

# Center Employees Top Blood Donors in St. Louis

The American Red Cross Missouri/Illinois Regional Blood Services St. Louis Metro Business and Industry Annual report for 1981 indicates that Aerospace Center employees were the top donor group in the area.

The tabulation credited the

Aerospace Center with a total of 2,076 units of blood donated during the 12 bloodmobile visits in 1981. As part of the federal employee group, the Aerospace Center led all other federal agencies and private business concerns in the metro St. Louis area. The closest competitor

to the Center was McDonnell-Douglas Corp. with 1,604 in eight visits.

When placed in the federal employee group the Center's total is included in the overall federal total and is listed in the 7,000 and more employee category. When

considered as a separate firm and placed in a category equivalent to its work force strength (3000-4999) the Center's total would then be compared to that category leader, Monsanto (World Headquarters) which donated 1,141 units in six visits.

In the federal category the nearest competitor to the Center is TSARCOM which had 1,096 units donated in 12 visits.

Throughout the year the federal employee group far exceeded other business and industry donors with 6,961 units. The St. Louis Metro community in general donated 73,479 units and the high schools, colleges and universities donated

20,093.

By group, the top five listed were federal employees (6,961), McDonnell Douglas (1,604), Monsanto-Hq. and Queeny Plant (1,534), Southwestern Bell (1,069), and Ralston Purina (897). Separating the Aerospace Center from the federal employee group it would rank two among overall Metro area contributors.

The totals include those units of blood which did meet transfusion standards.

The Red Cross, on behalf of hospitalized patients served, expressed their thanks to all who worked on blood drives and to those who gave blood.

May 21, 1982

### Buckle-up Campaign Starts Monday

Monday will kick-off the "Make It Click-Buckle Up" campaign at the Aerospace Center. This campaign will cover the 101 critical days between Memorial Day and Labor Day. It's during this time frame when the highest rate of fatalities occur due to motor vehicle accidents. AC employees are being asked to use their safety belts and child safety seats, especially during this critical period.

The Safety and Fire Prevention Office and the Employee Assistance Office will be offering lunchtime presentations on the importance of wearing seatbelts, which will include movies and a special presentation on proper child restraints. These presentations will be held each day next

Center Director, Col. J. W. Small, signs his pledge to continue to "buckle-up" for safety. Buckle-up project officer Debra Mays and Maj. George Jacoby, director of Facilities Engineering,

### Parking Lot Improvement Plan Announced

A plan for the improvement of the parking lots at the 2nd Street installation has been announced by the Directorate of Facilities Engineering. In announcing the plan, Major George Jacoby, FE, indicated the aim of the plan was to provide as many additional employee parking spaces on the installation as possible. He stressed that the improvements will not change the current parking authorizations. "While changes to angle parking and restriping of lots will cause a slight change in the exact location of a parking space, those holding reserved spaces will continue to have them," said the major.

The improvement plan will begin with an expansion of "L" lot to

include parking on what is now the street area west of the Dining Hall and Building 25. The expansion will require a change to angle parking on the lot and new traffic flow patterns. The work on "L" lot is expected to start in early summer.

The benefit to employees from the entire parking improvement plan will be the addition of some 80 parking spaces on the installation.

Following the completion of the "L" lot project the plan calls for restriping, curb work and some resurfacing of "K", "G", "E", "J" and "D" lots.

Most of the work will be accomplished outside of normal Center duty hours to lessen the impact on employee parking.

week at the following times and locations:

	<b>2nd &amp; Arsenal</b>
	<b>1B Training Room</b>
Monday	1100, 1130, 1200
Tuesday	1130, 1200
Friday	1100, 1130, 1200
	<b>South Annex Auditorium</b>
Wednesday	1130, 1200
Thursday	1100, 1130, 1200

Pledge sheets will be distributed throughout the Center by representatives of the Safety and Fire Prevention Office. Employees will be pledging to wear their seatbelts during the three-month span or to continue wearing their

witness the signing.

seatbelts. Two awards will be presented within the Center: one to the department/directorate with the largest number of pledges and one to the department/directorate with the largest percentage of pledges. The Center will also be a participant in the national drive for pledges conducted by the National Safety Council.

