DEFENSE MAPPING AGENCY AEROSPACE CENTER

Vol. XXIV, No. 21

October 8, 1982

## 200 Expected At Alexandria MC&G Meeting

More than 200 participants are expected to attend the seventh annual Department of Defense Mapping, Charting and Geodesy Conference Oct. 18-21 at Cameron Station, Alexandria, Va.

After a welcoming address by Army MG Richard M. Wells, director of DMA, in the Defense Logistics Agency Auditorium, Cameron Station, representatives of the Services will make opening day presentations. They are: BG Harry E. Soyster, USA, assistant chief of staff, Intelligence, for Intelligence Systems and Automation; Rear Adm. J.B. Mooney Jr., USN Oceanographer of the Navy; Maj. Gen. John B. Marks Jr., USAF, assistant chief of staff, Intelligence; and Brig. Gen. George H. Leach, USMC, director of Intelligence.

Other distinguished speakers Monday morning include: Rear Adm. H. R. Lippold Jr., director of the National Ocean Survey; Mr. Rupert B. Southard, chief, National Mapping Division, U.S. Geological Survey; and Mr. Ronald K. Kiss, assistant administrator for Ship

## Torchlighters Meet Angela

Angela, 3, a student at the Childhaven school for autistic children, 9333 Clayton Road, connects blocks as a concentration exercise, while Carl McDowell and Leslie Kadison watch. Aerospace Center employees, McDowell and Kadison are among 33 Torchlighters from the metro area whose services are being donated by their employers to this year's campaign of the United Way of Greater St. Louis. Since last September the Torchlighters have been speaking to groups in the government and business communities to tell the story of how the United Way helps people like Angela to help themselves through the many programs it supports. "Speaking for the United Way is fun and interesting and, I think, something that's very important to do," Kadison said. The Combined Federal Campaign, which includes the United Way, is now in progress at the Aerospace Center. Employees gave \$172,154 to the campaign last year. The Director has set a goal of \$180,000 this year because of the greater need in the community. Employees are urged to complete their

## Peeler To Join Center As PP Deputy Director

Paul L. Peeler Jr. is expected to arrive at the Aerospace Center Oct. 18 to assume duties as acting deputy director, Program, Production and Operations. He succeeds Thomas O. Seppelin, who was selected as assistant deputy director, Production and Distribution, at DMA headquarters. Peeler's appointment as deputy director must be approved by the Office of the Secretary of Defense and the Office of Personnel Management before it becomes effective.

Formerly chief of the Department of Field Offices at the DMA Hydrographic/Topographic Center in Brookmont, Md., Peeler began his federal career as a geodesist with the Army Map Service. In 1966 he accepted an assignment in Khartoum, Sudan, as a technical advisor to the Sudan Survey Department. When his tour of duty was prematurely terminated one year later, due to the Arab-Israeli War, he returned to the Department of Geodesy. In 1970 he moved to the Production Management Office.

When DMA was formed in 1972, Peeler was assigned to the Programs Branch at the Topographic Center. After three years, he took a temporary assignment in the Production Management Branch, where he was responsible for presenting the monthly production briefing to the Director.

In 1977 Peeler was assigned to

DMA headquarters as a staff member in the Directorate of Plans and Requirements. He returned to HTC in 1979 as chief of the Cartographic Data Division.

Born in Pittsburgh, Peeler holds a B.A. degree in physics and a master's in business administration. An avid jogger, he jogs six to eight miles a day. His 16-year-old son Stephen, a cross-country runner, keeps stride with Dad in most workouts but has a way to go to keep up with his father's marathons. Peeler has run five marathons in the last three years.

Peeler and his wife Lurline are also parents of a daughter, Kimberly.

Administration. The first day concludes with remarks by representatives of the eight Unified and Specified Commands. DMA, NOS and USGS represent all federal producers of MC&G products; the Services, the U&S Commands and MARAD represent MC&G customers.

On Tuesday, workshops are scheduled on Distribution, Requirements, Terrain Analysis and EU/COM/LANTCOM matters.

Wednesday's Plenary Sessions will cover such areas as Digital Image Technology, Point Positioning Support, New Survey Specifications, and others.

The Conference concludes Thursday with a morning Plenary Session, workshop reports, and closing comments by General Wells.

