Linebarger

The 1975 Annual Research Department Picnic will be held at Love Park on June 21st from 9 a.m. until dark. The park is located on Mason Road right off I-270 and Manchester Road.

The Researchers, their families and friends are invited to spend a day filled with fun and enjoyment for everyone. A pavilion, picnic tables, areas for sporting events, conveniently located restrooms and bountiful recreational activities for the children are available.

Fun goers are welcome to join in the scheduled activities or relax in the shade. Each Division will be competing for the Top Dog Trophy, to be given away again this year to the prevailing Division.

Tickets are available at a cost of \$1.00 per adult, children under 18 free. Soda, ice cream and cotton candy will be furnished. Tickets can be obtained from the following Division representatives: RD/RDP, Mary Favier, ext. 4801; RDG, Pam Young, ext. 4742; RDN, Gayle Powers, ext. 8382; RDS, Carole Pellet, ext. 4402.

The Top Dog Trophy is a tradition in Research Department.

It was originated over ten years ago and each year since has gone to the Division with outstanding athletic competitors. This year will be no exception. The finest athletes from each Division will be trying to win the coveted trophy.

Joe Dicus, Chairman of the Sports Subcommittee, reports that this year's competition will include: the frisbee toss, softball, women's volleyball, the egg toss and men's volley ball.

In the event of a tie, the Division Chief and the Assistant Division Chief of the tied offices will break the tie with an egg toss.

The Research Picnic would not be the same without Mary Pollack's children's activities. A full day of fun for the children is being planned by Mary and her assistant, Lou Burns.

Cotton candy is always a favorite, as well as balloons, treats and prizes. Many fun games and activities await the children at this year's annual Research Picnic. The day will be topped off with a marshmallow roast.

Don't forget to come to the 1975 Annual Research Department Picnic on June 21st at Love Park for a day of fun and excitement for everyone.

## ***DMAAC Employee Song Composer***

Talent, hard work and a goal to reach are the key words for success and are especially true of one of our co-workers, Eugene French (PDF). It was recently disclosed that "Gene" has a talent for song writing. He is the youngest member of a very musical family and the brother of the professional team known as the Cackle Sisters who for years entertained throughout the country with their unique style of country singing and yodeling and were long time favorites of the Grand Ole Opry of

Nashville.

Gene's sister, Mary, one of the Cackle Sisters, recognized his talent for writing songs and encouraged him to continue. Presently, Gene is staff composer of country songs for the Mar-Kay Record Company of which his sister is president.

When Gene was asked how many songs he has written, he replied, "I have thrown away as many as I have kept and that is quite a few."

LUETER, LOTA, Traffic Clerk, died on Tuesday, May 13, 1975. She had served in this position since her transfer from

Schluter

Military Records Center to DMAAC on February 19, 1959. Everyone who has gone on TDY at one time or other have had dealings with Marie who was very well versed on travel schedules and travel regulations.

Memorial services were held at the Ascension Lutheran Church on May 17.

She is survived by a niece, Mrs. Sandra L. Melcher, who had requested no flowers but that donations in memory of Marie be sent to Bethesda Lutheran Children's Home, Watertown, Wisconsin.

-O-

JAMES B. DAVIS, a former DMAAC employee, died on Tuesday, May 20. "J. B." as he was commonly known, retired in December 1965 after 32 years of Federal service.

He came to DMAAC in 1949 and held many positions in Cartography Division. His last assignment was teaching surveying at the Carto Training School.

Services were held on Friday, May 23, at Lupton Chapel with interment at Oak Grove Cemetery.

He is survived by his wife Judith and two daughters and a son.

# Five Complete 30 Years

**CHARLES R. HOWARD'S, PRNN**, Federal career began with his induction into the Army Air Corps at Jefferson Barracks in March 1943. After basic training, he was assigned to the Armament Laboratory at Wright Field, Ohio and remained there until discharged in February 1946. He was a member of the crew which took a B-29 to Washington, D.C. in

missioned a second lieutenant upon graduation in May 1944. He served with the 15th Air Force in Italy as a B-24 pilot and received his discharge on December 17, 1945.

He entered on duty at DMAAC on April 12, 1948 and was assigned to the Cartography Division of the Production and Distribution Plant. He was reassigned to the

**JOHN R. SMITH, ADDN**, entered military service in June 1942. He served as a paratrooper with the 508 Parachute Infantry Regiment, 82nd Airborne Division. He was assigned to the European Theatre of Operations participating in three campaigns — Ardennes, Rhineland and Central Europe. He was discharged in August 1945.