In order to keep the campaign fresh in everyone's mind, there will be sporadic checks of vehicles during the summer months and drivers found to be "buckled-up" will receive a special Buckle Up

key tag.

Participation in the "Make It Click-Buckle Up" campaign offers each of us an opportunity to make positive inroads on a serious problem, increasing the health and safety of our community, fellow workers, friends and families. So let's all make that special effort to "Make It Click and Buckle Up" and strive to make this campaign a successful one. That one life saved may be yours!

Prevention Office

## June Is DMA Decennial Month

The month of June will mark the 10th anniversary of the Defense Mapping Agency and will feature several celebrations throughout the agency.

The headquarters will celebrate with special ceremonies and the DMA Awards Day presentations on the 17 and 18th of the month. Award winners from the Aerospace Center, along with others from the agency, will receive their awards from DMA Director, MG Richard Wells, in a special Washington, D.C. ceremony.

In addition to the award presentations, the unfurling of the new DMA flag will take place at the Naval Observatory, site of the

agency headquarters.

At the Aerospace Center the Decennial will be observed throughout the month beginning with the 2nd Annual Picnic on June 12. The picnic, sponsored by the Civilian Welfare Council and the Center Sports and Recreation Council, will set the stage for the official commemoration ceremonies on June 22. The commemoration ceremonies will be held both at 2nd Street and South Annex installations. Preliminary program for the event includes musical selections by the AC Chorus, recognition of the Center employees who received DMA awards, remarks by the

Director of the agency, General Wells, and presentation of the new DMA flag to the Center.

The June 22 ceremonies will be held from 1100 to 1130 on the parade ground at the 2nd Street installation and from 1230 to 1300 in the South Annex auditorium. Employees are encouraged to attend the ceremonies. Organizations at the Annex will be provided seating allocations for the auditorium so that as many employees as possible can be accommodated.

A schedule of program events will be published in the June 18 Orientor.

## Payroll Savings Plan

Payroll Savings is an automatic system for installment purchases of Series EE Savings Bonds through regular allotments set aside from each paycheck. It's one of the easiest methods of saving ever devised.

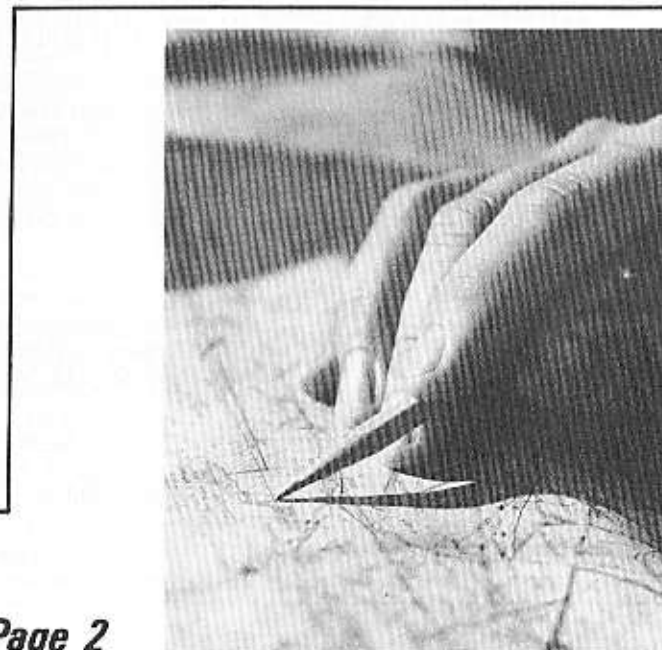

You may enroll by signing an authorization for the Aerospace Center to set aside a specific amount from each paycheck for the purchase of Bonds, which are mailed to you when the purchase price has been accumulated.

Once your authorization card has been signed, it remains in effect until cancelled. Changes may be

made at any time in the amount of the allotment, the inscription or the denomination of the Bond simply by filling out a new authorization card.