HQ DMA/PR again has responsibility for the Conference with specific actions assigned to the Plans Division, PRP.

**Columbus Day**  
**OCTOBER 11**

## Captain Zucker Appointed Director of ODS

Captain Channing M. Zucker, USN became director of the Defense Mapping Agency Office of Distribution Services Sept. 22, succeeding Col. Merlin C. Smith Jr., USAF. Colonel Smith has been assigned to Hq DMA as chief of the Requirements Division.

Captain Zucker, before his new assignment, was director for Geophysics for the combined staffs of the Commander in Chief Atlantic (CINCLANT) and Commander in Chief Atlantic Fleet (CINCLANTFLT).

A native of Roselle, N.J., Captain Zucker graduated from Bowdoin College in Brunswick, Maine. He earned his master's degree in geodetic sciences from Ohio State University.

In 1970-71, Captain Zucker commanded a unit aboard the U.S. Naval Ship Dutton that conducted deep ocean hydrographic surveys of the eastern Atlantic. Following this assignment, he became deputy manager of the Ocean Survey Program in the Naval Oceanographic Office.

With the establishment of DMA in 1972, Captain Zucker became chief of the Program Integration Division at the Hydrographic Center. He moved to DMA headquarters in 1975 as special programs officer in the Programs,

Production and Operations Directorate.

Captain Zucker and his wife, the former Yasuko Igarashi of Tokyo, Japan, are parents of two children.

## Bi-State Official to Meet Employees

Having trouble getting to work? Need help in routing to the Aerospace Center on the bus? Employees are invited to bring their transportation problems to a discussion with Frederick R. Douglas, community relations specialist with the Bi-State Development Agency, operators of

A doctor at the School of Aerospace Medicine has developed an electro-optic system that can scan and, within a matter of seconds, produce a three-dimensional map of an object. Lt. Col. (Dr.) Bruce R. Altschuler will receive one of four Air Force Research and Development Awards for his achievement.

Officials said Colonel Altschuler's system is a significant breakthrough in the development of automated mapping systems. The system also will be useful in medicine, dentistry, aircrew protective ensembles, and computer aided manufacturing and inspection. The School of Aerospace Medicine is at Brooks AFB, Texas.

## Cruise Missile Is Topic Of Nov. 17 Tech Meeting

Cartographic and geodetic support of the cruise missile will be the topic of a combined technical society meeting Nov. 17 in the Center dining hall. Former Center Director and the current Program Manager Mission Planning Systems for McDonnell Douglas Astronautics Co., James St. Clair, will be the featured speaker.

The meeting will begin with social hour from 3:30 to 4:45 p.m., followed by a buffet dinner and meeting. The technical societies sponsoring the special meeting are the AGU, ASP, ACSM, ION and AFA.

Cost of the dinner is \$4.50. Flyers posted on bulletin boards contain additional information regarding the meeting and a listing of ticket sellers.

James St. Clair served as the Center director from 1975 to 1979 and was involved in the growth years of the organization resulting from the transition to the digital data technology.

the area's bus system.

Sessions will be held Oct. 21 at 11, 11:30 and 12 noon in Training Room 1B of Building 36. The Employee Relations Division and the Employee Assistance Office are co-sponsoring the event. Lunches permitted.

