75 Attend First MC&G Seminar At Center

More than 75 people heard the director of the Aerospace Center and the director of Systems and Techniques at the first of eight mapping, charting and geodesy career seminars Oct. 27. The monthly series is being jointly sponsored by the Federal Women's Program and the Arsenal '76 chapter of Federally Employed Women.

"Some major barriers against women have been overcome, but both men and women must realize that other barriers against women must still be overcome," Col. Byron S. Fitzgerald, USAF, director of the Center, said in an address on "Affirmative Action for Women." Today there is an active federal program to support the upward mobility of women, but "to be competitive, you must compete," he added.

Dr. William C. Mahoney, the director of Systems and Techniques, speaking on the "Status of

Almost Done

Construction superintendent Paul Hof (left) of Hof Construction Co. goes over plans for a \$300,000 project to relocate the Automated Type Placement System and Gerber plotting equipment with Cal Hunnius, Facilities Engineering construction manager. The work site consultation takes place between camouflaged digitizing tables, awaiting completion of the project, scheduled for next week. Personnel from Logistics moved the equipment into the area, located in Section 3 of Building 4 at 8900 S. Broadway, before walls were constructed, due to its size, which would preclude passage through doorways. Another project at South Annex, scheduled for completion this week, is the auditorium reconstruction. (Photo by Frank Aufmuth)

Old Newsboys Final Total

As this issue of the Orienteer went to press, the grand total collected by the Aerospace Center's Old Newsboys and Newgirls was \$1582.39. The total was the second highest ever; \$1606 was collected last year.

The amount collected at Second Street was \$1034.20, with South Annex adding \$381.27. Added to the Center's total was \$166.92 collected at two outside locations.

Pictures and more details on the Aerospace Center's 22nd year of participation in this effort to assure a happy holiday for needy children will be in the Dec. 2 Orienteer.

Fair Aims To Help Employees Choose Health Benefits Plan

The Health Benefits Open Season, during which eligible employees may enroll in or change enrollment to a new Federal Employees Health Benefits plan, will end Dec. 9.

To assist employees in making an informed choice among all available plans, the Personnel Office will hold a Health Benefits fair with representatives of various FEHB carriers available to discuss the benefits of their plans and answer questions.

The Health Benefits Fair will be held Nov. 29 at 3200 S. Second St. in the 1B training room and Nov. 30 at 8900 S. Broadway in conference rooms 2 and 3 of Building 4. Hours will be from 8 a.m. to 3 p.m. Employees working second and third shifts should make plans in accordance with these dates and times.

Under open season regulations, any eligible employee who is not

included on the comparison chart.

Enrollment changes will become effective the first full pay period in January (Jan. 8, 1984).

A brief description of each type of plan follows:

THE SERVICE BENEFIT PLAN, administered by the national Blue Cross and Blue Shield organization, is a government-wide plan available to every employee eligible for FEHB. This plan generally provides benefits through direct payment to doctors and hospitals.

THE INDEMNITY BENEFIT PLAN, administered for the insurance industry by Aetna Life Insurance Co., is also a government-wide plan available to every employee eligible for FEHB. This plan generally provides benefits by reimbursing you or, at your option,

inate the GS-9 positions and below; they must try to get into positions with potential for advancement. The ratio of promotions for women is lower than for men and minorities.

Dr. Mahoney suggested that major grade redistribution is needed for equality in the work force, placing many more women in higher grades. For individual advancement at the Center, he stressed the following "musts":

1. Make a commitment to the job.
2. Decide what constitutes career success.
3. Evaluate costs and rewards for success.
4. Learn to manage environment and self concurrently.
5. Establish knowledge, skill and experience base to compete for selection.

A person from the audience asked how one is selected for a department when first coming to the Center. Richard Vierling, director of Civilian Personnel, assured the audience that it is not by chance; there is a committee that reviews each applicant's education and experience and makes the decision from this information.

Designed for all Center employees, the remaining seminars will be conducted on the third Thursday of each month through May 1984 in the Second Street dining hall beginning at 4 p.m.

Information about the seminars is available from Barbara Savalick/4150, Diann Burke/4491, Dr. William Mahoney/4997 and Connie Carter-Clayton/4353.