Series EE Savings Bonds of \$75 denomination or higher will be "average dated." They will earn interest as of the first day of the month in which one-half of the purchase price is accumulated.

Sign up for as much as you can conveniently manage. The amount of the allotment is up to you. Regularity, rather than amount, is the secret of successful saving.

# Aerospace Center—An Important Cog In MAC Mission

By SSgt. John D. Banusiewicz  
Office of Public Affairs  
Military Airlift Command

Disaster strikes at a far-flung point on the globe. Almost immediately, plans begin at Military Airlift Command headquarters, Scott AFB, Ill., for rescue and relief operations. Just as quickly, MAC turns to the Defense Mapping Agency Aerospace Center for help.

"MAC is often required to operate on very short notice into unfamiliar, austere locations. If a natural disaster occurs, it often results in devastation that disrupts communications or renders airfields unuseable," explained Thomas S. Reynolds, intelligence requirements management officer at MAC headquarters.

"In these cases, it's often necessary to airdrop relief supplies if there's no safe place to land. It's a great assist to mission planners if they can review current data for the area in question. That's where DMAAC comes into the picture."

As a central location for free-world airfield information, DMAAC is usually able to provide MAC planners with the materials they need, Reynolds said.

Although humanitarian airlift is perhaps the most visible of MAC's missions, it is by no means the command's lone responsibility. Operating 13 Air Force bases in the United States and controlling U.S. facilities at two more locations overseas, the command directs more than 89,000 active-duty people, both military and civilian, as well as almost 1,000 aircraft at more than 300 locations in 24 countries.

MAC is responsible for several major missions which serve the Air Force and the Department of Defense. These include deployment, employment and redeployment of combat forces and their support equipment; logistical resupply of these forces; aeromedical evacuation; presidential airlift; aerial search, rescue and recovery of downed flyers; weather reconnaissance and atmospheric sampling; as well as documentary photography and other audiovisual services.

Should world events, sudden or gradual, indicate the most remote possibility of U.S. forces being committed to action, plans must be made for delivery of troops and cargo. Again, MAC turns to DMAAC for airfield information.

"DMAAC is responsible for a multi-volume reference set we have here at MAC headquarters," Reynolds said. "We call it the 'ASSOTW', which stands for Airplane and Seaplane Stations of the World. The ASSOTW's 100 volumes are constantly being updated to reflect changes that occur.

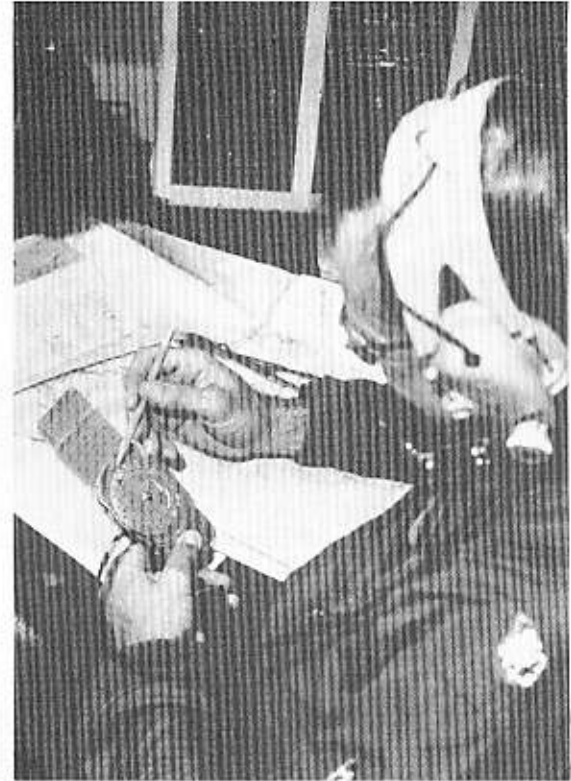

"There is also a DMAAC-generated computer product called AAFIF—Automated Air Facility Information File—which contains evaluated data on the operating areas, related support facilities, and services at all known airfields and seaplane stations in the foreign free world, Alaska and Hawaii.

