DEFENSE MAPPING AGENCY AEROSPACE CENTER

Vol. XXII, No. 22

October 24, 1980

CFC Exceeds Goal Contributions Near \$164,000

The Aerospace Center Combined Federal Campaign (CFC) drive exceeded its projected goal during the last week of the campaign, according to Ken Diers, assistant project officer.

As of presstime, employee contributions had reached \$163,492.38 exceeding the goal of \$144,000. While the final figures will be tabulated during the latter part of the

month, it is evident the Aerospace Center employees have again stepped to the forefront of the area Federal employees with the generous contributions to the needs of the community and national and international health and service agencies.

The near final totals for the Center indicate a participation rate of 77 percent with payroll deduction pledging amounting to 90 per-

cent of the contributions. Based on a per capita accounting, the Aerospace Center employee's average donation was 61.07 dollars.

Special "thank you" sessions are planned next month to recognize those who have voluntarily worked to make the campaign a success. "Of course, our biggest thank you must go to all who gave so generously of their money to help others," said Diers.

Explorers Open to Employees' Children

The Aerospace Center sponsored Explorer Scout Post on cartography is now in the formation process and is open to youth from ages 14 to 21 years old.

According to post officials, special permission has been given for children of Aerospace Center employees to join regardless of their place of residence. This ruling

allows youth from Illinois or residents outside the St. Louis Area Scout Council to take part in the cartographic post activities.

The Post is looking for youth interested in the professions of cartography, surveying, photogrammetry and related topics to become active members. Interested

adult leadership is also welcomed.

Youth and parents interested in taking part in the Post are invited to attend the next meeting Oct. 28th (Tuesday) at 7:00 p.m. in the South Annex auditorium.

For additional information contact Bill Mantinband (ext. 4527) or Walter Maddox (ext. 4670).

Fire Talk ...

St. Louis Fire Department Battalion Chief John Colburn (right) and Snorkel Captain William Alley (center) talk with an Aerospace Center employee during the fire drill held Fire Prevention Week. Employees evacuated Building 36 in a record 4½ minutes. Following the evacuation employees witnessed a demonstration of the aerial ladder and snorkel. Rescue equipment was also on hand for

Plan Travel Save Dollars

From now on when you plan to fly on official travel, get your re-

19 Years At Same Location

aerial ladder and snorkel. Rescue equipment was also on hand for viewing. At South Annex the Lemay Fire Department responded for the drill. Center Fire Chief James Bell expressed his appreciation to the St. Louis Fire Department and the Lemay Fire Department for their excellent support to the Center.

ACSM Fall Membership Drive Begins

The American Congress on Surveying and Mapping (ACSM) is beginning its fall drive for new members. ACSM serves as the national professional organization for the cartographer, the control surveyor-geodesist, and the land surveyor.

Membership fee per year in the ACSM is: \$36.30 for a member; \$29.70 for an affiliate; and \$7.70 for a student. The fee includes an an-

nual subscription to "Surveying and Mapping", "ACSM Bulletin", and "The American Cartographer."

Interested parties may contact any of the following ACSM representatives for details and applications: Charles Poeppelmeier, CDT, 4486; Fred Hufnagel, STT, 4937; Chuck Erpenbach, CDAT, 8220; Jane Thomas, CDVT, 4049; Eleanor Mandel, SDDAE, 4620; Mel Nelson, CMMM, 4901; and Ted Mach, CDCA, 4931.

on official travel, get your requirements to the transportation office (ext. 4411) as soon as possible. Even a day's delay may mean a jump in fare of \$10 or more.

According to transportation officials, airline deregulation allows airlines to file fare changes on one day's notice or less. The fare charged is the one in effect at the time a ticket is issued - not the fare which may have been quoted earlier.

Travelers should plan their trips so schedules will not have to be changed and tickets reissued. Any change in original flight or some part of a multiple flight schedule means the agency will have to pay any increase in fare which took effect after the original ticket was issued.

Early planning and advance reservations may also mean tickets can be purchased at discount fares.

The men and women of the Aerospace Center have hawked the Old Newsboys Special Edition of the St. Louis Globe Democrat since November 1962. This year volunteers have signed up again to do their part. On November 18, do like these ACICers from 1963 did and buy a paper from a Center "Old Newsboy or Girl".