Howard

Jennings

Lozano

Smith

Held

November 1944 for its first public showing.

After working in private industry and the Bureau of Reclamation in Denver, he started work at the Aeronautical Chart Plant at 12th & Delmar in July 1948. He was assigned to the Cartography Division until 1954 when he transferred to the Directorate of Operations, Commitments Division. He is presently assigned to the Directorate of Plans, Requirements and Technology, Aerospace Navigation Data Branch.

He served as the USAF representative at five annual Southeast Asia Treaty Organization Cartographic Meetings in Bangkok, Thailand.

He was the first ACIC employee to be presented the Department of the Air Force Meritorious Civilian Service Award.

**HARLEY E. JENNINGS, RDSP**, reached the 30 year mark on May 20th. He entered the Army

Photogrammetry Division then various divisions within the P&D Plant. Since the reorganization in July 1972, he has been assigned to the Research Department where he is presently assigned as a cartographer in the Production Support Division.

**GEORGE A. LOZANO, CDCM**, enlisted in the Navy back in September 1942, little realizing that it would be the start of a Federal career that will complete 30 years on June 1. "A double-header, or two miracles in the same year," said George, "as I completed 30 years of marriage, to the same woman, on the 26th of May."

He received his discharge in July 1945 and the following year started as a soundex clerk for the Army Finance Center, advanced to supervisor and went on to become a claims examiner. He went from there to the Post Office, transferred to DMAAC in May

That October he went to work at the Veterans Administration in Milwaukee, but the following summer he moved to St. Louis and the Army Finance Center. He also worked at the Army Records Administration just prior to transferring to DMAAC in June 1951. He has had continuous service in the Aeronautical Information Department where he is presently assigned as an Aeronautical Information Specialist.

**LAWRENCE E. HELD, PD**, celebrates his "30th" on June 10 with all of his service at DMAAC and its predecessors. He started at the Aeronautical Chart Plant at 12th & Delmar in the Printing Department as a lithographic pressman in April 1945. He left in mid-November that year, but returned the following January. He has been assigned within the Printing Department his entire career where he is presently the

# DMA Hawaii Depot Opens

Pictured at open house ceremonies held on April 1 at the newly established DMA Depot Hawaii are Lt. Col. Merlin C. Smith, Jr., USAF, Commander (right); Lt. Jeffrey G. Bodie, USN, Hydrographic and Oceanographic Officer (center); and Mr. Alfred S. Koseki, Chief, Inventory Management Section (left).

Under the operational control of DMAAC in St. Louis, the Depot now provides hydrographic, topographic and aeronautical support and assistance to Pacific Command users throughout the Pacific from one consolidated headquarters. Disestablished upon formation of the consolidated depot were: DMAAC Flight Information Office, Pacific (Hickam AFB), DMAHC Honolulu Office (Pearl Harbor) and DMATC Depot, Hawaii (Ft. Shafter).

Hickam's base commander, representatives from CINCPAC, PACAF, CINCPACFLT, US Army Support Command Hawaii, NAVOCEANOGRAPHIC Office, 548 RTGp as well as family members of employees attended

the ceremonies where they received a briefing on all available services and toured the facilities.

Colonel Smith's staff, in addition to Lt. Bodie and Mr. Koseki, are Air Force Capts. Thomas W. Anderson, MC&G Officer, and George G. Kuennen, Distribution Officer. NCOICs for the Distribution, Flight Information and Administration Branches are MSgts. Thomas A. Morris and Willie D. Horn, and TSgt. Ronald F. Pieczkowski respectively. Included also are 8 military and 13 civilians at Hickam plus an augmentee force of 13 military personnel from the 652 Engr Bn and 2 civilians operating the Ft. Shafter warehouse. (U.S. Air Force Photo)

On May 27th, he entered the Army Air Corps Aviation Cadet training February 3, 1943 and was com-

transferring to DMAAC on May 26, 1954, where he is presently assigned as an engraver.

Assistant Chief of the now Printing and Distribution Department.

## Image Announcement

The National Conference of Christians and Jews awarded the Greater St. Louis IMAGE chapter a scholarship to attend the Human Relations Institute in Mexican Culture at the University of the Americas, Puebla, Puebla, Mexico July 6 to July 29, 1975.