The proximity of Scott AFB to DMAAC, which is located just across the Mississippi River at St. Louis Air Force Station, has proven to be "a big bonus" according to Reynolds.

"Normally, we'll send a courier to DMAAC to pick up materials we need," he said, "but on many occasions Jerry Stone, who works at DMAAC and lives in Freeburg, Ill., has gone out of his way to bring materials to us when we've needed them in a hurry."

Stone's helpfulness is typical of the support MAC receives from DMAAC, Reynolds said.

"All the people there have always been extremely cooperative in

A C-130 navigator uses Center produced charts and a hand-held computer to plot a proper course and to figure in-flight winds during Bright Star '82 exercise held in Egypt. (U.S. Air Force photo)

projects to work on ours when time is critical. In addition to Jerry Stone, we've enjoyed a wonderful working relationship with Chuck Muehlhauser, Frank Brokaw, Olin Spyers and Larry Rush of the DMAAC Directorate of Programs, Production and Operations.

"It's obvious to me that the people of DMAAC are dedicated professionals in every way."

## High Blood Pressure Month

What goes up must come down. High blood pressure affects millions of Americans, increasing their risk of heart attack and stroke. Starting Monday, May 23, Medical Services will again offer a Hypertension Screening Program to the Aerospace Center community in an ongoing effort to initiate preventative health awareness.

This program is free, convenient, informative and strictly voluntary. It is tailored for privacy and involves taking a weight, answering some simple questions and having a blood pressure taken.

Last year's screening revealed an 18 percent undetected high blood-pressure rate at the

Aerospace Center, which is slightly higher than national averages. Are you one of these people? Whether or not you already know your blood pressure is high, low or normal, we strongly urge you to participate in this program.

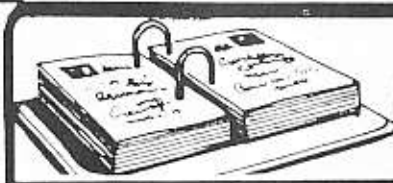

This year, stations will be set up on each floor for your convenience. Posters will be placed in your area one week ahead of time alerting you to when we will be in your area.

Please come and have a **heart to heart** talk with us. If your blood pressure is up, don't let it get you down.

—Charlene Hardin, R.N.

# Fun—No. 1 Item For 2nd Annual Picnic

There will be clowns, games, music and fun (especially fun), for all those planning to attend the second annual Aerospace Center picnic on June 12. Festivities get underway at 10 a.m. and picnic organizers are expecting a big crowd. "Last year we had 1,000 people, this year we hope to double that," said Paulette Martin, chairperson of the Civilian Welfare Council.

The CWC is sponsoring the picnic in conjunction with the Sports and Recreation Council. Admission is free and all employees (past and present), their families and friends are invited.

The main picnic stage will feature entertainment throughout the day including: square dancers, live bands, a karate exhibition, a disc jockey record spin, a modern dance show. The Aerospace Center stage band kicks-off the day's entertainment playing the Big Band sound of the 40's.

For the athletically inclined, there will be a number of sporting

events. Competition is divided into age categories: 12 and under; ages 13 through 17; and 18 and over. Ribbons and medals, provided by the CWC, will be awarded to the champions.

On the midway, picnic goers can test their skill (or their luck) at the many game booths.

A highlight of last year's picnic, the NCO Association Dunking Booth will also return.

A new feature added to the picnic this year is an antique car show. Those interested can browse among a variety of vintage automobiles on the visitors parking lot.

For the younger set, there will be a free film festival under the "Big Tent." Kids will also be able to hop a ride on the "Spirit of St. Louis" locomotive. The "Spirit" is a replica of turn-of-the-century steam engine and coal car. Members of Voiture Locale 38 of the 40 + 8 (an American Legion Honor Society), act as engineers and conductors. The Aerospace Center's own "Chief Lou" Lozano,

a member of Voiture 38, will be aboard leading the train tours.

For the enjoyment of kids of all ages, the Knights of Columbus clowns will roam the picnic area spreading fun and cheer.