How Important Is ONE Vote?

In 1645—ONE VOTE gave Oliver Cromwell control of England.

In 1649—ONE VOTE caused Charles I of England to be executed.

In 1776—ONE VOTE gave America the English language instead of German.

In 1839—ONE VOTE elected Marcus Morton Governor of Massachusetts.

In 1845—ONE VOTE brought Texas into the Union.

In 1868—ONE VOTE saved President Andrew Johnson from impeachment.

In 1876—ONE VOTE gave Rutherford

D. Hayes the Presidency of the United States.

In 1876—ONE VOTE changed France from a Monarchy to a Republic.

In 1923—ONE VOTE gave Adolph Hitler leadership of the Nazi Party.

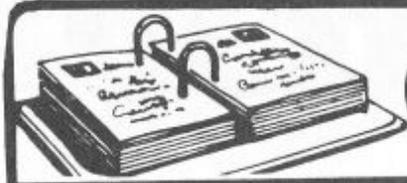

On November 4, 1980, all 435 members of the House of Representatives, except for those who have announced their retirement, are up for re-election. In the Senate, 34 members will be up for re-election.

Your ONE VOTE may make the difference.

Thirty Years Service Celebrated By Two

DONALD E. SHADDEN, GAPP, celebrates his 30-year anniversary today, October 24.

He began his military service when he enlisted in the U.S. Army in November 1948. He was in the Army of Occupation in Sapporo, Japan from 1949 until the outbreak of the Korean War. He was with the Infantry, 27th Regiment, 25th Division from July 1950 until August 1951.

Shadden was hired by the Aeronautical Chart and Information Center in August 1954 as a lithographic plate maker. In 1970 he was promoted to lithographic draftsman, and then as platemaker lead foreman in April 1980. In May of 1980 he was promoted to platemaker foreman, which is his current position.

VERNON CHARLESTON, CMDO, will celebrate 30 years of service on Oct. 28.

He began his career in the Army 945 Quarter Master Reserve Unit from 1949 until August 1950, at which time the unit was activated. He received basic training at Fort

Shadden Charleston

Hood, Tex., but received a dependence discharge in December 1950.

In February 1951 Charleston started as a laborer at the Medical Depot and three months later was transferred into the IBM Department.

He began work at the Aeronautical Chart and Information Center in March 1955 in the Electronic Data Processing Branch until 1959 when automatic data processing was implemented.

Charleston has completed 15 data automation schools which includes four programming courses. He is presently chief of the Computer Operations in the Management ADP Division of the Comptroller.

September Retirements

WARREN E. GILBERTSON, CDAAB, retired from the Center on Sep. 19 with 28 years, 7 months federal service, 17 years, 5 months of that time spent at the Aerospace Center.

He began his military service in 1942 in the U.S. Army Ordnance Ammunition School as a S/Sgt. Instructor, until 1946.

From 1946 until 1954 he was with the U.S. Geological Survey Central Region in Rolla, Mo., doing topographical field mapping.

He was a senior cartographer at the time he retired. His retirement plans are working on his hobbies of

Understanding Alcoholism

What Does Excessive Drinking Do To You?

Part II

Sleep: While low doses of alcohol induce relaxation and sleepiness, large doses produce sleep disturbances, experienced as restlessness and a shortened period of rapid eye

appears to be aware of what is happening. Yet later, he or she has no recollection of events during the blackout. This phenomenon differs from the more common partial or distorted recollection of events that

September Promotions

The following people received promotions during the month of September: William C. Ahlersmeyer, GS-9; Joseph Aromando Jr., GS-7; Patrick B. Boone, GS-9; Evelyn J. Braden, GS-6; James D. Brannon, WP-22; Bert W. Bryant, GS-11; Nomia N. Bryant, GS-9; Helen L. Bullock, GS-11; Luther L. Clauss Jr., GS-9; Stephen E. Clemmer, GS-9; Michael J. Collier, GS-7; Paul R. Conrad,

GS-14; James P. Jaeger, GS-7; Robert E. Jett, GS-11; Mark L. Kemner, GS-9; Kay K. Kersting, GS-6; Joseph L. Klein, GS-11; Kenneth B. Korte, WP-22; Michael L. Lewis, GS-11; Carolyn L. Lloyd, GS-5; Deborah A. Lynch, GS-5; Don J. McKinney, GS-11; Anthony J. Michaels, GS-9; Betty A. Middleton, GS-7; Cynthia J. Millner, GS-11; Christopher C. Moeller, GS-9; John M. Moon, GS-9; John A. Moss,

and a shortened period of rapid eye movement (REM) or dream sleep. Results include fatigue, irritability, impairment of concentration and memory, and a variety of physical discomforts.

