## DMA in New Alignment Announced by Weinberger

After years of reporting to the Secretary of Defense through the Under Secretary of Defense for Research and Engineering, the Defense Mapping Agency has been transferred into the Command, Control, Communications and Intelligence community.

In a realignment of the Office of the Secretary of Defense released Jan. 29, Secretary of Defense Caspar W. Weinberger announced that DMA and other functions would be under the control of the new Assistant Secretary of Defense for C<sup>3</sup>I, who will report directly to the Secretary.

In a DoD-wide memorandum, Secretary Weinberger declared he has "become convinced that certain changes should be made in order to clarify responsibilities, strengthen controls, and provide emphasis for certain program areas, which should receive additional attention."

He added, "It has become apparent that the management of DoD C<sup>3</sup>I functions and activities should be consolidated under one head in order to ensure consistency of DoD policy development, resource management and program evaluation, as Congress directed.

"Accordingly, responsibility for all C<sup>3</sup>I and related space systems matters currently assigned to the USD (Policy) and all C<sup>3</sup>I functions and responsibilities... currently assigned to the USD (R&E) will be transferred" to the new Assistant

transfer... will be responsibility for security of communications and computers.

"Also transferred to the ASD (C<sup>3</sup>I) will be direction, authority and control over the Defense Mapping Agency, Defense Communications Agency and Joint Tactical C<sup>3</sup> Agency, and primary staff supervision over the Defense Intelligence Agency and the National Security Agency/Central Security Service."

Under the reorganization, the USD (R&E) will retain responsibilities for research in the C<sup>3</sup>I area.

The Director of DMA will still be responsible to the Joint Chiefs of Staff for operational matters.

### Staff Assignments

Jerome J. Lenczowski has been selected for promotion to the position of supervisory physical scientist, GM-14, in the Directorate of Systems and Techniques, SPOEM Technology Division (STS). Lenczowski has been employed at the Aerospace Center since June 1962.

Lohris G. Jenkins has been reassigned as chief of the Geopositional Department, were responsible for the event's success, were Alonzo Acklin, Lawrence Carroll, Rochelle Cornell, Sharon Degenhardt, Michael Jennings, James McAfee, Floyd Morris, Margaret Ryan and

The event coincided with the prayer breakfast of the Senate and House Prayer Groups, who began the annual observance to enable officials to rededicate themselves to the moral and spiritual values upon which the nation was founded. Other breakfasts were held throughout the government and on military installations and ships around the world.

At the Aerospace Center, participants were led by the Director, Col. Bryon S. Fitzgerald, USAF, and Deputy Director, Col. Harold T. Boe, USAF, at Second Street and South Annex respectively.

At Second Street, the Rev. Lee Roy Maxey, pastor of Evangel Temple Full Gospel Church, Maplewood, Mo., said God expects His people "to fulfill our responsibility. We can be negative and say 'If only the others would straighten up,' but God has entrusted to us the ministry of reconciliation."

Guest speaker at the South Annex dining hall was the Rev.

Carroll at South Annex, sang a harmonized version of "America," with employees joining them in unison on the last stanza. The closing anthem, chosen personally by choir director Knight, was Horatio G. Spafford's "It Is Well With My Soul." It is said that Spafford wrote the words as a testament of faith after learning that his wife and two children had drowned on a transatlantic

were Margaret Ryan - opening prayer, Colonel Fitzgerald - introductory remarks, Gerald Schuld - Pledge of Allegiance, William R. Smith - scripture reading, and Schuld with the benediction.

Participants at South Annex were Virginia Wind - opening prayer, Colonel Boe - introductory

## Red Cross Seeks African Relief

The facts and statistics on starvation in Africa extend far beyond Ethiopia. They continue to pile up with grim regularity. In drought-affected areas of the continent, more than 40,000 people are dying every month.

In the West Coast African country of Mauritania, relief trucks filled with food and medical equipment are constantly on the move. But, if 15 of them broke down at the same time, 10,000

people would probably starve before deliveries could be adjusted.

Some 350,000 nomads in Mauritania's capital of Nouakchott have moved into shantytowns looking for food. Their entire water supply depends on a single cast-iron pipe.

