

# Federal Women's Day Observance Planned Here

Federal Women's Day observance October 17th at the Aerospace Center will be highlighted by a visit and speech from the Department of Defense Federal Women's Program Coordinator, Ms. Jeanne Randall.

Ms. Randall will speak to a group of employees from 9:30 to 10:30 a.m. in the Center Dining Hall. Due to limited capacity of the facility, departments and staff offices are being asked to nominate attendees.

Prior to the major address the DoD coordinator will breakfast with Center executives in the Lindbergh Room and then tour the facilities. Discussion of the Center's Federal Women's Program with the Center Director and EO Staff will follow the group address.

Ms. Randall has been active in the Federal Women's Program for several years and has been responsible for the developing Department of Defense program.

According to Barbara Savalick, Aerospace Center FWPC, the meeting with Ms. Randall is an excellent opportunity for not only women in the work force, but male employees to learn more about the Federal Women's program from one who is involved at the highest level.

## Luna Takes Part In Washington Ceremony

Bud Luna of the Aerospace Center's Aeronautical Information Division recently took part in several ceremonies in Washington, D.C., marking Hispanic Heritage Week. Bud is national President of IMAGE, an organization concerned with the plight of the Hispanic heritage individual in government.

As the national president he was on hand when Secretary of Defense Harold Brown publicly signed a Spanish language version of the Human Goals charter—Objectivos Humanos—on September 13.

"Just as it is our responsibility to defend all of the people of the

United States, I consider it my personal responsibility and the responsibility of every military and civilian leader in the Department to provide equal opportunity for all the people of DoD at all levels," stated the Secretary during the signing ceremonies.

Luna was active in other programs during the Hispanic Heritage Week in Washington including attending a brunch at the White House with the First Lady. The President was involved in the Camp David meeting at the time and could not attend as had been planned.

October 13, 1978

## Air Force Secretary Visits Center During St. Louis Engagement

The Honorable John C. Stetson, Secretary of the Air Force, is greeted by Defense Mapping Agency Director, Lt. Gen. Abner Martin, and Aerospace Center Director, Col. James St. Clair (shaking hands) upon the Secretary's arrival in St. Louis. Accompanying the Secretary was Brig. Gen. John T. Chair, Jr., military assistant to the Secretary of the Air Force. The top level visitors were at the Aerospace Center for discussions and orientation on the products and services of the Aerospace Center as they relate to the Air Force weapons systems. While in St. Louis the Secretary addressed the national convention of the National Guard.

## CFC Status Report-- Campaign Start Good

This year more people than ever have chosen to give to the Combined Federal Campaign through the convenience of payroll deduction, according to Mrs. Gretchen Hawk, Aerospace Center CFC Project Officer.

## Lt. Col. Swanson Moves To Programs

Lt. Col. Robert Swanson has

# Aero Chart Standards

## Discussed in Panama Meeting

A working group of the Aeronautical Charting Committee of the Pan American Institute of Geography and History (PAIGH) met last week at the Defense Mapping Agency Inter American Geodetic Survey cartographic school at Fort Clayton.

The purpose was to study and promote aeronautical charting standards in the hemisphere. Accomplishment of the objective was through the formulation of a common set of chart specifications.

Lawrence Jungman, Cartography Branch, Technical Division, DMA IAGS, chaired the working group.

Walter J. Chappas, National Oceanic Atmospheric Administration (NOAA), Washington, D.C., served as vice-chairman of the PAIGH Aeronautical Charting Committee. Also attending from St. Louis was John A. Kristmann, Defense Mapping Agency Aerospace Center, secretary of the committee.

Other members participating were Raul Galbarro Vianna, Brazil; Fernando Rodrigues de Carvalho, Brazil; Carlos Manterola, Chile; Cesar Serrano C., Ecuador; Carlos G. Velasco, Argentina; German Sierra Z., Colombia.

## ASP/ACSM Announce National Convention

The American Society of Photogrammetry and the American Congress on Surveying and Mapping have announced their Annual Convention, to be held at the Washington Hilton, Washington, D.C., March 18-24, 1979.

The theme of the convention will be "The Chance and The Challenge."