Sexual Functioning: It is a popular notion that alcohol acts as an aphrodisiac. While it may assist in overcoming guilt and lack of self-confidence, promote a feeling of sexiness or amorousness and release inhibitions, actual performance is impaired. Chronic heavy use of alcohol can result in sexual frigidity or impotency. Generally, the disturbance in sexual function disappears with abstinence from alcohol over a period of several months or perhaps as long as a year or more.

Central Nervous System Effects: Long-term excessive use of alcohol can result in premature aging of the brain. This alcohol-related organic brain syndrome (OBS) is permanent and irreversible.

One well-known, but not universal, CNS effect of excessive alcohol use is the blackout. Unlike fainting or "passing out," in which a person loses consciousness, an individual experiencing a black-out walks, talks, and acts normally, and ap-

parently unaware of events that returns at a later time. The affected person is not aware of a blackout as it happens and neither are observers. The individual may be told later by others that he engaged in arguments or fights or destruction of property or even took a trip. After coming out of the blackout, the person is usually aware of a void of time, with no memory of the events that took place during that time. It is not uncommon under these circumstances to discover personal injuries or find that others have been harmed. Reactions to finding out that a blackout has occurred include passive indifference, disbelief, intrigue, and marked fright. Not all persons with alcohol problems experience blackouts. Blackouts have been reported after ingestion of only a few ounces of alcohol and can occur in alcohol-dependent persons who had not been drinking at the time.

Pathological Alcohol Reaction: Some people, after drinking only a small amount of alcohol, lose contact with reality, get out of control, become violent and physically destructive. A person in this state may attempt homicide.

To Be Continued.

gold, woodworking and painting.

September retirement for which no background story information was provided to the Orientor include:

CHARLES J. MAHER, ADDED, who retired on Sep. 5. He had 37 years, 2 months federal service, spending 14 years, 10 months at the Center. He was an aeronautical information specialist when he retired.

WILLIAM H. HEMINGHAUS, GADF, retired on Sep. 26 with 32 years, 11 months federal service. He spent 29 years, 11 months at the Aerospace Center and was a supervisory inventory management specialist when he retired.

WILLIAM G. HYATT, CDAP, a supervisory cartographer when he retired on Sept. 30, had 30 years, 2 months federal service. He was with the Aerospace Center for 27 years, 3 months of that time.

The ORIENTOR is an official newspaper, published bi-weekly on Friday by and for the personnel of the Defense Mapping Agency Aerospace Center, at St. Louis, Missouri, as authorized by DoD Instruction 5120.4. Opinions expressed herein do not necessarily represent those of the DoD.

Retirees' Association Growing In Number

The Association of Aerospace Charting Seniors recently held their second meeting in the Center Dining Hall with 112 attendees that included members and their spouses, and other retirees. Membership in the Association is now at 160 individuals representing 15 states and the District of Columbia.

Some of the out-of-town attendees included Mr. and Mrs. Tom Finnie from Kentucky, Mr. and Mrs. Charlie Arthur from Virginia, and Mr. and Mr. Homer Fisher and Neil Schultz from Florida.

Gil Ferguson, president of the association, presided at the meeting during which a survey was distri-

buted to determine the kind of activities the membership would be interested in initiating for the 1980-81 year. An interim Association membership directory was also given to those present.

The Aerospace Charting Seniors encourages retirees interested in joining the association to merely write their names and addresses on a piece of paper and send it along with a check for \$5.00 for a one-year membership, or \$50.00 for a lifetime membership to: Aerospace Charting Seniors, P.O. Box 8823, St. Louis, MO 63102.

The advantage of membership is receiving a directory of members' names and addresses.

Vacations Donated To Scouting

Five Center employees donated part of their vacations this summer to serve as camp leaders for their scouting units.