## Employee Experiences Value of Seat Belts

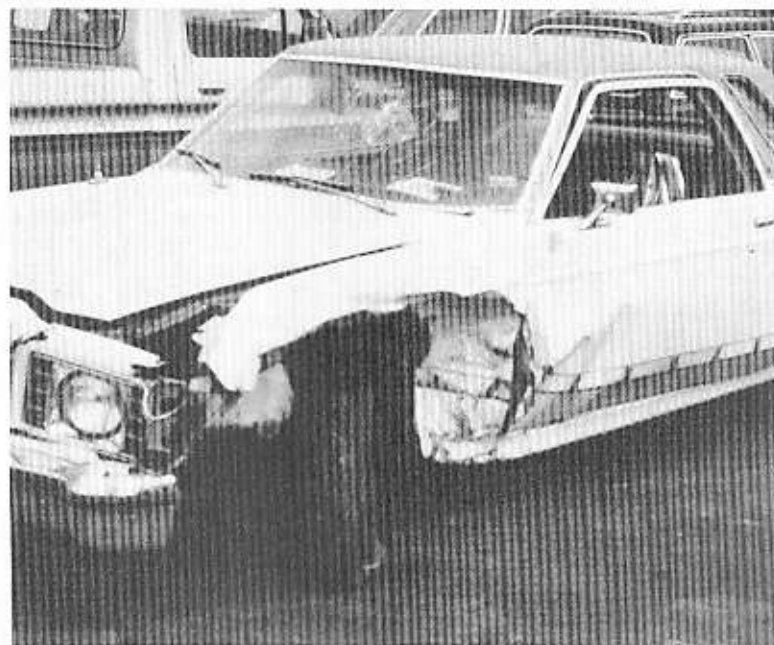

*EDITOR'S NOTE: The following letter and picture from an anonymous employee exemplify the value of wearing auto seat belts—even when traveling close to home at a slow speed. We thank the employee for sharing this experience:*

For 20 years I've been a strong believer in seat belts and used mine at all times. When I met my wife 14 years ago, she never used her seat belt. After several years of my urging her to wear it, we agreed that she would when traveling on long highway trips or on icy roads and I would stop the nagging.

Three weeks ago, my wife was returning from shopping; the roads were slightly wet from the brief rain. About a mile from home, she drove around a sharp "s" turn traveling about 10-15 miles per hour. Unfortunately, a driver coming the other way at approximately the speed limit couldn't negotiate the turn because of the wet pavement, crossed over to the on-coming lane, and plowed into the left front of our car (see picture).

My wife, who was not wearing her seat belt, was thrown into the windshield, suffering a three-inch gash on the top of her head, and caught the rear view mirror on the rebound, causing a jagged one-inch cut on the back of her head. She also has a very, very sore neck.

A neighborhood teenager, who was not wearing his seat belt, was also thrown into the windshield; he had his forehead cut. Thank goodness our three small children

## 80 Secretaries Participate In Stress Management Seminar

More than 80 secretaries, clerical assistants and clerk-typists attended a seminar on "Stress Management for Secretaries" in the auditorium at South Annex Sept. 17.

The seminar was the outgrowth of an idea by Training and Career Development Chief Bette-Rae Myers, who was herself a secretary at the Pentagon and elsewhere for about 10 years.

"I know being a secretary can be

into small groups intended to help them apply learning techniques to their own situations.

Participants completed a questionnaire that gave them a rough measure of their own stress level and then discussed options and strategies for managing stress. At the end of the seminar, participants completed their own "personal action plan."

"We'd eventually like to offer a stress management course for any

## LOOKING BACK

**TEN YEARS AGO . . .** Jaunetha Cade has been selected as AC's nominee for the National Civil Service League award. A cartographer/senior area specialist in the Research Department, she was a junior high school teacher in Mississippi prior to her government employment. She is chairwoman of Alpha Kappa Alpha's Negro Heritage Program presented each year at the American Theater, a founder of the Lou Brock Boys' Club benefit committee, and board member of the Homer Phillips Hospital auxiliary and Phyllis Wheatley YWCA among her community activities . . . Skylab—the latest concept in space explorations—moves to the forefront in AC space projects with 25 different items under production here to support the program. Meanwhile, production of graphics continues for NASA's Apollo program, which draws to a close with the Apollo 17 mission in December. (Orientor, Oct. 20, 1972)

\*\*\*\*\*

**TWENTY YEARS AGO . . .** As the Orientor goes to press, figures for the United Fund Drive show that ACIC participation has reached 96%. Total contributions amounted to \$14,938. Col. Stebbins W. Griffith, commander, and Major Max B. Ganyard, fund drive chairman, extend their thanks to all who helped make the drive such an outstanding success . . . There have been many favorable comments on the portraits of past and present commanders of ACIC,

**THIRTY YEARS AGO . . .** Since the move to Second and Arsenal, the feeling that we are behind high walls and iron fences seems to give a false sense of security. We've got to be just as careful here with classified material as we were when we shared the building downtown with other tenants . . . Space for about 1600 people has been reserved in Building B of the Arena for the Employees Association Christmas Party Dec. 13. Mr. Thomas C. Finnie, party chairman, has appointed the various committees and outlined their functions. As more information becomes available, the Orientor will pass it on to you, but a tip now; buy your tickets as soon as they are offered for sale because everyone else will want to take advantage of the biggest party bargain ever offered. (Orientor, October 1952)

## British Visitor Guest of GA

Photographic Superintendent William Nevill of the Royal Engineers in the United Kingdom Ministry of Defense was a guest of the Aerospace Center Sept. 8-15.