The recipient of the scholarship, Richard De Sanchez of CDCB-3, will be IMAGE's representative at the Institute. The summer session will be attended by 35 participants from throughout the United States, most of whom are administrators, counselors, teachers and social workers.

Sanchez, an Executive Board member and Education Chairman of IMAGE, has a master's degree in Geography from the University of New Mexico.

The ORIENTOR is an official newspaper, published bi-weekly on Friday by and for the personnel of the Defense Mapping Agency Aerospace Center, at St. Louis, Missouri. Opinions expressed herein do not necessarily represent those of the DOD.

## Badge Awareness Day June 4

In an effort to alert employees to the proper wear and use of the security badge the Security Police Division has set June 4th as Badge Awareness Day. Employees are encouraged to join in the spirit of the day by wearing their badges properly and by reminding others to display badges in a proper manner. Badges should be worn at

all times on an outer garment above the waist.

Posters are displayed throughout the Center showing the types of badges authorized. Employees should reacquaint themselves with badge security procedures and responsibilities. The Badge Awareness Day is a good opportunity to take time to become more security conscious.

## ACSM Meet June 14

The St. Louis Section of the American Congress of Surveying and Mapping (ACSM) will culminate its technical and social calendar by holding its Annual Installation of Officer's Dinner Meeting, June 14, at the Northwest Airport Inn, 3570 N. Lindbergh.

The evening will be initiated with cocktails at 6:30 p.m. Dinner and all business transactions are to be completed by 9:00 p.m.; after which dancing and socializing is planned. This affair is only open to members and their guest.

Tickets can be purchased at the cost of \$7.80 per person. It is requested that all reservations be confirmed by June 6.

## ION Final Meeting

The final meeting of the current season for the St. Louis Section, Institute of Navigation featured a review of activities for the past year, and the installation of officers for 1975-76.

Mr. John D. Flaherty, CMMM, newly elected Chairperson, accepted the gavel from past Chairperson Adolph F. Wuen-scher, ADP, during the May 15th dinner meeting at the U. S. Coast Guard Officer's Club.

Completing the slate of officers for the coming year are Vice Chairperson, Frank J. Finklang, ADDP; Executive Secretary, Ernest G. Brock, ADPF; and Treasurer, Ruth A. Lockridge, ADDP-1.

All alone SSgt. Howard crosses the finish line on the annual run. His time was a fast 9:05.

## Ohio Vets Get Bonus

The state of Ohio is holding another Veterans Roundup in an effort to contact every Ohio Vietnam Veteran and make him or her aware of the Vietnam bonus.

Every Ohio veteran who served on active duty during the Vietnam Era, August 5, 1964 to July 1, 1973, whether in domestic, foreign, or service in Vietnam, is eligible to apply for the bonus. If a person were on active duty within the Republic of Vietnam between February 28, 1961 and August 5, 1964, a claim could also be submitted for compensation.

Additional information can be obtained by writing the Ohio Vietnam Veterans Bonus Commission, 79 East State St., Columbia, Ohio 43215.

## The Big Race—as seen by a participant

At 1230 hours, that's half past noon for the civilians, on Friday, May 16, on the magnificent track at 8900 South Broadway, 42 eager military men and two lost civilians lined up to compete in the annual mile and one-half run as required by the Air Force Physical Fitness Program.

This year's run had added interest as the Technical Director, Lawrence Ayers, and the Chief of the Missile Support Department, Frank Roth, sought to challenge the entire DMAAC military force.

Colonel Goldacker, a non-participant who headed the sick-bay corps, was the official starter and timer.

The race started with a bang as Ayers and Roth actually led the race for the first two steps (not difficult to do when you occupy the post positions 1 and 2). At the half-mile mark SSgt. Howard, closely followed by Colonel Allison, led the pack with a time of three minutes flat. It was noted that Captain Toran made an early move but soon faltered under the fast pace. Sergeant Howard and Colonel

Allison continued the pace through the first mile with a six minute time. The sergeant went on to win the race in the excellent time of 9 minutes, five seconds. Old Colonel Allison finished second in the remarkable time of 9:24. The next three finishers were SSgt. Murphy in 9:52, closely followed by Captain Zumwalt with 9:56 and the Deputy Director, Colonel St. Clair with a 9:57. Captain Toran, an early pacer, finished with a 9:58.

All participants did finish before dark. For Ayers and Roth, the post position leaders, their times of 11:50 and 12:12 resulted in the nicknames, applied by the military, of course, of the Turtle and the Snail. It was noted that in some circles those times would be considered good, but not at this Center.