The League of Red Cross and Red Crescent Societies has launched a major worldwide appeal for \$70 million to expand relief efforts in Africa this year. The American Red Cross share of that goal is \$5 million, which is targeted at 14 of the most severely affected countries.

Planned relief operations include food, medical supplies, blankets, medical staff and relief personnel, funding for long-range food production programs, and transportation and warehousing.

Secretary of Defense Caspar W. Weinberger, in a letter to all Department of Defense personnel, has endorsed the American Red Cross famine relief campaign, saying, "We in the Department of Defense have been the special beneficiaries of Red Cross ser-

Hosts and speakers at the program introducing Afro-American History Month are, from left: Aerospace Center Technical Director Paul L. Peeler Jr., the Ugandan Ambassador to the United States His Excellency J. W. Lwanafa, Director Col. Byron S. Fitzgerald, USAF, and Africare Executive Director Dr. C. Payne Lucas. (Photo by Gordon Lawrence)

## Ugandan Ambassador, Director Of Africare Speak at Center

The executive director of Africare, Dr. C. Payne Lucas, spoke at the Aerospace Center Feb. 1, introducing a month-long celebration of Afro-American History. Dr. Lucas was accompanied by the Ugandan Ambassador to the United States, His Excellency J. W. Lwanafa.

Dr. Lucas spoke on the crisis of famine and drought in Africa and the challenge this poses to the world. Formerly a Peace Corps director for Africa, he received the Presidential Hunger Award for Outstanding Achievement in 1984. Africare is a private development organization, based in Washington, D.C., that is working to improve the quality of life throughout rural

Africa.

The Ambassador brought greetings from the African diplomatic corps and spoke on the history of Uganda.

Later this month, the Legend Singers, a nationally prominent gospel group, are expected to perform in the Second Street dining hall.

Visual information specialist LeRoy White has constructed an exhibit illustrating the theme of Afro-American History Month, "The Afro-American Family: Historical Strengths for the New Century." Presently on display in the Second Street dining hall, it will move to South Annex later this month.

# Weinberger Addresses The Defense Industry

## Cites Improved Management in DoD

The industrial-military base must be expanded to meet the specialized and vital needs of American defense, Secretary of Defense Caspar W. Weinberger told members of the National Security Industrial Association, meeting in Washington.

DoD needs industry's help to eliminate overpricing, increase competition and ensure that America maintains its technological edge, the secretary told the industry executives. He noted that industry has begun responding with improved buying practices, better pricing, direct purchases and shipments, and consolidation of orders.

DoD is doing its part, too, the secretary said, citing management improvement practices in three areas.

In the first area, DoD has improved its in-house management with centralized direction and decentralized execution. "Our participatory management gives more responsibility and accountability to the people closest to the problems," Secretary Weinberger said.

DoD has strengthened the role and authority of the civilian secretaries of the Army, Navy and Air Force to enable them to manage more effectively. "For years, I have favored giving greater authority to those in the field who must do the job, but at the same time, they need centralized policy formation and close review of their work," he said.

The second area is the detection and reduction of fraud, waste and abuse, particularly in procurement. "We have had remarkable success in fighting waste and wrongdoing. Most of the 'horror stories' were cases we uncovered," he said.

"We are working hard to correct ineffective policies, to replace contracts that permitted and encouraged overpricing and to provide incentives for cost-awareness."

The defense acquisition improvement program is one major initiative in this area, Secretary Weinberger said. "It seeks to shorten the acquisition process, increase readiness, save money and strengthen America's industrial base."

The secretary said progress has been made to ensure that logistics support is given a high priority in the acquisition process. "We are setting goals and allocating the funds necessary to ensure that readiness requirements are met. America's forces are not only stronger, but also more ready than they were four years ago."