Nevill studied photographic and photolithographic operations in the Graphic Arts Department; he will use information he obtained for possible applications in the United Kingdom.

Last fall Major Nicholas Harcourt, also of the Royal Engineers, was a guest of the Graphic Arts Department for a similar purpose.

My wife will be all right; our car was totaled. When I went to collect our belongings from the car, I noticed that in both the broken windshield and the broken mirror, there were strands of my wife's hair. It could have been a lot worse.

My wife now wears her seat belt at all times; maybe the lesson will save her life someday. If your spouse, your children, or any passengers in your car give you excuses about wearing seat belts, just give them this to read.

—Anonymous

very stressful." Myers said, "and I have attended stress management seminars in the past and found them to be just excellent.

"Based on statistical data compiled by the Department of Defense, there is a definite need to provide more training opportunities for secretarial and clerical personnel. This course was our first step toward this endeavor."

The seminar was led by Gary Fellows of Batten Seminars in Kansas City, who holds a doctorate in education from Columbia University and was formerly a dean of management education at Fordham. Fellows, incidentally, got his start as a training officer with the U.S. Air Force.

Departments and directorates were asked to send as many as wanted to attend and could be spared from the office on the same day.

Fellows kept in touch with his audience by using an interactive approach to the subject and by drawing on real-life work situations. Attendees, who were given a manual outlining the subject matter, frequently broke

employee of the Aerospace Center," Myers said, "but that depends on the availability of funds."

Remarkably, of the 76 secretaries who returned an evaluation form, 75 said their overall impression of the seminar was "excellent." Comments describing the seminar included "informative," "useful," "pertinent," "entertaining," and "relaxing."

Employee development specialist Rubbie Heron was coordinator for the seminar.

lobby of the Schauer Building. To old timers who questioned the omission of Col. Morrison's portrait, you may recall he was commander of the Aeronautical Chart Plant in St. Louis; the headquarters at that time was in Washington, D.C., so he was not commander of ACIC, as it is now known. This also applies to Colonel Karo and Colonel Cochran, Colonel Morrison's predecessors as commander of the Plant. (Orientor, Oct. 19, 1962)

## In Sympathy

Word has been received of the death Sept. 10 of retired employee Vernon B. Fetsch.

A World War II veteran, Mr. Fetsch served in Guam as a photolithographer in the U. S. Navy. He began his civilian service in July 1948 as a cartographer in the Aeronautical Chart Plant at 12th and Delmar. He was a senior cartographer at the time of his retirement in May 1977.

A resident of Overland, Mo., Mr. Fetsch leaves his wife Florence King, two sons, and a daughter-in-law.

## Toastmasters Form Club At 8900 S. Broadway

A Toastmasters Club was formed Sept. 14 for Aerospace Center employees at 8900 S. Broadway. The club is a separate entity from its mentor, the Aerospace Center Club at Second and Arsenal.

The new club was formed to meet the desire of employees at South Annex to participate in Toastmaster activities, which are recognized by OPM as training in communications skills, analytical listening and leadership. More personnel can still be accepted as charter members.

The club is currently operating on an interim, or temporary, charter, while the bylaws, name, and officers are being established. Toastmasters International has stringent requirements that must be met for a permanent charter.

Meeting days and times have been selected as the second and fourth Thursday of the month from 11 to 12:30. Two meetings have been held to date, and the next one is scheduled for Oct. 14 in the South Annex auditorium.

Members will be working on a "speechcraft" project, the first project outlined in the Toast-

masters program. The project will occupy the educational portion of the next eight meetings.

The current charter members are Philip Alderman, Brady Barr, Craig Brandenburg, John Freeman, Charlene Gill, Roland Goehlich, Hiram Lloyd, Ruth Lockridge, William Martinband, James McAfee, R. D. Olsen, George E. Peo, George Peterson, Matthew Phillips, John Rau, Mary Rowley, Lt. Col. Philip Wilder and Erma Yanko.

### Attention ASP Members

The membership committee is currently updating the membership list for the St. Louis Region. Members are asked to complete a current-address form available near posters in the lobby of Building 36 and next to the Credit Union at South Annex. Boxes with a slit in the top will be available nearby to return the completed form.