Col. Robert Burns, director of the Center, received a letter from Robert F. Meinholtz, scout executive of the Boy Scouts of America, in which he stated, "We are sure that you are pleased to learn of this unselfish and outstanding service. We thank you for creating the kind of climate in your organization that encourages employees to render service to our community."

The employees who used their leave time to participate in summer camp with the scouts were:

Richard B. Dierkes, SSA, is an assistant scoutmaster for Troop 904, sponsored by St. Matthias the Apostle Men's Club. He checked into Camp Gamble at the S-F Scout Ranch with 16 boys. This was his seventh year in camp.

Robert A. Maes, GDCBB, is a

committee chairman for Pack 661, sponsored by Point School P.T.A. He checked into Camp May at the S-F Scout Ranch with 18 boys. This was his third year in camp.

Richard E. Dumont, SDCC, is cubmaster for Pack 200, sponsored by Affton Mothers' Club. He checked into Camp May at the Beaumont Scout Reservation with five boys. This was his first year in camp.

Frank J. Aufmuth, SDRAC, is a cubmaster for Troop 723, sponsored by St. John's P.T.A. He checked into Camp May at the Beaumont Scout Reservation with five boys. This was his first year in camp.

Egon J. Wetzker, GDGB, is a Webelos leader for Pack 267, sponsored by Beasley Elementary School. He checked into Camp May at the Beaumont Scout Reservation with six boys. This was his first year in camp.

Old-Fashioned Picnic On The Grounds

Orienteer Profile

"The Challenge To Be Number One"

Garnet Bebermeyer of the Geopositional Department's Photogrammetric Control Division has been managing men's slow pitch softball teams since 1969. He is probably one of the winningest managers in the past ten years in regards to men's softball as Sparky Anderson has been in the past ten years in baseball for the Cincinnati Reds, or Earl Weaver has been for the Baltimore Orioles. In fact, his percentage of wins for the period of 1969 to 1980 average out to almost 80% of his games. This is no small accomplishment when you consider that his teams have played 980 games, winning 778 of them and only losing 202.

Bebermeyer, or "Beb" as he is better known to his players and fellow workers at the Aerospace Center, has managed three Center teams - the Phantoms for two years, the Rebels for eight years, and the Tenrags for one year. The 1980 season was the first team he has managed that wasn't comprised mainly of Center employees.

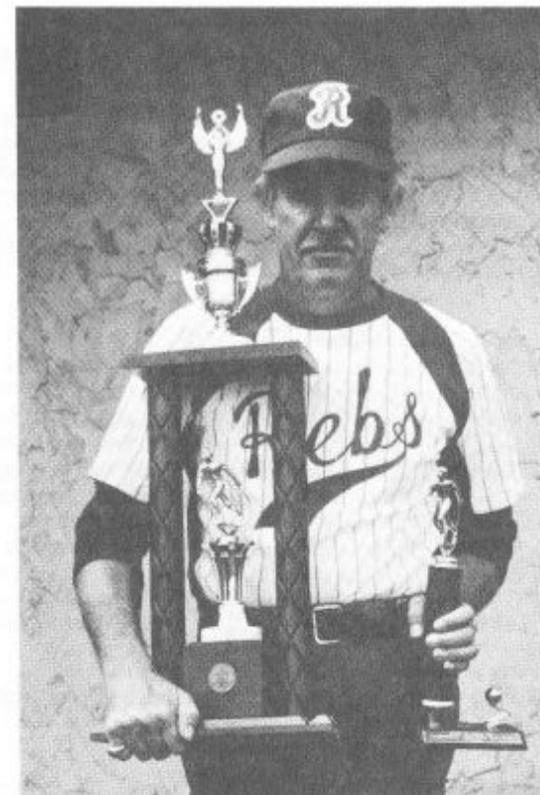

When Beb was asked by the Orienteer what makes him such a winning manager, he said, "You have to play a lot of ball to have a good team." His team this year played two nights a week, one of those nights in a double-header league. Add to that weekend tournaments played at least three weekends out of a month, and there goes the summer. Needless to say, spring is the only time of year his teams practice.

During the eight years from 1971 to 1977 that Beb managed the DMAAC Rebels, "the team received more recognition than any other Industrial team in the St. Louis area for winning more city playoffs and tournaments," reported Beb.