The final element of DoD's reform is increased competition. "We are

### Joins Legal Staff

Howard S. Bishop Jr. has joined the office of the Assistant General Council (AGU) as an attorney adviser performing general legal work. A member of the Illinois and Missouri bars, Bishop earned his J.D. from the University of Missouri - Columbia in 1975. Before coming to the Aerospace Center, he worked in the legal office of the U.S. Army Reserve Components and Personnel Administration Center (RCPAC) in St. Louis. He had been previously engaged in private practice in Chicago. Born in St. Louis, Bishop holds a B.S. in electrical engineering from Washington University.

*In Sympathy*

## Kudos

### Harris Chosen Policeman of the Quarter

In selecting Paul Harris Security Policeman of the Quarter, officials cited his consistent attendance record, noting that he has been "ready and willing to help the shift in any way during the current manpower shortage." His ability to get along with co-workers, willingness to help others, and professional appearance also received commendation.

A resident of East St. Louis, Ill., Harris was a fireman there for three years before coming to the Aerospace Center last August. He served in the Army with the 24th Combat Infantry Engineer Battalion in Germany.

### Arlene Hux Appointed to A.F. Academy

Arlene Hux, daughter of Stephen Hux (GDMT), has accepted an appointment to the U.S. Air Force Academy. Ms. Hux received nominations from U.S. Sen. Thomas Eagleton and U.S. Rep. Richard Gephardt.

Arlene is a member of the National Honor Society and student body president at Eureka (Mo.) Senior High School. She will graduate from Eureka this spring and report to the Academy in July.

### Turner Listed in High School Who's Who

Timothy Turner, son of Charles Turner (FEP) and Patricia Turner, has been listed in "Who's Who Among American High School Students."

Tim is a junior at Christian Brothers College (CBC) High School. He is a member of the varsity band and varsity track team and has participated in ROTC and basketball. He has also been listed on the school honor roll since his freshman year.

**Red Cross Seeks African Relief**

promoting a healthy national industrial base."

The secretary noted that there are difficult and unavoidable tradeoffs in acquisition management. "The goals of sound management are clear: cut acquisition time, cut costs, cut the risks of a program going awry," he said.

"To some Pentagon watchers, any failure to achieve all three goals reflects ineffective defense management. The reality is that progress toward one goal can degrade our performance on another goal."

Solutions can be good, fast or cheap, but rarely all three, said the secretary. "Our defense managers, who cannot escape reality, seek an optimum balance of time saving, cost cutting and risk reduction."

He emphasized that DoD and the nation need American industry's help to ensure the United States maintains its technological edge over potential adversaries.

"We need industry to work closer with universities to provide the number of high quality scientists and engineers that will ensure us a technological lead for years to come," he told the executives.

Another area in which America's defense needs more help is productivity and quality, he said. "These are critical elements in enhancing our defense posture and reducing acquisition costs."

The major responsibility for these improvements lies with the defense industry, Secretary Weinberger said.

"There is much that both of us need to do to get the most out of our defense dollars. And we must recognize that any basis for criticism, any ammunition we may give our opponents, will be used in every way they can to stop the investments we must make to keep the nation strong and free." (Air Force News Service)

## When You Talk on the Phone

"Smile" when you speak on the phone. Envision the caller in front of you and address the person as you would a visitor to the office. Use a friendly voice that says "I want to help you."

Relax. It's important to sound confident and in charge when handling a caller. By maintaining good posture and breathing deeply, you can make your voice sound calm and self-assured.

Be Courteous. Always show callers respect by using common courtesy titles, or professional titles when known, and add a personalized word of address for a little extra emphasis.

Pace your speech. Don't talk so fast that your caller misunderstands you or loses part of your message.

Enunciate. Practice saying every syllable clearly, especially final consonants.

Pause for emphasis. Help your listener keep up with your message by pausing after any word or idea you want to reinforce.

—Office of Communications and Electronics

Word has been received of the death Jan. 20 of Quentin R. Dominguez, supervisory cartographer in the Geopositional Department, at the age of 54.

An Aerospace Center employee for more than 26 years, Mr. Dominguez was a section chief in Photogrammetric Data Division 1 (GDMCA). Stricken by cancer, he officially retired in June 1984. Survivors include his wife Melinda of Arnold. Interment was in Mt. Hope Cemetery.