Plenty of food and beverages will be available. Bar-b-que plate/sandwiches, freshly made funnel cakes, and a special recipe "Adult Snowcone" are just some of the items to be offered by various Aerospace Center organizations.

Everything is free of charge except the food, game and beverage booths.

In the evening, picnickers will be able to close out the day's events by dancing "under the stars" to the music of Caribou. The band will perform from 6-10 p.m.

Anyone wishing to volunteer to work in the game booths, or to assist the picnic committee, should contact their area CWC representative.

More information and a time schedule of entertainment and sporting events will be published in the June 4 edition of the Orientor.

## Muny Discount

Discounts tickets to the upcoming MUNY season are currently being offered by the Civilian Welfare Council. Single show tickets can be purchased for \$5.00, a two dollar savings from the regular \$7.00 MUNY price.

The seats are located in Terrace B, either left or right center.

## AC Sergeant Named Top NCO in St. Louis

Master Sgt. Herman C. L. Sanborn of the Aerospace Center's Office of Communications and Electronics will be honored tonight as the St. Louis Outstanding Active Duty Senior Airman of the Year. The award will be presented by the

**SUGGESTION AWARD**

Aug. 20 or 27	The Wiz

## National FEW Officer Here

Federal Women's Week at the Aerospace Center culminated with a visit by the executive vice president of Federally Employed Women (FEW) De Burton.

Burton, who is employed by the Internal Revenue Service in Washington, was scheduled to speak to employees at both Second Street and South Annex today. She discussed the necessity of mentors and the value of networking.

Her visit was arranged by the Aerospace Center's Federal Women's Program coordinator Barbara Savalick. FEW is a private, nonprofit organization with chapters throughout the country. Aerospace Center employees belong to the Arsenal '76 chapter.

Optimist Club of St. Louis chapter of the Air Force Association at its annual Airman Awards Dinner. The base commander of Scott AFB, Col. Gary K. Spencer, is the speaker.

An Air Force member for 18 years, Sergeant Sanborn is the Aerospace Center's commercial telephone service representative. He was cited for his skillful resources management, resulting in a substantial reduction in the Center's monthly telephone bill, and for his efforts in behalf of deaf employees in obtaining special teletype equipment.

"Sergeant Sanborn is a fine example of the professional non-commissioned officer and a splendid example of the military for the civilian population of the Aerospace Center," a letter of nomination said.

Sergeant Sanborn was also cited for his participation in the St. Louis United Cerebral Telethon.

Sergeant Sanborn grew up in Kaneohe, Hawaii. He and his wife Nalani are parents of two teen-aged daughters—straight-A students who won Post-Dispatch

THE ORIENTOR is an official newspaper, published bi-weekly on Friday by and for the personnel of the Defense Mapping Agency Aerospace Center, at St. Louis, Missouri, as authorized by DoD Instruction 5120.4. Opinions expressed herein do not necessarily represent those of the DoD.

baseball tickets in the last two years, Sergeant Sanborn points out.

For fun, he and his wife play volleyball in both the Aerospace Center and Granite City Army Depot co-ed leagues. Sergeant Sanborn also played in the men's league at Scott AFB.

Other awards will be presented as follows: Outstanding Active Duty Junior Airman of the Year—SSgt. Vernon V. Keck Jr., 3545 USAF Recruiting Sq.; Outstanding Non-Active Duty Junior Airman of the Year—Senior Airman Thomas A. Ban, 131 Weapons System Security Flight; and Outstanding Non-Active Duty Senior Airman of the Year—MSgt. Terrill A. Borman, 157 Tactical Control Group.

Aerospace Center employees Orville R. Blair and Eric W. Alexander are president and vice president respectively of the Spirit of St. Louis chapter.

## Correction

Information received by the Orientor on the length of the safe driving record of James H. Scates, as reported in the April 23 issue, was incorrect. Scates, a material destruction equipment operator, received the Safe Driver Award for safe operation of material handling equipment over a period of 25 years and nine months.