For the past two years he has managed "A" slow pitch softball teams rather than Industrial. "AA" is the highest ranking for slow pitch softball, with "A" being second. "This makes it hard to keep the players on the team, because the double A teams are always trying to steal my players," said Beb.

His team this year ended their season with 103 wins and 27 losses, and accumulated 373 home runs on fences ranging from 280-300 feet. His leading home run hitter alone had 78 home runs. They were the Missouri USSSA State Champions in Class B, and in the United States Playoffs they finished second out of 81 teams.

Beb's best year as a manager was in 1979 when his team was ranked second in the world. During the season they came in first place in their early and late

Garnet Bebermeyer displays two of the trophies his team won during 1977 when he managed the Rebels.

ning my team for this year was \$6,000.00," said Beb. "The money covers entry fees into the leagues, uniforms, equipment, tournament fees, traveling expenses and motels. This is the most I've ever spent on a team. The sponsor paid for \$3,800 of the expenses, and the rest was raised by the team when they sponsored tournaments."

Traveling with the team to tournaments has taken Beb to such places as North Carolina; York, Penn.; Dearborn, Mich.; Omaha, Neb.; and all over the state of Missouri.

During his twelve years of managing his teams

More than 500 people attended the Aerospace Center Federal Women's Program and Hispanic Heritage Program Day Oct. 3. Some of the attendees are shown (above) as they make their way through the pit barbecue steak line for a tasty lunch. Featured speakers for the event (below) were Councilwoman Betty Van Umm of St. Louis County (right) and Weatherman Ollie Raymand of KMOX-TV (second from right). Pictured with the speakers are (left to right) Center Technical Director Dr. Macomber and Director Colonel Burns.

team was ranked second in the world. During the season they came in first place in their early and late "A" leagues at Harwood Park, first in the DMAAC Industrial League, and first in the "A" playoffs. Some other interesting statistics during that year were scoring 14 home runs in one game, and 7 home runs in one inning. The team turned 71 double plays and 2 triple plays, and won 20 trophies which included 14 first place trophies. They averaged 11.4 runs per game, while their opponents only averaged 6.9 per game.

Managing a winning men's softball team takes a lot of time, dedication . . . and money. "The cost of run-

of Missouri.

During his twelve years of managing, his teams have accumulated 101 trophies, and he has approximately 40 individual trophies at his home.

Beb has been playing softball since he was 24 years old, and still plays once in a while when he's needed, but managing is now what he enjoys most. When asked why he enjoys it, since it obviously is time consuming and a lot of work, he replied, "Because of the challenge of trying to be number one."

Beb has been at the Aerospace Center for 33 years. His wife, Judy, also works at the Center in CDIBB, and recently gave birth to their twin sons.

SRC Fall Dance

The Aerospace Center Sports and Recreation Council is sponsoring a Fall Dance on Saturday, Oct. 25 in the Second Street Dining Hall. Music by "The Traveling Music Machine" disc jockey will begin at 8:30 p.m. and continue until 12:30 a.m.

Tickets are \$5.00 in advance and \$5.15 at the door. Beer, setups and snacks will be provided. Tickets are available from any volleyball or basketball team captain or anyone of the following: Janet Fialka, CDAC, 8449; Jane Drazen, ADAA, 8434; Paulette Martin, LOSA, 8309; Jim Palmer, GDMD, 4303; Terri Kramer, SD, 4544; Chuck Arns, CMM, 4901; Kate Doyle, CDVB, 4424; and Carol Greco, CDIT, 4339. Everyone is welcome.

Toastmaster Talks Way To Another Win

Charles Pillar, Aerospace Center Toastmaster from GDP, moved up one more notch in the Toastmasters Humorous Speech Contest as he was chosen the winner in the Missouri South Division's competition held recently. He will now compete at the District level with winners from three other Divisions on Nov. 15 at the Ramada Inn in Fairview

Heights, Ill.

The winner of that competition will go to the Regional level, (which is the highest level for the Humorous Speech Contest) in June of next year.

Pillar has already gone higher in competition than any toastmaster in the Aerospace Center Club.