\*\*\*\*\*

Word has been received of the death Jan. 17 of James C. Lovelace, retired aeronautical information specialist. An Aerospace Center employee for nearly 10 years, he was an analyst in the Southern Africa, Pacific and Far East Branch of the Data Reduction Division (ADDP) before his retirement in April 1984.

Mr. Lovelace suffered a heart attack. Cremation was in Albuquerque, N.M., where he had moved following his retirement. Survivors include a son, James Jr. of Fairbanks, Alaska.

VICES, not only in times of disaster and in times of war, but on a daily basis year-round, including worldwide emergency communications, counseling and other services to our armed forces and their families.

"We now have an opportunity to join with others to support this campaign effort and bring relief to the many millions who otherwise will die of starvation in Africa."

The theme of the campaign is "Help Pick Up the Tab." Four

## Computer Crime Bill Passes

Unauthorized access to a computer to obtain classified information affecting national security is a federal crime under a bill passed by Congress in the last session. The new law provides for penalties of up to 10 years in prison and/or a \$10,000 fine for obtaining classified information in this manner.

Also prohibited are unauthorized access to a government computer and the destruction, modification, or disclosure of information residing in that computer. A third form of crime is defined as unauthorized access to a computer to obtain or disclose information protected under the Right to Financial Privacy Act and the Fair Credit Reporting Act.

The new law covers computers used in federally insured financial institutions, as well as the government. Private sector computer crimes are left to state and local authorities to prosecute.

dollars will feed a starving African child for a month. That's only \$48 a year to keep a famine victim alive.

Donations to the Red Cross African Famine Relief Campaign can be made at local Red Cross chapters. Or donations may be sent directly to: American Red Cross, African Famine Relief Campaign, National Headquarters, Washington, D.C. 20006.

and complete, the deputy director of Civilian Personnel, Judy Scheibel, told members of the Arsenal '76 chapter of Federally Employed Women. The FEW seminar on effective preparation of the Knowledges, Skills, Abilities and Personal Characteristics (KSAP) form used to apply for positions in the federal government was held Jan. 17.

Scheibel stressed the importance of responding to the specific skills or knowledge outlined in the crediting plan. It is important to communicate the experience and/or training one possesses as it relates to the specific KSAP to which one is responding, she said.

needs to obtain a copy of the crediting plan and read it several times to be sure it is completely understood.

After drafting the response, one should read that several times, too, Scheibel continued, to ensure the training/experience is stated in a manner that demonstrates its relevancy. Scheibel stated enclosures could be referenced but only in support of information already stated. She emphasized that the responsibility for a thorough and relevant response rests with the applicant.

Employees should be sure to keep their Official Personnel Folder (OPF) current, Scheibel

and as a reminder of experience one may have overlooked when responding to KSAPs.

If the OPF is not current, Standard Form 172 can be obtained from Personnel and used to supply the missing information. Information entered this way should be verified by the supervisor or person for whom the task was performed, Scheibel said.

Paul Morton, Comptroller, will present a seminar on career opportunities in the Comptroller's Office (CM) at the next seminar Feb. 21.

## Tennis Team Suffers Tough Loss

For the second match in a row, the DMAAC Corporate Tennis Team was soundly beaten. On Jan. 19, Southwestern Bell dismantled DMAAC by a team score of 34-4. The score, however, was a poor indication of the match play, as DMAAC lost several close matches. Four of the matches involved tie-breakers and DMAAC lost all four.

Donna Hangege exhibited some sparkling play in an impressive 1-6, 6-1, 6-2 come-from-behind victory in Women's "A" Singles. On the men's side, Ben Ehrlich played well, also, but fell just short of victory in two tough doubles matches, which had good tennis.

Team captain Steve Hagedorn showed improved play in a 6-4, 3-5 tie in Men's "A" Singles. Other team members showed gutsy play in some tough losses.

The season is only half over, with three matches left and many of our best players planning to be on hand for the remainder of the season, so don't count DMAAC out yet!

In the other team match played, McDonnell Douglas pulled off the surprise of the season so far, defeating Monsanto 21-17. This allowed Southwestern Bell to close within one point of Monsanto in the team standings.