—Connie Carter-Clayton
Manager, Federal Women's Program

As the Combined Federal Campaign at the Aerospace Center approached its end last week, the \$100,000 mark had been surpassed but it appeared the goal of \$185,000 would not be reached.

Even so, CFC project officer Tom Porthouse had strong words of praise for his managers and key workers: "They've been doing a heck of a job in a very limited time frame (due to the late arrival of pledge cards)," he said. "They really scrambled to get us \$100,000 in a week's time."

The key workers have also faced special problems this year, Porthouse said. "Many people have

been refusing to give; they seem to feel they haven't gotten their due and can't afford it." He went on to cite federal belt-tightening measures that have affected employees' paychecks.

But there was cause for inspiration among all the dissatisfaction: the average gift actually increased this year. "This means that within the DMAAC structure, there is a very committed group sensitive to the needs of the community," Porthouse said.

Complete campaign figures will appear in the Dec. 2 Orienter.

from one plan or option to another, or from self only to self and family and conversely. Those employees who do not wish to make a change in current enrollment do not need to take any action.

Distribution of open season materials to all employees and annuitants presently enrolled in the FEHB program is scheduled for completion this week. Since few benefit changes occurred between 1983 and 1984, addendum sheets are being distributed to supplement the 1983 brochure. Each employee is also receiving a new and improved enrollment information guide and plan comparison chart. A biweekly and monthly list of premium rates for all plans is

PLANS generally are indemnity plans, which provide benefits by reimbursing you or, at your option, doctors or hospitals. Some of these plans are open to all federal employees regardless of agency or occupation, while others are open only to a certain group of employees. For plans sponsored by unions, generally, you must be, or must become, either a full member or an associated member. You will have to pay a membership fee (dues) in addition to the health

Christmas Bazaar Set for Dec. 2

The DMAAC Women's Club annual Christmas Bazaar will be held Friday, Dec. 2, at 7 a.m. Craft items, baked goods, candies, etc. will be available at Second and Arsenal in the corridor across from the entrance to the Credit Union and at 8900 S. Broadway in the cafeteria.

The Bazaar is an annual fund raising project of the Women's Club. Charities selected to benefit in the proceeds include the New Life Evangelistic Center (Rev. Larry Rice), the Salvation Army, and the Judevine Center for Autistic Children. Funds are also used to answer any special need that may arise with employees at the Center.

Your help and participation in the Christmas Bazaar is greatly appreciated. Donations of craft items and baked goods would also be appreciated. Drop them off at the Credit Union in Building 36 or in the cafeteria at 8900 S. Broadway on the day of sale.

We Asked Them...

What do you have to be thankful for on this Thanksgiving?

AND THEY ANSWERED . . .

"Good health . . . a happy family . . . a good job . . . prosperity."

—Mike Dmytryszyn/CDIAA

"My health. Also, I'm thankful for having the same wonderful wife for 37 years. What I'm really thankful for is the fact that she has put up with me this long."

—Jim Bell/FES

"Having a job that almost supports me. Also, being single so I don't have to make Thanksgiving dinner."

—Sandie Martin/SDDP

"Having a good job. Living in a free country. Having a good family. Being in a country where you can worship God freely."

—Bob Morse/CDIAD

"My health and my family. My job. I just returned to DMAAC a year ago. I'm especially thankful for all my friends."

—Nora Savoy/SDDSC

Construction Activity Abounds On Second Floor of Bldg. 36

Larry Bausola (above left) and foreman Dave Simons of Aschinger Electric Co. install wiring in the former press room on the second floor of Building 36. The entire 600-foot length of the floor has been gutted to make room for administrative offices. The Army Corps of Engineers project totaling approximately \$5 million is scheduled for completion in February 1985. The work includes installation of new electrical service and duct work for heating and air conditioning, insulation of the exterior walls, and construction of interior masonry walls to separate office areas. Below, Dennis Shy of C.J. Milligan Inc. builds a cement-block wall with rod and wire reinforcements. (Photo by Frank Aufmuth)

Security Parking

The numbers are staggering. About every 37 seconds a car is stolen somewhere in the United States, according to information released by General Motors.

That adds up to almost 800,000 cars in a year. You can help to assure that your car doesn't get counted toward a similar statistic for 1981 by avoiding four common parking mistakes.