Technical sessions will highlight the latest advances in the fields of

surveying, mapping, photogrammetry and remote sensing. Of special importance will be a joint plenary session to celebrate the centennial of the United States Geological Survey.

The opening address will be given by Lt. Gen. Eugene F. Tighe, Jr., Director of the Defense Intelligence Agency. The keynote address, March 21, will be given by the Honorable Trent Lott, U.S. Representative from Mississippi.

Aerospace Center of Project Office.

Payroll deduction contributions and the increases in Fair Share givers has helped to make the 1978 campaign a successful one.

At presstime the statistics reflect an 11% increase in Fair Share givers over last year. And 46% of the people have given by payroll deduction accounting for 90% of the \$108,037 total collected thus far.

## Newsboys Warm-up Throwing Arms

Old Newsboys Day will again be held in the St. Louis area and at DMAAC on the day before Thanksgiving, Wednesday, November 22.

## Haddad Completes Schooling

Robert Haddad, ACCD, was recently awarded his diploma from the Air Command and Staff College at the Air University.

The diploma was presented during September by Col. James St. Clair, Aerospace Center director, in special ceremonies here.

Haddad completed the seminar program as a non-resident. The program requires about two years to complete with considerable off-duty time and effort devoted to seminar meetings, reading, writing, research, and speaking. Successful completion of the course represents a significant achievement in the career of civilian employees.

Volunteers are asked to sell the special edition of the Globe Democrat for any size donation. All money collected is distributed to children's agencies in the Metropolitan St. Louis area.

Anyone interested in volunteering for an hour or so that morning can contact Marge Wisneski, PA, ext. 4142.

## China Visitors View Center Operations

Three visitors from the Republic of China recently toured the Aerospace Center to learn more about cartographic and photogrammetric production operations.

Visiting were Maj. Gen. Chang Chih-Sheng, director, Topographic Service for the Republic of China; Col. Kuo Yen-Shou, commanding officer, China Map Service; and Col. Liu Hsiao-Min, from the Ministry of National Defense.

Lt. Col. Robert Swanson has moved from his position as Chief of the Plans Office in PR to the position of Assistant Deputy Director of the Programs, Production and Operations Directorate.

Colonel Swanson replaces the retiring Colonel Needham.

Colonel Swanson came to the Center in the fall of 1977 from duties as the Commander of the Center's Cartographic Technical Squadron in California.

He is a native of Greeley, Col., and holds a bachelors degree in geography/cartography from the University of Colorado.

He began his military duty in 1957 following his commission through the Reserve Officers Training Corps.

Army Major James Stanton has moved to the Chief's position in the Plans Office of the Directorate of Plans and Requirements.

# Friday-the-13th: Avoid Ladders and Black Cats

October is the last month in 1978 with a Friday-the-13th date.

Although the combination of Friday and 13 has been considered unlucky, the British decided many years ago to take strong measures to set aside the ancient superstition about the unlucky attributes of Friday. They laid the keel of a new vessel on

Friday, launched her on a Friday, and named her the HMS Friday. They then placed her in command of a certain Captain Friday, and sent her to sea on a Friday.

The scheme worked well up to a point. Neither the HMS Friday, Captain Friday or the crew was ever heard from again. Thus, some seamen are still skeptical about sailing on a Friday.

The reasons for apprehension about Friday, particularly Friday the 13th, is lost in the distant past. Although the day's dire outlook is attributed to the fact that Christ was crucified on that day, it was also a day of ill omen to the ancient Romans and Greeks. And there is a Moslem legend that it was on Friday that Adam and Eve ate of the forbidden fruit and that they died on a Friday.

Friday has long been known as Black Friday, both for financial and religious reasons. In the Christian church, Good Friday is also known as Black Friday, the day of Christ's crucifixion. It is a black Friday for financiers because on Friday, May 11, 1866, a well known British commercial firm folded causing a financial panic. A few years later there was a similar happening in New York on Friday, Sept. 19, 1873.