## ORGANIZATIONS AT THE AEROSPACE CENTER

# St. Louis Region Is Pillar of ASP

With 650 members, the St. Louis Region of the American Society of Photogrammetry is second only to the Potomac Region in members. It was granted a charter in 1951 and is one of 18 regions throughout the country.

Founded in 1934, the ASP seeks to advance knowledge in photogrammetry and its related sciences. Other aims include encouraging the use of photogrammetry, stimulating student interest in photogrammetry, and upholding ethical principles. Photogrammetry, as defined by the ASP, is "the science and technology of obtaining reliable information about physical objects and the environment through the process of recording, measuring and interpreting photographic images and patterns of radiant energy derived from sensor systems."

During the past year, the St. Louis Region has sponsored or co-sponsored meetings involved with close-range photogrammetry and photogrammetry in accident reconstruction. Other activities included a tour and meeting at the U.S. Geological Survey in Rolla and the showing of films on the use of remotely sensed data, NASA space exploration, and advances in automated cartography equipment.

The Region is presently in the process of developing a photogrammetry workbook for distribution to area educational institutions.

Officers are installed at a dinner meeting held annually in May.

Officers of the St. Louis Region of the ASP, seated from left, are Sam Ivery—treasurer, Dean Graves—vice president, Beverly Barsh—president, Bob Edwards—second vice president, and Sue McConnell—secretary. Directors, standing from left, are Robert Smith, Jim Nelson, Ron Olsen, George May, Brenda Ropac, Paul Goss, and past president Thomas Grunzinger. Missing are Jim St. Clair, Darrel Baker, Curtiss Triggs and national director Jerry Becker.

Alan C. Boch, national ASP president, was the guest speaker at this year's meeting. The ASP "Spirit of the Region" award is also presented at this time, with Brenda Ropac being the 1982 recipient.

Membership in the ASP is \$31 per year (\$1 is for local dues) and includes subscription to the monthly publication *Photogrammetric Engineering and Remote Sensing*. Other entitlements include the right to vote and hold office, listing in the Society's membership roster, all possible assistance on technical matters, job placement and education opportunities, reduced registration fees at con-

ventions and seminars, reduced rates on books and manuals published by the ASP, and participation in worldwide photogrammetric and remote sensing activities through ASP's affiliation with the International Society of Photogrammetry.

Officers point out that, even more important than specific membership entitlements, are the knowledge and enrichment to be gained in the science affecting the everyday work of many at the Aerospace Center. Anyone interested in finding out more about the ASP may contact any one of the officers or directors of the St. Louis Region pictured above.

## Kudos

### *SDCO Employees Honor Supervisor*

Employees of the Scientific Data Department's ADP Operations Branch (SDCO) present chief Robert Jager with a "supervisor of the year" award originated by themselves. "Mr. Jager has given many hours of his time to sit down with employees to listen to their suggestions on how to improve their work," a statement said. "He is truly interested in any ideas that will make operations more efficient, productive and safe. We just want to take this opportunity to say 'Thank you, Bob!' for your open door policy and for being the fantastic person you are." Pictured from left are Laurie Daniels; Ruby Harris (background), who designed the plaque; Carolyn Schifferdecker; Jager; Linda Land; Linda Patterson; Al Cina, who did calligraphy for the plaque; Lou Ann Brantley; and Mary Myles.

## Policeman of the Month

The thorough patrolling of Larry D. Morgan was a major factor in his selection as Security Policeman of the Month. Officials said Morgan discovered an insecure door leading to the Finance Office, while working the midnight shift. Correction of this insecurity safeguarded possible theft.

An ex-Marine, Morgan and his wife Constance are parents of two children. This is Morgan's fifth month at the Aerospace Center.

# Employee Retirements Announced

**EVERETT A. BRATCHER** (CDACA), a photogrammetric cartographer, retired Sept. 3 with nearly 31 years of federal service, including 26 years at the Aerospace Center.

**MARGARET M. HEISLER** (LOMP), a production controller, retired Aug. 6 with more than 30 years of federal service, including 23 years and six months at the Aerospace Center.