The next scheduled match is Feb. 16. Monsanto plays South-

Katie Becherer of Hilary's moves the ball down court in a fast break from the Steal Blue. Behind, from left, are Kathy Hamby, Terri Kramer, Mary Ann Pemberton, Laura Gruber, Pat Swiderski and Cathy Hatfield. (Photo by Ron Andracsek)

## Battle for Second in Women's Ball

The three-way tie for second place was broken, but Greensleeves and Steal Blue remained tied for second place after five weeks of play in Women's Basketball.

Steal Blue put forth a valiant effort with two key players missing but lost to Hilary's 47-16. Scoring for Hilary's were Katie Becherer with 18, Darlene Fink and Kathy Hamby with 10 each, Cathy Hatfield, 4, Pat Swiderski, 3, and Ann Konecnik, 2. Scoring for Steal Blue were Kelly Waymire with 10 and

Scoring for Greensleeves were Tammy Iverson, 12, Lisa Webber, 2, and team captain Jean Riordan, 1.

Steal Blue defeated Silver Streak 22-18, with team captain Brenda Foist, in her first game this season, high scorer with 10. Kelly Waymire scored 8 and Terri Kramer and Dawn McMartin 2 each. Silver Streak obtained their highest scoring game this season, with Theresa McGuire scoring 7, Janice Hehmeyer 5 - a personal best, Pam Christenson 4, and Pam Diaby 2.

The next game will be Feb. 14: Greensleeves vs. Hilary's at 3:45 and Silver Streak vs. Steal Blue at 4:50. Games are held in the Cherokee Center gym, 3200 S. Jefferson. Spectators welcome. No cowbells, please.

—C. Andracsek

### Individual Matches

Results from individual matches: (D) = DMAAC, (S) = Southwestern Bell.

Women's "A" Singles - Donna Hange (D) over Kim Machiran (S) 1-6, 6-1, 6-2.

Women's "B" Singles - Barb Smith (S) over Tammy Iverson (D) 7-6, 6-1.

Men's "A" Singles - Steve Hagedorn (D) tied Len Packham (S) 6-4, 3-5 (time called).

Men's "B" Singles - Mike Smith (S) over Bob Jones (D) 6-1, 6-3.

Women's "A" Doubles - Southwestern Bell won by default.

Women's "B" Doubles - Smith/Sharon Lamely (S) over Iverson/Wanda Weber (D) 7-6, 6-2.

Men's "A" Doubles - Packham/John Turman (S) over Hagedorn/Ben Ehrlich (D) 6-2, 6-4.

Men's "B" Doubles - Smith/Bill Giessing (S) over Jones/Andy Podleski (D) 6-0, 6-1.

Mixed "A" Doubles - Bill Giessing/Turman (S) over Ehrlich/Hange (D) 7-6, 6-3.

Mixed "B" Doubles - Lamely/Polly Giessing (S) over Podleski/Weber (D) 7-6, 6-3.

Sharon Cabel, Laura Grabel and Terri Kramer with 2 each.

Greensleeves dominated 24-2 over Silver Streak. Scoring for Greensleeves were Jean Riordan with 14, while Tammy Iverson and Lisa Webber each scored 5. Kim Norgaard of Silver Streak scored 2.

Excellent defense caused a low-scoring first half, but Hilary's defeated Greensleeves 40-15. Hilary's Katie Becherer scored 16, Darlene Fink 10, Pat Swiderski 8, and Claire Andracsek, Cathy Hatfield and Ann Konecnik 2.

Greensleeves team captain Jean Riordan takes a jump shot, as Pam Christenson of the Silver Streaks tries to block her. Others, from left: Pam Digby, Janice Hehmeyer and Janice Lowman. (Photo by Ron Andracsek)

## Bruins Still Undefeated In Competitive League

In an update of the 1985 Men's Competitive Basketball season, the Bruins remained number one as of Jan. 29.

On Jan. 15 Let's Make a Dribble defeated Purple Gang 57-29. The Bruins defeated the Hollywoods 48-34, and the Sweat Hogs defeated