## Striders Back

The Aerospace Striders Track Club, which goes into partial hibernation during the winter months, is now happy to announce that it is back into the full swing of things for 1982. The Striders are planning many fine running events over the next several months, each one destined to be a great time.

The highlight of the Striders' running season will be the third annual Spring Derby and Picnic June 6 at 10 a.m. in Jefferson Barracks Park. This spring extravaganza will consist of a two-mile and five-mile race, as well as a picnic to be enjoyed by all in attendance. All DMAAC employees, families and friends are invited. Interested parties should contact race director Chuck Denney at 4969.

Here are the results of the third annual Striders Spring Relay, which was held last month at Ladue High School:

First Team	Time
Leon Fennel	5:25
Jack Connor	6:08
Greg Kaszuba	6:06
Gene Betz	6:18
Frank Aufmuth Jr.	6:57
<b>Total</b>	<b>30:54</b>

Second Team	Time
Boyd Breeding	5:09
Dave Paulton	5:41
Roger Mitchell	6:10
Carol Keil	6:53
George Hasler	7:17
<b>Total</b>	<b>31:10</b>

Third Team	Time
Frank Aufmuth	5:34
Chuck Denney	5:46
Chris Cuppan	7:04
George Keil	6:25
Phil Alderman	7:02

## Opening Day

After throwing out the first ball of the 1982 softball season, Aerospace Center Director Col. J. W. Small gets to keep it. Making the presentation are Carol Greco and Chuck Arns of the Sports and Recreation Council. A grand total of 32 men and women's teams at the Aerospace Center are competing in action Wednesday and Thursday in Lyon Park.

Photo by Ed Mullen

## Men's Softball

The DMAAC Men's Softball League opened with the Yukon Jacks defeating the Thunderbirds, 6-4. Alan Kerkemeyer and Jeff Tope collected two hits each for the Yukon Jacks while Stan Allen, Brian Lewis and Mark Feller had two hits each for the Thunderbirds.

The Mustangs rallied from a 9-run deficit to defeat the Buffalo Chips, 22-13. Bill Gillespie had a grand slam home run for the Mustangs.

The Bombers defeated the Jackalopes 23-7 with Chuck Squires and George Johannmeier collecting three hits each.

In an exciting game, the Cougars defeated the Feds, 14-13. Moe Kaiser paced the Cougar's hitting attack with three hits while Mike

four hits for the Misfits.

Don Duncan paced the Recaps' attack with a triple and single in a 6-2 win over the Twins.

In other games, the Tavern beat the Hollywoods, 12-6 and the Deacon Blues, 12-1. The Wonies beat the Foto-Flashers, 12-9. The Wombats defeated the Guided Muscles, 19-11. The Traitors beat the Bombers, 16-15. The Yukon Jacks beat the Bars and Stripes, 10-7 and the Panthers gained a 23-5 victory over the Buffalo Chips.

## DMAAC Team Tennis

May 11 marked opening day for the DMAAC Team Tennis League and the air over the Dwight Davis Tennis Center crackled with the combination of heat and anticipation as the teams eyed each other across the nets.

Instead of the traditional 2 out of 3 set matches, this year each match consists of an 11-game "pro set"; the first singles/doubles team to win eleven games, wins the match. This format increases the pressure because it's harder to recover from a slow start.

In the 4 o'clock matches, Match Point, led by Steve Hagedorn's almost untouchable serve through the first six games, edged the Ad' In team. At the same time the Pelicans shut out Pete's Problems, although the Skinner/Burchard vs. Robinson/Ivester match was neck-and-neck all the way.

Match Point	Ad' In	Score
S. Hagedorn	K. Cole	11-6

Total 31:52	
—Chris Cuppan	

## White on Council

Larry White has been selected to fill the vacancy on the Aerospace Center Sports and Recreation Council. Other Council members are Chuck Arns, Kate Doyle, Carol Greco, Paulette Marlin and Noble Ladd.

## EE Bond Info

EE Bonds are accrual-type registered securities. This means that interest is paid when the Bond is cashed, rather than providing current income. Starting with the \$50 Bond, at a purchase price of \$25, they are available in eight denominations.