**CARL M. KLEBUSCH** (CDC-BD), a cartographic technician, retired Sept. 29 with more than 36 years of federal service. During World War II, he served with 12th Army Air Force in Africa and Italy. His civilian service began in September 1948 when he joined the Aeronautical Chart Plant at 12th and Delmar as a cartographic draftsman. He was an engraving supervisor and member of the Plant and Cartography Department staffs before his last assignment in Automated Type Placement Systems.

"I've enjoyed the work at DMAAC, and especially enjoyed being associated with so many nice co-workers," Kelbusch commented. He plans to pursue hobbies, travel more, and possibly work.

**WILLIAM F. LAWRENCE** (SDDLA), a supervisory cartographic clerk, retired Sept. 17 with more than 36 years of federal service. He began his federal career in November 1944 as a substitute mail clerk in the St. Louis Post Office, 1720 Market St. The following April he was inducted into the U.S. Army Air

Force, serving at Biggs Field, Texas. Re-enlisting in 1946, he served in Germany and France as a telephone lineman and cable splicer with the 449th Signal Battalion.

Lawrence resumed his civilian employment in December 1946 as a mail and file clerk at the Army Finance Center in St. Louis. He returned to the Post Office in 1948 and served as a distribution clerk with the Railway Mail Service before being recalled to active duty in 1951 and serving as NCO in charge of the directory service at Fairchild AFB, Wash. After his discharge, he returned to the Railway Mail Service, where he worked until coming to the Aerospace Center in June 1958.

At the Aerospace Center, Lawrence worked in the Library until 1974, when he transferred to Administrative Communications as mail supervisor at South Annex. In 1981 he returned to the Library, his most recent position being supervisor in the Acquisition Section. Lawrence said he plans to move to Los Angeles to live with his mother and sisters.

**EVERETT P. MADDOX** (GDDAB), a photogrammetric cartographer, retired Oct. 1 with more than 31 years of federal service. He entered the Army in July 1941 and served as a radio operator and gunner with the 12th Army Air Force in Italy and Corsica. His employment at the Aerospace Center began in May 1954.

**CHARLES W. McATEE**, second pressman in the Graphic Arts Department, retired June 11 with nearly 33 years of federal service, including 30 years and 11 months at the Aerospace Center.

**EUGENE P. McCLOSKEY** (CDADC), a verifier engraver, retired Sept. 21 with more than 35 years of federal service, including 30 years and 11 months at the Aerospace Center.

**VIRGINIA L. MILENTZ** (ADLD), a supervisory aeronautical information clerk, retired Aug. 6 with nearly 17 years of federal service, including 14 years and 10 months at the Aerospace Center.

**DONALD F. MILLER** (CDADB), a cartographic engraver, retired Aug. 30 with more than 35 years of federal service, including 31 years and nine months at the Aerospace Center.

\*\*\*\*\*

**EDWARD KENDRICK** would like to express his deepest appreciation to the committee who planned and presented the retirement social held in his honor, as well as to all who attended, making it a night to remember. Kendrick, chief of the Security Police Division, retired Sept. 9.

## Correction

The suggestion of James H. Sieve listed on the Honor Roll in the Sept. 24 Orientor did not include a cash award.

## Striders Plan Run Oct. 16

The Aerospace Striders will hold a two-and-one-half-mile Championship Run Oct. 16 at the Atkinson Shelter in Jefferson Barracks. The race will start at 10 a.m. and will be followed by a barbecue cookout. The event is open to Striders and their families. A \$2 fee will be charged. For more information, contact Tamara Iverson/4687.

On Oct. 18 there will be an Aerospace Striders club meeting in Training Room 1B of Building 36 at 11 a.m.

Annual club elections were held Sept. 22. The new officers are president—Frank Aufmuth, recorder—Boyd Breeding, treasurer—Dave Paulton, program director—Bob Howard, membership director—Jack Connor, and publicity director—Tamara Iverson.

Striders participated in various races throughout the bi-state area during September.

On Sept. 11, Carole and George Keil entered the Popeye Run in Chester, Ill. Carole placed second in her age division in the 10-kilometer race.

On Sept. 12, Mary Jo Staron performed in the South City Chase at Tilles Park. Mary Jo finished the two-mile race in 11:55. She placed third in her age division and fifth overall in the women's category. Way to go, Mary Jo!