The "just for a minute" syndrome. When you leave your car, even if it's "just for a minute," lock all doors and take the keys.

About one of every five cars stolen was left unattended with keys in the ignition.

Keep your driver's license and vehicle registration cards in your wallet or purse. If a car thief finds these documents in the vehicle glove box, he or she can impersonate you if stopped by the police.

The isolated location. It's safest to park in a locked garage, of course. But if you can't, don't leave your car in a dark, out-of-the-way spot.

Instead, try to park on a busy, well-lighted street. Thieves shy away from tampering with a car if there's a high risk of being spotted.

The display case. There's nothing more inviting to a

"So many things. I have a wonderful family. Also, I'm thankful for being an American and employed because some people are neither."

—Gale Hoff/EO

"Scott's Turfbuilder. I have the best looking lawn in my neighborhood. I was born to mow."

—Dutch Hempel/SDR

lying in a car in plain sight. If you lock these items in the trunk or glove box, there's less incentive for a thief to break into the passenger area of your car.

Also, when you park in a commercial lot or garage, be cautious. Lock your valuables in the trunk and leave only the ignition key with the attendant.

The space at the end of the block. In recent years, professional car-theft operations have become an increasing problem. Unlike amateurs, professionals are not easily deterred.

Cars parked at the end of the block are easy targets for the professional thief with a tow truck. So, it's best to park in the middle of the block.

Be sure to turn your steering wheel sharply to one side or the other. That will lock the steering column and prevent the car from being towed from the rear.

Promoted to Chief Master Sergeant

CMSgt. James R. Sandvick, USAF, was promoted to his present rank Nov. 1. He is the Aerospace Center's assistant chief of Supply. Chief master sergeant is the highest enlisted rank in the Air Force.

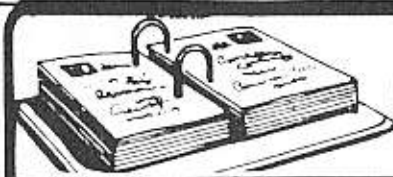

In Sympathy

Aeronautical information analyst Roy F. Dreiling (AD-DNE) died Oct. 30 after a long illness.

An employee since January 1949, he also served in the Army for a total of 34 years of federal service.

Mr. Dreiling leaves his wife Rita, three sons, and a daughter. Interment was in Jefferson Barracks National Cemetery.

Open Season on Plans for Health Benefits

Continued from page 1.

plan premium. The employee is responsible to pay in full the membership or associate membership fee when billed by the organization if this type of plan is selected. Only the premium for the health plan is deducted biweekly through our payroll office.

COMPREHENSIVE MEDICAL PLANS/HEALTH MAINTENANCE ORGANIZATIONS (CMP/HMO's) are an alternative to conventional health insurance. The main difference between CMP/HMO's and conventional plans is that CMP/HMO's deliver health care services in addition to providing coverage. CMP/HMO's are generally open to employees who live in the particular geographic area served by the plan, as described in the plan's brochure, and operate through a group of affiliated doctors and hospitals in designated geographic locations.

Employees wishing to enroll or change their enrollment must complete a Health Benefits Registration Form (Standard Form 2809). These forms are available from the administrative secretary of your department. Standard Form 2809 must be completed and submitted to that office or Staffing Division's Personnel Data System Branch (POPP) in the Directorate of

Civilian Personnel prior to the close of business on the last day of the open season (Dec. 9). The Personnel Department asks your assistance in making desired changes as early as possible in the open season.

If you change plans, any covered expenses incurred between Jan. 1 and Jan. 8, the effective date of the open season change, will count toward the prior year's deductible of the plan from which you are changing. Situations may also occur where employees need verification of coverage before receiving ID cards from the plan they elect. In most cases, the employee copy of the SF 2809 is acceptable as proof of coverage. In cases where this is not acceptable, you should request the carrier, doctor or hospital to call POPP (263-4946) for verification of your plan.

If the coverage of a family member ends for any reason, except when an employee cancels or changes to a self-only enrollment, that family member has a right to convert, without proof of insurability, to a nongroup health benefits contract offered by the carrier of the plan. The affected family member can exercise that right by making application (i.e., a letter requesting conversion) to the nearest office of the plan from which coverage is terminated. Normally, the application must be made and the

first premium paid to the carrier within 31 days after termination of coverage. Loss of coverage as a family member occurs, for example, when a child attains age 22 or divorce occurs.