Graduates of LTFTT

Several Center employees received degrees after completing Long-Term, Full-Time Training during the 1979-80 school year. Receiving MS degrees in geodetic science from Purdue University were Charles Peterson, Henry Taber and

David Rauh. Connie Carter received an MS in photographic science & instrumentation from Rochester Institute of Technology, and Donald Fizer received an MA in communication from St. Louis University.

Co-ed Volleyball League

The 1980-81 DMAAC Co-ed Volleyball League swung into action on Tuesday, Oct. 21. This year's league consists of 22 teams divided into two divisions. Division A consists of the Leftovers, Ziegfield's Volleys, VO Vollyers, Knetknockers, High

Ballers, Renegades, Serving Line, Lynch Mob, Baker's Dozen, 12-Paks and Out To Lunch Bunch. Division B is led by defending champions Good, Bad & The Ugly, Chinese Sandpeople, Golden Spikers, Mickey's Tavern, Network, Chivas Re-

gals, Up-For-Grabs, Sugar Daddies, Mack Attack, The Volley of the Balls and Uneven Odds.

Games are played at the Soulard Recreation Center from 3:30 p.m. to 6:00 p.m. and the Carondelet YMCA from 3:30 p.m. to 10:00 p.m. on Tuesdays. The regular season consists of a 19 game schedule followed by a double elimination tournament to select the 1981 DMAAC Coed Volleyball champion. Trophies will be awarded to the top three teams in each division during the regular season. The top three teams in the Championship Tournament will receive trophies with the champions receiving the traveling trophy for placement in the Sports and Recreation Council trophy case. A sportsmanship trophy will be awarded to the team displaying the best sportsmanship throughout the season.

—Chuck Arns

Standings After First Week

Men's Basketball League

The 1980-81 version of the DMAAC Men's Basketball League is scheduled to bounce on the hardwood on Nov. 5. The league will be played on Wednesdays, starting at 4:00 p.m. at the Soulard Recreation Center. Ten teams will be competing for the DMAAC Championship, led by the defending DMAAC champions, Thurmers, coached by Sam Searce. Hold over teams from last year are the Tom & Jerry's

Bummer coached by Melvin Gillespie and Coach Jim Harper's Hollywoods. Newcomers to the league include coach Mike Dymtriscyn's Rookies, coach Brian Lewis' Bruins, coach Dave Klinge's Gorillas, coach Carl Dixon's Minutemen, Mike and Min's team coached by Bill Gillespie and Fastbreaks coached by Robert Bradley.

This year's schedule includes 18 regular season games followed by

Trophies will be awarded for 1st, 2nd, and 3rd place in the regular season, Most Valuable Player trophy, and a Sportsmanship team trophy. Selection of the Sportsmanship team trophy and MVP award will be made by the coach of each team. The DMAAC Champs will receive the DMAAC Basketball Championship Traveling Trophy for placement in the Sports and Recreation Council trophy case.

Berra Rolls 299

Tom Berra, GDGW, was just one pin away from the perfect 300 game when he rolled a 299 game on Oct. 8 at Red Bird Lanes. Tom bowls on the early league on Wednesday night for the Trautwein Shoes team. His other two games that night were a 246 and a 182 for a three game total of 727.

"I've been bowling for so long that I wasn't as nervous as I thought I'd be," said Tom of his reactions while trying for the perfect game. "The last ball came up high on the nose, and the 6 pin wiggled, but that was all," he said.

Tom has been bowling for 22

years and carries a 200 average on his Wednesday night league, and a 203 on his Sunday league.

He received an electric clock trophy for his 299 game.

Charters Golf Results

The Charters Golf Association completed their summer tournament with the winners and runners-up in each class as follows: "A" flight - Terry Harvey, winner and Mac Stephens, runner-up; "B" flight - Tony Birkenmeier, winner and Frank Clemens, runner-up; "C" flight - Tony Birkenmeier, winner and Dave McCanna, runner-up; "D" flight - Rose Messinger, winner and

John Fles, runner-up.

The Shaw Trophy winner was Bob Touzinsky.

The final championship tournament was held Oct. 7 at Triple Lakes Golf Club with the winner, Mac Stephens netting a 71 and the runner-up, William Svoboda, netting a 73. The blind bogey winner and runner-up was Doug Harper and Mac Stephens, respectively.