On Sept. 19, Bob Howard and Clyde Creel performed in the Bevo Day four-mile run. Bob finished first in his age division with a time of 23:47. Clyde earned his first

Ole Rebs' Charlie Chapman legs out a base hit against the Crips in Senior Men's Softball League action. Crips' first baseman Don Pauls jumps for the ball as pitcher Gene Sylvester watches the play. The Old Rebs won the game 11-3. (Photo by Chuck Arns)

## Women's Softball

Gang Green leads the Women's Fall Softball League with a perfect 4-0 record as of Sept. 28. Gang Green's Kathy Svoboda, Martha Lyon and Mary Stewart led the offense in their first win over

place with three wins. The Rednecks defeated the Bench Warmers, 12-5. Ann Konecnik and Judy David paced the offense in the Rednecks' win over the Babes Ruthless, 12-10. The Black Cat

## Men's Softball

At the midway point in the DMAAC Men's Fall Softball League, CDV leads the American Conference with a perfect 4-0 record while the Banditos lead the National Conference with a perfect 4-0 record.

In the American Conference, CDV owns victories over the Misfits, 24-8, Traitors 6-5, Yukon Jacks 8-5 and Good Ol' Boys 8-2. The Yukon Jacks and Diamond Kings are tied for second place with 3-1 records. The Yukon Jacks defeated Raw Deal, 13-3, Diamond Kings, 9-7 and Invaders, 10-0 while the Diamond Kings beat Good Ol'

Boys, 13-3, Misfits, 10-6 and Traitors, 13-5.

In the National Conference, the Banditos beat Generics, 7-4, Tavern, 8-6, Buffalo Chips, 8-6 and Foto-Flashers, 16-3. The Thunderbirds are in second place with victories over Foto-Flashers, 10-0, Buffalo Chips, 15-14, Tavern, 16-15 and Generics, 14-7. In other games, the Tavern defeated the Thunderbirds, 15-1, Buffalo Chips, 22-8 and the Mustangs, 23-8. The Mustangs beat the Generics twice, 5-4 and 12-4 and Foto-Flashers, 14-7. The Buffalo Chips beat the Mustangs, 6-3 and the Generics beat the Foto-Flashers, 11-0.

—Chuck Arns

## Senior Softball

The Ole Rebs continued to lead the Senior Men's Softball League with a perfect 4-0 record as of Sept. 27. The Ole Rebs defeated the Paleoflatus, 20-2 behind Bob Sport's four hits and beat the Crips, 11-3. In the Crips' game, good defense and Charlie Chapman's three hits provided the winning margin.

Jim Barth's three hits paced the Crips' victory over the Cougars, 15-2. The Paleoflatus defeated the Cougars, 14-4 behind John Lefman's two hits.

### Standings through Oct. 4

Team	Won	Lost
Ole Rebs	5	0
Crips	3	2
Paleoflatus	2	3
Cougars	0	5

### Standings through September 28

#### American Conference

Team	Won	Lost
CDV	4	0
Yukon Jacks	3	1
Diamond Kings	3	1
Traitors	2	2
Raw Deal	2	2
Misfits	1	3
Good Ol' Boys	1	3
Invaders	0	4

#### National Conference

Team	Won	Lost
Banditos	4	0
Thunderbirds	4	1
Tavern	3	2
Mustangs	3	2
Buffalo Chips	1	3
Generics	1	4
Foto-Flashers	0	4

Col. Small, Webster and Kadison

award, placing second in his age division with a time of 26:43. Clyde has only been running for one year.

See you at the Championship Run, and keep on pacing!

Tamara Iverson

## SRC Elections In November

Nominations for positions on the Sports and Recreation Council are now being accepted for the next election, which is scheduled for the month of November. Nominations will be screened by an election committee. Upon approval of the committee, all names will be placed on the official ballot, which will appear in the Orientor.

The SRC is composed of five elected members and a council chairman, who is appointed by the Center Director. All positions are for two-year terms.

The purpose of the SRC is to assist employees in planning, developing and administering a program of approved sports and recreational activities to meet the expressed interests and needs of all federal civilian employees and military personnel.

The election committee is interested in those who wish to place their names on the ballot. All individuals interested in an SRC representative position may apply by calling Larry White/4781, Kate Doyle/4423, or Chuck Arns/4901. Nominations will be accepted until Oct. 25.