Perhaps Friday is a bad day because of the way it received its name. Anglo-Saxon legend says that we get our name for Wednesday from the god Odin or Wodin. Thursday comes from the Anglo-Saxon Thunresdaeg, son of Odin. The

## Bits And Pieces

From the Black book:

October is normally a good month. It heralds the coming of winter with splashes of color in the landscape and nips of frost in the air. It gives us the opportunity to gradually bring the heavy suits from the back of the closet and work the lightweight ones to the rear. It provides the air conditioner fan a rest period before it becomes the driving force behind the furnace. It provides kids everywhere the chance to listen to ghost stories and scare mom and dad on Halloween night. October provides the fur bearing animals a chance to replace the coats they've shed during the summer and to fortify their burrows with warm, soft material. It gives the birds that transition period they need to head South, a favor it also provides to some lucky humans. This October has one other thing that makes it rather special—the last of the Friday the 13ths for this year.

—0—

Speaking of Friday the 13th, you will note that we in the *Orienteer* staff have no fear. Our publication has come out as usual regardless of the date or the superstition surrounding it. Now that the paper is out I can pay off the witch doctor and send him home. It's the little things an editor must do that makes the job a challenge.

dlb...

## Security Policeman of Month

Vernon A. Modglin has again distinguished himself as Security Patrolman of the month for August. He is currently working the 2nd shift and is widely known and respected by DMAAC employees working the 2nd shift.

Modglin has 34 years total Federal service. He entered the Navy in June 1943 and served until his retirement in July 1966. He has been at the Center a little over four years.

He and his wife Dolores have a son and two daughters and are residents of Waterloo, Illinois.

Addition to Technical/Professional Society Annual Calendar—ACSM contact—J. Harris, 4815.

## CRYPTOGRAMS

CRACK THE CODE and discover the secret messages by substituting the correct letter for each letter given. Each cryptogram has its own code, so you must solve them one by one. Here's a helpful hint for beginners: Look for repeated three-letter combinations that might represent the word "the." Deciphered messages are on page

## Four Bid Center Farewell

**JOHN T. SCHOCKLEE, ADD**, retired effective September 8 with 24 years, 9 months total Federal service.

His career started with military service during WW II as a clerk in the Personnel Department. He also worked temporarily at the Post Office. He came to the Aerospace Center in December 1958 and was assigned to the Directorate of of Materiel, Supply Division and held clerical positions until October 1964 when he was reassigned to the Chart Research Division. In December 1974 he transferred to the Directorate of Administration, Documentation Division where he was assigned as a management assistant until his retirement.

Shocklee said he plans to devote considerable time participating in religious type work.

**CHARLES R. LAWTON'S, PDL**, disability retirement was effected on September 20.

He joined the Aeronautical Chart

Plant at 12th & Delmar on June 25, 1951 and was assigned to the Printing Department. His entire Federal career of 27 years, 2 months has been at the Center as a photographer (map & chart).

He said his retirement plans are "hunting and fishing."

Retirements effected for which no information was furnished the orientor include:

**CHARLES O. DENZ, ACAEC**, retired effective August 31 with 27 years total Federal service. He served in the Air Force from 1943 to 1946 and had been at the Aerospace Center since 1954 as a negative engraver.

**HAROLDO. FREEMAN, ADPP**, retired on August 31 with 37-1/2 years total Federal service. He served in the Army and the Air Force and retired with 20 years military service. He joined the Aerospace Center in 1965 and was assigned as an aeronautical information specialist.

## Allard Looks Back at 30

**AUGUST W. ALLARD, FEMA**, reached the 30 year mark on September 21. He entered the Army in the summer of 1943 at Fort Riley, Kan. and was sent to the South Pacific area and there was assigned to the Army Engineers 493rd Heavy Shop Company as an electrician. After approximately three years in service he returned to civilian life. He was recalled to active duty in 1950 to serve with the Army Engineers 439th Construction Battalion and was sent to Korea to rebuild railroad bridges and roads that had been destroyed, returning to civilian life in the late summer of 1951.

In the spring of 1952 he returned to Federal service at the St. Louis Ordnance Plant as a tool and gauge checker and in 1955 he was transferred to the St. Louis Ordnance District's tool and gauge

## September Honor Roll

Norris G. Decker.

## New Officer Arrivals

Lt. Col. Gordon Barnes, USAF, reported to the Aerospace Center from the DMAHTC Geodetic Survey Sq., F.E. Warren AFB, Wyo. He has been assigned to the Directorate of Plans and Requirements as Chief of the Space and Missile Systems Branch.