It is illegal for an employee or a member of the employee's family to be enrolled in a FEHB plan and also be covered under another FEHB plan.

Insurance is a fairly complex subject and the technical terms and details about benefits may be difficult to understand. Terms which have special meaning in the health field have been defined as much as possible in the 1984 enrollment information guide and plan comparison chart. Detailed information about plan benefits and the contractual description of coverage appear in the 1983 plan brochures and 1984 addenda. Further explanation will be available from representatives during the Health Plan Fair.

Only you can decide which plan is best for you and your family. By careful shopping using all of the information available, you should be in a position to select a health benefits package that suits your individual and/or family needs.

—Jo Ann Ing, Health Officer
Directorate of Civilian Personnel

JAMES R. OAKES (CMP), a budget analyst, retired Oct. 28 with more than 33 years of federal service. He entered the military in February 1943 as an aviation cadet and flew P-47's out of Abilene, Texas. Recalled to active duty in 1951, he served more than three years in the Air Force with assignment to Far East headquarters in Tokyo. Oakes came to the Aerospace Center in December 1955 as a management analyst in the Manpower Division.

"I have thoroughly enjoyed working at DMAAC and with its many fine employees," Oakes said. "In my 25 years at DMAAC

there was never a day I regretted working there and, as an employee, I was always treated fairly."

JOSEPH P. RACHER (ADDSD), a supervisory aeronautical information specialist, retired Oct. 28 with more than 35 years of federal service, including 34 years at the Aerospace Center.

Symphony Tickets

The Civilian Welfare Council is offering tickets at a discount to St. Louis Symphony performances. All performances are at Powell Symphony Hall, 718 N. Grand Blvd.

The following performances are available. For tickets, contact Chris Hoelker/4130 between 11 a.m. and 12 noon. Please note cutoff dates for sales:

Performance	Date	Price	Cutoff Date
Tchaikovsky's Nutcracker Ballet	Dec. 18 (Sunday) 7:30 p.m.	\$6.37 (Reg. \$8.50)	Dec. 2
Jean-Pierre Rampal Flute Solo Recital	Jan. 13 (Friday) 8:30 p.m.	\$9.00 (Reg. \$12.00)	Dec. 22
Vienna Choir Boys	Feb. 27 (Monday) 8:00 p.m.	\$12.00 (Reg. \$16.00)	Feb. 10
Fred Waring's Pennsylvanians	Mar. 13 (Tuesday) 8:00 p.m.	\$8.25 (Reg. \$11.00)	Feb. 24

Seating for the Nutcracker Ballet and Flute Solo will be in orchestra W-CC. For the Vienna Boys—parquet center, and for Fred Waring—orchestra D-V.

Class 83-L

Wham Bams Win Co-Ed League

The Co-Rec Softball League finally completed a confusing season, where the weather was more suitable for mud wrestling. Either way the Wham Bams finished on top with a 10-2 record.

In a 20-19 win over the Bag People, catcher Paulette Martin made a spectacular grab on a foul pop-up. Gail Keeve was voted in as most valuable player for the first-place team.

Maui Wauis came in second with a strong finish, winning their last four games, mainly due to excellent bench warming by manager Pat Lynch.

The Bag People split a doubleheader on "Bag Night," losing first to the Wham Bams, despite a triple play executed by "Wild-Eye" Mace, Dave "The Pinhead" Zuhlke and Liza Webero, and then defeating them. Earlier in the week the Bag People defeated the Holy Guacamolis 9-8 with the winning run scored on a ripped-jean slide by Les Wielgos, maintaining a public image well worth the effort.

The Holy Guacamolis and Peaches and Cream finished with identical 5-7 records, while keeping detailed results quite obscure; we might never know whatever happened on those mysterious evenings. The Bud Lights may have had one too many, as they ended up 2-10.

Perhaps next year the new indoor softball dome will be completed (right next to Building 36) to avoid future weather difficulties.

—Les Wielgos

Men's Final Standings Show Two on Top

Tammany Hall and M.D. Unlimited are co-champions in regular play in the 1983 Men's Fall Softball League. Each team ended up with only one loss and was not scheduled to play the other in the regular season.