Aerospace Striders Run Results

The Aerospace Striders will travel far and wide, it seems, to run in the race or fun run that best suits them. While a large Strider contingent ran in the annual Monsanto/St. Louis YMCA Run to the Arch on Sept. 27, Leon Fennell, GDDCC and

and Carol Keil (George Keil, GDGS).

The opening event of the Fall Derby was a two mile event won handily by Greg Shepherd, CDVBC, on a winning time of 11:08.5. Other age group/class winners included

Carto Class Grads

Recent graduates of Cartographic Training Class 80-K were: First row, left to right: Charles W. Jacobs, Western Illinois University; Bruce P. Williams, Carthage College; Charles E. Masback, California State University -Long Beach; Laura A. Moore, Michigan State University; Glenn R. Whitley, Texas A&M University, MS, PhD; Garrett M. Roberts, Southwest Mo. State University; H. Patrice Johnson, South Dakota University; Stephanie R. Baldwin, University of Missouri; Tamara J. Iverson, South Dakota University; Randal N. Hall, University of Tennessee. Second row, left to right: Scott D. Lloyd, Iowa State University; Gary D. Ott, Pennsylvania State University; Mark W. Gingrich, Pennsylvania State University; Gary S. Wallace, Northwest Mo. State University; Lewis Heron II, Ohio Wesleyan University; Joseph F. Moeller, Northern Illinois University; Danny S. Wells, Arizona State University; Craig N. Brandenburg, South Dakota University; Kendall D. Street, Illinois State University.

I Take Pride In My Work

I'm a little fed up with the constant criticism of American workmanship. How other people do their jobs is their business. But I do good work and I know it. I have perfected my skills.

I make each minute count. When I make a mistake I correct it. I would gladly sign my name to every piece of work I do. I'm going to hang this message over my work area to let my employer, my customers, my co-workers know that I take pride in my work.

Courtesy of United Technologies

-Chuck Arns
Dennis Moellman, STA, traveled to Chicago and recorded personal records in the Chicago Marathon held Sept. 28. Moellman's time in running the marathon (26.2 miles) was 3 hours, 19 minutes, 53 seconds, good for 791st place in the field of 6200 runners. Fennell's 3:02:00 (336th) qualifies him for the Boston Marathon by eight minutes.

In Fall Derby action held Oct. 4, the celebrity/guest 5-mile run was led by Jim Kannenberg and Ron DeClue with Joe Vujnich close at hand. The winning time in that event was 25 minutes, 30 seconds, averaging 5:06 per mile. The winner of the Center Derby Five Mile was Ollie Martinez, FE, with a time of 32 minutes. Other age group class winners in the five-mile included Jim White, PPCC, Gene Betz, STT, Susan Resitarits, SDDSB

Ruce Keil, Elizabeth Denney, Bryan Keil, Bruce Thompson, GDDDB, Wally Haviland, ADD, Ray Forthous, GDCAC, Kate Doyle, CDVB, and Becky Denney (Chuck Denney, SDCB).

Upcoming events of interest to St. Louis area runners will include:

Oct. 26 - Parkmoor 8,000 Meter Run.

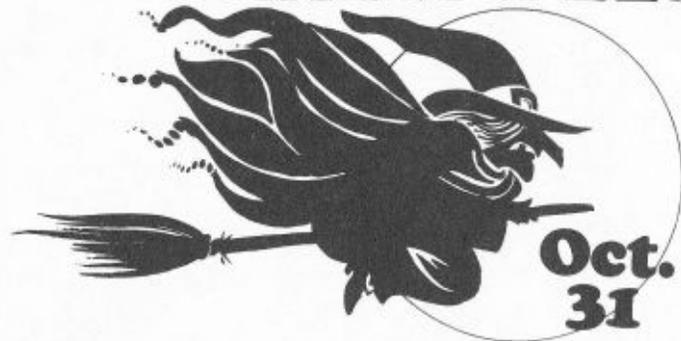

-SLTC Cross Country Championship - Jefferson Barracks Park

Nov. 9 - Helen Wolff Mini-Marathon - Clayton

For those interested in speed workouts, a small group of Striders is meeting on Tuesday evenings at Ladue High School for interval work at race pace or faster. Further information is available from Bob Howard, GDD, Greg Shepherd, CDI or Charles Denney, SDG.