The colonel is a native of Michigan where he received a degree in geophysics from the University of Michigan in 1956. He later received a masters degree in geodetic science from Ohio State University.

The new arrival has 22 years of active service and is rated as a master navigator.

Capt. Walter Edmonds, USAF, recently reported for duty with the Aerospace Center in the Systems and Techniques Directorate as a cartographic/geodetic officer.

The captain is a native of Massachusetts and holds a degree in Forestry from the University of Massachusetts and a masters in photogrammetry from State University of New York College of Forestry.

Prior to coming to the Center he was with the 16th Surveillance Squadron, Shemya AFB, Alaska.

Captain Edmonds gained his commission through the ROTC program in 1972.

## Promotions

The following people received promotions during the month of September: Edward W. Allen, GS-9; A. Clay Ancell, GS-13; William F. Bahr, GS-11; Jerry O. Bratz, GS-9; Lee C. Brewer, WP-22; Willard D. Buford, GS-12; Charles M. Chapman, GS-12; Harold K. Clarkson, GS-9; Johnny Lee Coleman, GS-12; Ronald R. Crawford, GS-9; Kurt E. Dikkers, GS-9; Quentin R. Dominguez, GS-12; Walter H. Fisher, GS-11; Virginia L. Garcia, GS-7; Roy B. Gillyon, GS-9; Thomas A. Grunzinger, GS-13; Nelson C. Harbor,

GS-12; William H. Heidbreder, GS-13; Earlene G. Harris, GS-7; James T. Harris, GS-12; Linda A. Hayes, GS-2; Mary B. Henderson, GS-9; James P. Hutchings, GS-12; Stephen B. Hux, GS-12; John E. Itschner, GS-12; Andrew A. Jackson, GS-13; Walter J. Klos, WP-26; Vincent A. Kluge, GS-9; Bernard J. Kolo, GS-13; Martha R. Lahr, GS-6; Robert V. Lewis, GS-13; Michael L. Link, GS-9; David J. Magditch, GS-9; Bernard L. Mazurkiewicz, WP-22; Adam Mink, GS-13; Ronald D. Olsen, GS-14; Warren H. Osterloh, GS-13;

laboratory at Washington University. In August 1957 he transferred to the Aerospace Center as a journeyman electrician until June 1967 when he was promoted to electric shop foreman. In December 1976 he was promoted to his present job as general foreman of trades, crafts and utilities.

"I have seen many changes during my stay here at ACIC/DMAAC, not all of them good, but we have made great strides in some areas of accomplishments," added Allard.

## Photo Lab Dance

The SDR Photo Lab has already announced plans for their annual Christmas Dinner Dance. It will be held Saturday, December 3rd, at Town Hall North, 8201 North Broadway.

Hours of the affair will be from 6:00 p.m. until 1:00 a.m.

Tickets are available at \$12.50 per person with limited attendance. So get your tickets early. Joseph Moreno is the chairman of this year's dinner-dance.

Thelma J. Poole, GS-12; John R. Reiter, GS-11; David E. Rogers, GS-13; Leo W. Saulnier, Jr., GS-13; Carolyn G. Schifferdecker, GS-8; Jean E. Seymour, GS-9; George B. Sigler, GS-13; Randall L. Stanley, GS-9; Jerry A. Stotts, GS-13; Sidney J. Thierjung, WP-21; Robert J. Vogler, GS-9; Royal C. Webster, GS-11.

## SUGGESTION AWARDS

Elmer D. Lanigan, Jr., \$330.00; Eugene P. McCloskey, \$155.00; Hubert C. Tidwell, \$50.00; Russell I Byington, \$45.00; Sharon D. Yarber, \$25.00.

## No-notice Safety Inspections

The Center Safety Office has begun a series of no-notice occupational safety and health inspections that are required by law for the entire organization.

Starting with the Public Affairs Office on October 6th, the inspectors will eventually visit every work area at the Aerospace Center with completion of the inspection program in late December.

Inspectors will be accompanied

on the inspections by representatives of management and employee representatives. Areas will be checked for any mechanical or chemical hazard that may be injurious to an employee's health or safety.

Following the inspection and discussion at the work site a formal report will be issued to the department or staff agency chief by the Deputy Director.