EE Bonds may be redeemed at any time after the first six months. Backed by the full faith and credit of the United States, Bonds are completely safe and will be replaced without charge in case of loss, theft or destruction.

EE Bonds may be exchanged at any time after six months in multiples of \$500 for current-income Series HH Bonds - which pay interest each six months by Treasury check.

There are three forms of registration: single owner, co-owner and beneficiary.

Lewis led the Feds attack with two home runs.

A 2-hit pitching performance by Roosevelt Finley led the Panthers to a 15-1 victory over the Wonies.

The Guided Muscles beat the Twins, 13-6 behind 3-hit performances of Scott Hirshfield, Tim Blumfelder and Mike Terry.

The Assassins started their season with two wins over the Deacon Blues, 8-6 and the Master Batters, 12-10. Against the Master Batters, Terry Graham hit a grand slam home run for the Assassins.

The Thunderbirds got on the winning trail with a 13-2 win over the Good Ol' Boys. Mike Pohlers led the Thunderbirds' attack with three hits.

The Misfits powered their way to an easy 24-2 victory over the Cougars. Sam Scearce collected three home runs and Tom Arns had

## Women's Softball

Kelly's Girls started the 1982 DMAAC Women's Softball League with a 9-6 win over the Chips and a 18-5 win over the Rednecks. Led by the hitting of Martha Lyons, Wendy Hempel, Jody Doerer, Geralyn Koch and Janet Fialka, Kelly's Girls lead the league with a 2-0 record.

The Wined-Ups started the new season with a 12-6 win over Fool's Gold. Wined-Ups' Penny Miller hit a home run while Cathy Hatfield played good defense at shortstop. Fool's Gold's Tammy Iverson hit a home run.

The Rednecks won their first game of the season with a 24-5 win over Babes Ruthless. The Rednecks' Bette Friel hit a triple and

## Mike Link Is Hot Shot In Arsenal Golf Classic

On a hot and sunny afternoon, 52 DMAAC golfers teed off competing for the championship in the first annual Arsenal Golf Classic sponsored by the Sports and Recreation Council. As the weather was hot, so were Mike Link's shots as he completed the Columbia Golf Club course with a sizzling score of 68. This earned Mike first place in the Low Scratch Flight and first place in the Championship Flight.

Second place in the Low Scratch Flight went to MSgt. Bill Svoboda (78) and Carl Jaskov (79) won third place. In the Championship Flight, Robert Barnett won second place with a handicap score of 69, while MSgt. Terry Harvey captured third place with a handicap score of 69.

In B Flight, Stan Kramkowski captured first place with a handicap score of 71. Roy Beal won second place honors with a handicap score of 71, and third place

## Wilson Shoots Hole-In-One

Joe Wilson shot a Hole-In-One at the Columbia Golf Club April 30 while playing in the Friday afternoon league. Joe used a seven-iron on the 150-yard number 18 hole.

In the Sweetstakes, 12 places were given for both the men and the women. Only 11 women entered so they all placed, while 13 men entered so only one did not place. Touch Luck, Dick!

—Rick Norgaard

went to Doug Harper with a handicap score of 72.

In C Flight, Harley Jennings took first place with a handicap score of 72. Larry White won second place with a handicap score of 72, and third place went to Pat Lynch with a handicap score of 73.

The Women's Flight was won by Lorraine Beck with a scratch score of 90.

The Arsenal Hole-In-One Contest was won by Doug Harper with a shot three feet from the hole. Stan Kramkowski finished second with a shot four feet, 11 inches from the hole.

The Sports and Recreation Council wishes to thank all participants for their cooperation.

—Chuck Arns

## Golf Deadline

Registration will continue until May 25 for the first annual DMAAC-RCPAC Golf Classic sponsored by the Aerospace Center Sports and Recreation Council. The Classic will be held at Paradise Valley Country Club on Tuesday, June 8. Tee time will begin at noon on the 18-hole course. Twosomes or individuals can make reservations by contacting Noble Ladd/4778, Larry White/4781 or Chuck Arns/4901.