The Banditos, first-place finishers in their division and tournament champion last year, took third this year. They finished this season by defeating the Wombats 8-7. Chris Cuppan was the winning pitcher and helped himself with a home run.

The honorable Samurai finished strong, winning their last seven games, which enabled them to capture fourth place in the league. Their biggest victory was in extra innings against their arch-rivals the Wombats 9-8. An error by the Wombats' second baseman (Commissioner Larry White), a fly ball, and then an infield hit by Brian Peterson won it for the Samurai.

The only team without a victory was the Zatlion Warriors. With five games left, Coach Doug Lynch "grabbed the bull by the tail and faced the situation" (special

thanks to the very late W. C. Fields), coming away with three victories: 13-7 over the Buzzards, 15-10 over the Photo Flashers, and 15-10 over the Zeroids.

In other games, which saw teams play tripleheaders and on Saturdays, the Wombats defeated the Breaks 8-6, Brand X 5-13 and the Good Ole Boys 17-13. The Buffalo Chips beat the Zeroids 14-6 and the Banditos 7-0. The Good Ole Boys defeated the Buzzards 7-0, the Photo-Flashers 17-4 and the Breaks 26-6. The Master Batters had an easy time defeating Who's on First 23-11 and the Breaks 16-1. The Broken Bats defeated the Banditos 7-0, the Breaks 9-8, Brand X 9-3 and the Master Batters 7-0. M.D. Unlimited defeated Who's on First 15-9, the Master Batters 16-6, the Buffalo Chips 7-2, a tough Good Ole Boys team 13-10 and the Broken Bats 13-3.

Brand X defeated the Zatlion Warriors 21-4, while the Banditos won over Who's on First 12-3 and the Zeroids 7-0. Who's on First defeated the Breaks 10-5, Brand X 11-10 and the Buzzards 15-7. The Samurai defeated Who's on First

17-4, the Broken Bats 17-8, the Master Batters 7-0, the Buffalo Chips 8-3 and Brand X 15-1. The Breaks defeated the Photo Flashers 7-0. Finally, Tammany Hall destroyed Who's on First 29-3, the Buffalo Chips 17-5, the Zatlion Warriors 28-4, the Zeroids 15-0, the Wombats 29-9, the Photo Flashers 18-8 and won a close one against the Master Batters 18-15. Two other games, the Buzzards/Master Batters and Photo Flashers/Zeroids, were double forfeits.

St. Louis Track Club Names Fennell Pacer of the Year

The St. Louis Track Club Summer Pace Series takes place each year from June through October and features weekly runs of varying distances and difficulty. Each week, participants must predict the exact time it will take them to complete the course; the runner with the most accurate pace wins the event. It was recently announced that Aerospace Center Strider Leon Fennell has won the title of Pacer of the Year for 1983 with the most accurate pacing over the entire series of runs. Leon, as well as Bob Howard, who finished fifth overall for the series, will receive awards at the St. Louis Track Club annual awards luncheon in February.

Once again, at the Citizens National Bank 10km. Halloween

Gee Bees	39	38
Classified Waste	38	39
Tom Cats	36	41
Apaches	35	42
Alley Dusters	34	43
Bears	27	50
Trolls	27	50

High games and series for the men remain untouched while for the women Kate Doyle's 518 series edged out the previous 517 of Johnetta Lowe.

In their move from the bottom of the standings, Dig It Out rolled a new high team series of 1519. There seems to be some confusion over who has the league high G.B.s, but rumor has it that Mike and Kim Pohlars are contenders.

—Kim Norgaard

Run Oct. 29, Bob Howard finished first in his division; his time was 37:09. Leon Fennell second with 37:42, while Lebon Thornton and Bill Pryor took a more leisurely pace but finished well. In a clever change of activity, Phil "Also-Ran" Alderman didn't but helped officiate the race instead.

On Oct. 30 George and Carole Keil were in Kansas City to participate in the Macy Marathon and 10km. Run. While George was stepping out the 10 kilometers in a time of 47:28, Carole was on her way to complete the 26.2 mile marathon in 4 hours, 7 minutes.

Congratulations are in order to all of these Striders for their fine efforts at these events.

—Bill Pryor