## DMAAC Rebels Ninth In the Nation

For the Rebels this was a very good year, as they completed the 1978 slow-pitch softball season with a record of 94 wins - 18 losses and placed ninth in the National Major Industrial Championship Tournament at Charlotte, North Carolina.

The team's accomplishments are the winning of four leagues, ten tournaments in the St. Louis area and the Major Industrial Western Regional Tournament title which qualified the team for "The National" where they were in competition with 36 other Regional winners from across the Nation.

"I'm proud of them (the Players). And the Rebels have made St. Louis softball history by placing higher than any other industrial team has from this area in a National Tournament," said Manager Garnet Bebermeyer.

The season record for tournaments is 58-15 and for leagues is 36-3. The Rebels record for the past ten years is 542 wins and 125 losses. The leading hitter this year was Tom Dufford with a .562 batting average. RBI and Home Run King was Sam "Jacker" Searce with 130 RBIs and 26 homers.

The 1978 DMAAC Rebels are Tom Dufford, GDCAC; Steve Wallach, GDLCB; Bruce Thompson, GDDBB; Scott "Hoot" Gibson, GDLBA; Fran Renschen, GDGGC; Sam Searce, SOP; Mike Perkins, ACIT; Don Duncan, GDMAA; Russ Kappesser, SD-DLT; Phil Foster, ACC; Walt Czarnecki, GDGGB; Lonnie Williams, ACADA; Greg Schmeiding, GDLCA; Bill Judge, GDMBD; Scorekeeper, Tony Brinkman, GDCAB; and Manager Garnet Bebermeyer, GDCAC.

### CRYPTOGRAM ANSWERS

1. A lot of men have found that walking is healthy—especially if they have wives who drive.
2. Bragging: the patter of little feet.
3. Sometimes silence is not golden—just yellow.
4. The books that help you the most are those which make you think the most.
5. Most rock and roll music is the kind you keep hoping will turn into a tune.
6. A pig bought on credit is forever grunting.
7. The garden spade is still one place where a man can still put his foot down and get by with it.
8. An optimist is a fellow who marries his secretary and thinks he can go right on dictating to her.
9. Women's clothing designers had better be careful or they'll work themselves out of a job.
10. When a man no longer complains about his bride's cooking, it means she has learned better—or he has.

## In Sympathy

Lloyd H. McCoy, ACAB, died suddenly on September 23.

He came to the Aeronautical Chart Plant at 12th & Delmar in November 1949 and was assigned to the Cartography Department. He was recalled to military service in September 1950 for the Korean conflict and served until December 1951. He returned to the Center and the Cartography Department. He was presently assigned to the ATM Nav/Plan Charting Division as a cartographer.

Services were held September 27.

Besides his wife Luella, he is survived by a daughter, Jeannette, and a son, Scott.

## Hayden's Daughter Grad

Miss Andrea Hayden, daughter of John Hayden, GDDP, was graduated from the University of Missouri, St. Louis at the end of the 1978 summer session. Her Bachelor of Arts degree in Psychology was conferred with cum laude honors.

Miss Hayden is now employed as an Educational Assistant at the St. Louis State Hospital.

## Photo Organization Chart Up-date

For those maintaining the photo organization chart published in the July 21 issue of the *Orienteer* the following photo replacements should be made. The photos are the exact size of those pictured in the chart so that they may be glued in the proper positions.

## White House Letter

Colonel John W. Park, Director, DMA IAGS, presents a letter from President Jimmy Carter to Emory Phlegar, Chief, Cartographic Branch, DMA IAGS Cartographic School, for his outstanding work in preparing maps for negotiations in the Panama Canal Treaty finalization. Sharing the ceremony is Mrs. Laura Phlegar. In the letter the President said, "The ratification of the Panama Canal Treaties of 1977 was a major milestone in United States foreign policy. Your supervision of the preparation of the treaty maps during the final stages of the negotiations was a very significant accomplishment and I want to offer my sincere thanks for a job well done."

The Saxons had three names for the month of October: Win-monath, or the time for making wind; Teo-monath or tenth month; and Winterfylleth, because winter was supposed to begin with the full moon of October. At one time the Romans considered calling it Hercules, after a Roman emperor who fancied himself as that mythical strongman. Can you imagine Halloween coming on the 31st of Hercules?