Babes Ruthless, 11-3. Gang Green defeated Bench Warmers, 14-1 behind Jody Doerer's two-hit pitching and Rubbie Heron's three hits. Victory number three was a 7-4 win over the Rednecks. Kathy Svoboda and Shirley Winegardner paced Gang Green's attack with three hits in the Redneck game. Gang Green won their fourth game with a 16-5 win over Babes Ruthless. Good defense by Gang Green's Paulette Martin and four hits by Kathy Svoboda enabled Gang Green's record to stay perfect.

The Rednecks remain in second

place, since they have won more games in head-to-head matches with Match Point.

In other matches, Kate's Kritters split with Pete's Problems and the Ad'In lost to Rick's Racquets. A special thanks goes out to all the team captains and players, who kept things running smoothly throughout the season in spite of all the rain. See you next year!

### Standings through Oct. 5

Team	Won	Lost
Gang Green	5	0
Rednecks	3	2
Babes Ruthless	2	3
Bench Warmers	0	5

## Broken Strings Are Team Tennis Champions

The 1982 tennis season ended prematurely on Sept. 7 when a rainout scheduled for Sept. 14 was rained out. In the final match of the season pitting the first-place Broken Strings against the Tie Breakers, the Broken Strings continued their winning ways as Pete Ofstedal and Jim Frederick pulled out a close one over Colonel Small and Bob Jones. John Goodwin/Felton Mitchell beat Greg Barker/Bill Leong and Scott Lloyd persevered over Joe

Moeller.

The two teams which tied for second place, Match Point and the Pelicans, went head to head, but the Pelicans were hurt by lack of personnel and had to forfeit two matches. Gary Liebsch of Match Point downed Bill Burchard of the Pelicans, while Kirt Skinner and Joe Klein of the Pelicans beat Kevin Webster and Elio Barbis. The Pelicans were awarded second

## Win Tennis Singles Tournament

The 1982 DMAAC Class "A" Open Singles Tennis Champion is Col. J. W. Small. Col. Small defeated Gary Liebsch, 6-4, 6-2 to win first place. Joe Springli beat Bob Jones, 6-3, 6-3 to win third place in Class "A".

In first-round matches, Gary Liebsch defeated Don Tuttle, 6-4, 6-3. Joe Klein beat Dick Miner, 7-6, 6-4. Joe Springli defeated Chuck Muehlhauser, 6-4, 6-2. Col. Small beat John Goodwin, 6-2, 6-3 and Jim Harris beat Bill Burchard, 6-7, 6-0, 6-1.

In second-round action, Gary Liebsch eliminated Steve Hagedorn, 6-3, 4-6, 6-3. Joe Springli beat Joe Klein, 6-0, 6-0. Col. Small eliminated Ben Ehrlich, 6-1, 6-4, and Bob Jones defeated Jim Harris, 6-1, 6-2.

In semi-final action, Gary Liebsch defeated Joe Springli, 4-6, 6-3, 6-2 and Col. Small beat Bob Jones, 7-5, 7-5. This set the stage for the final matches.

The 1982 DMAAC Class "B" Open Singles Tennis Championship went to Kevin Webster. Webster defeated Roger Mitchell, 6-3, 6-3 in the finals while Kate Doyle beat Tom Murphy, 6-4, 7-5 to win third place.

In first-round action, Joe Moeller defeated Laura Gruber, 6-1, 6-2. Chuck Arns eliminated Gary Wallace, 6-3, 6-4. Tom Murphy beat Scott Lloyd, 6-1, 7-5 and Kate Doyle defeated Bill Leong, 6-4, 6-2. Kevin Webster beat Joe Moeller, 6-1, 7-5 and Roger Mitchell defeated Chuck Arns by forfeit.

Semi-final action produced Kevin Webster winning over Tom Murphy, 6-4, 6-1 and Roger Mitchell defeated Kate Doyle, 7-5, 5-7, 6-2. This led to the finals.

In the Women's Singles Tennis Tournament, Leslie Kadison beat Laura Gruber, 6-3, 6-1 to win the championship. MaryBeth Farrar won third place as she defeated Chris Everding, 3-6, 6-4, 7-6. Leslie Kadison reached the finals with a win over MaryBeth Farrar, 7-5, 6-2 while Laura Gruber gained the finals with a 6-3, 1-6, 6-0 win over Chris Everding.