## The Big Race—as seen by a female spectator

Four minutes and 39 seconds at the half mile — puff, pant, run — puff, puff — walk. Here's the military run covered from the female view.

"A whole bunch of guys came running around Building 8900-2. Most of them were wearing shorts so it was a good time to put 'boy-watching' to work. It was worth the effort. On a 10-point scale there was definitely one of 10 (he ran

five minutes of watching. Pass the word though, that next year those wearing baggy sweatpants will not be graded. One sweatpant was given a 3 this year because he was very handsome but next year the rules tighten up. Extra points were given to several of the 'older' men — while not beautiful, they were in better physical condition than some of the younger ones we ogle in the halls. And to the fellow with

Above runners on the track during the annual mile and one half run. Below—at the starting line, the only time the pack was together.

## Winner of ROTC Award

Peter T. Karnowski, son of Philip D. Karnowski (ADFC-1), has been selected for the award for four years Army ROTC college scholarship beginning this fall.

Peter, a senior at St. Pius High School, Festus, Mo., was among 41 Missouri students picked for this full tuition scholarship. These seniors were chosen last month by a board of officers at Headquarters, U.S. Army Training and Doctrine Command, Fort Monroe, Va.

The Army ROTC four-year scholarships are worth over \$12,000 and pay for tuition, textbooks and laboratory fees. They also provide a monthly subsistence allowance of \$100 up to ten months of the academic year.

Peter plans to enter Washington University and will work toward a degree in architectural engineering.

was definitely one at 9-1/2 (he may have been 10 but his face wasn't visible). There were three strong 9's and two 8's. Not bad for about

in the halls. And to the fellow with the cigarette on the way to the starting line . . . that may be what kept you out of the front five."

## Brass Take Airmen 7-6 In Softball

by Orientor Special Correspondent

The Officers defeated the NCO's in a slow pitch softball game 7 to 6 in ten innings May 16. At the end of seven innings the score was knotted 5-5 and the 8th and 9th innings went scoreless.

In the top of the 10th, with two outs, big Frank Emmerich hit a home run off the glove of the left fielder Leroy Miller. The big question was — could Frank even walk around the base paths after his brilliant mile and one half run earlier in the day. Not to be outdone, Jerry Grotz got his second hit of the day — another home run over the head of you know who — Leroy Miller. The two run lead

held up as Charles (blunderbuss) Smith popped deep to the short-stop, Goldacker, for the final out.

The inability of the NCO's big guns (Stokes, Hamilton, Stiefel and Smith) to hit the ball out of the infield with ducks on the pond proved to be their downfall. Hop-along Stokes did play brilliantly in the field for the Fighting NCO's.

The officers were led in the field and at the plate by the old reliables — Goldacker, Grotz, Kazanjian, Allison and Emmerich.

This sweet victory made it 11 victories for the officers out of the last 12 games during the past two years.

### Honor Student

Leslie M. Kellner, daughter of Norbert J. Kellner, CDCN-4, received the National Honor Society Award from Bishop DuBourg High School recently. Leslie is a Junior at the school.

## "Early Man" Topic Of Joint ACSM/ASP Meet

More than 120 ACSM-ASP members, their wives and guests learned more about the "Search for Early Man in the Midwest," as Dr. Stuart Struever presented the program May 13th for the joint society meeting.

Information for the presentation was derived from approximately 825 sites in the archeologically rich, lower Illinois Valley, with primary emphasis centered on the Koster dig near Kampsville.

The inter-disciplinary approach practiced in the last 11 years has given new insight into the cultural development of the early inhabitants of our area, reported Dr. Struever. Archeologists, botanists, computer scientists, zoologists, pathologists, ichthyologists, to name a few have worked together to collect, catalog and analyze tremendous amounts of data, allowing accurate re-

construction of the total ecological environment of any of the cultural periods represented.

One of the facets of this study, said the doctor, is that early man in this region has had a series of stable cultures as opposed to the widely held concept of a wandering nomad in search of food.

For a period of at least 8,500 years various groups of people established themselves at the Koster site, said the archeologist. The final occupation occurred approximately 1000 AD. This period witnessed a dramatic increase in population within the area, culminating in the development of Cahokia mound complex of which the Koster site was a part. Cahokia at its peak was a city of five square miles that carried on active trade with two-thirds of the North American continent.