Rosh Hashana, Jewish New Year, falls on Oct. 2, with the observance beginning at sundown the day before and continuing until sunset the day after. Yom Kippur or Day of Atonement begins on the evening of Oct. 10 and ends at nightfall the following day.

October is an important month to many ethnic groups in the United States. Oct. 9 is Lief Erikson Day, commemorating the discovery of America by that Norse seaman about 1000 A.D. And this year, Oct. 9 is also Columbus Day, since Public Law sets the second Monday in October as the day for

commemorating the landfall of Christopher Columbus in the New World in 1492.

Pulaski Day, Oct. 11, is observed by Presidential Proclamation and commemorates the contributions of General Casimir Pulaski, the Polish count who was killed while

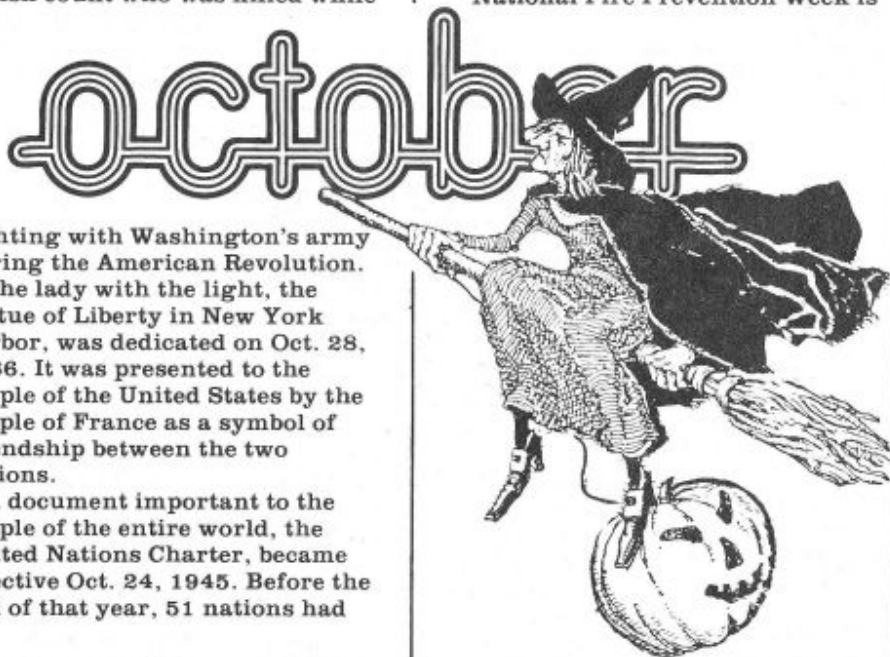

fighting with Washington's army during the American Revolution.

The lady with the light, the Statue of Liberty in New York harbor, was dedicated on Oct. 28, 1886. It was presented to the people of the United States by the people of France as a symbol of friendship between the two nations.

A document important to the people of the entire world, the United Nations Charter, became effective Oct. 24, 1945. Before the end of that year, 51 nations had

ratified the Charter and joined the international organization dedicated to world peace. During the following years, nearly three times that number of countries have become members of the U.N. world body.

National Fire Prevention Week is

observed by Presidential Proclamation during Oct. 8-14, coinciding with the anniversary of the great Chicago fire which began on Oct. 8, 1871, when Mrs. O'Leary's cow kicked over a lantern in a barn and set the city ablaze. The purpose of the week-long observance is to remind people of the disastrous results of fire and to urge fire prevention safety practices all year round.

The U.S. Navy marks its official birthday on Oct. 13, and Navy Day observances are conducted throughout the month.

U.S. Presidents born in October include: Jimmy Carter (Oct. 1); Rutherford Hays (Oct. 4); Chester Arthur (Oct. 5); Theodore Roosevelt (Oct. 27); and John Adams (Oct. 30).

The month ends with Halloween or Eve of All Hallows on Oct. 31, which was also the superstitious Druids' New Year's Eve. Ancient pagan practices were combined with Christian customs in the seventh century, and this autumn festival continues today as both a religious and secular holiday.
