

## Policeman of the Year

Security officials have chosen Donald A. Lococo as Policeman of the Year.

Lococo was cited for his outstanding performance throughout 1984.

He was also praised for his neat appearance and willingness to fill in during shortages. "Often he worked double shifts in order to maintain coverage on all posts," officials said.

A native St. Louisan and graduate of Berkeley Senior High School, Lococo served

eight years in the Air Force before coming to the Aerospace Center in October 1982. He was a heavy equipment operator at Osan Air Base, Korea, when he met his wife Su. They were married in 1981.

Commenting on the overtime, Lococo said it helps him "to get ahead. I had a 'USA Today' paper route before I got all the overtime. When you've got two kids and one on the way, you've got to do something."

He and his wife have a son, Young, 13, whom Lococo has adopted, and a one-year-old son, Chris. Born in Korea, Mrs. Lococo passed her U.S. citizenship test earlier this month.

## In Sympathy

### Philip Rahall

Philip Rahall, former Deputy Director for Programs, Production and Operations, died of cancer Feb. 28. He had retired in July 1979.

Mr. Rahall's association with the Center goes back to September 1947 when he arrived here after earning his degree in aeronautical engineering from Parks College, now part of St. Louis University. Among his assignments with the U.S. Air Force Aeronautical Chart and Information Center, he was assistant chief of the Plant

## Director of SIU-E East St. Louis Campus Visits

Dr. Johnetta Haley, director of the East St. Louis Campus of the SIU-Edwardsville (standing at the left) listens intently to a briefing on the Clustered Processing System. Dr. Haley and members of her staff toured the Center March 5 to discuss interaction with students and faculty with the recruiting programs of the Center. To the right of Dr. Haley are other members of her staff—Dr. Amos Cofield, assistant director; Dr. George Mitchem, coordinator for Community Services; and Dr. Betty Lee, director of Upward Bound Program. The visit and discussions by the group are part of an ongoing Center effort to meet with the academic community in the area to explain the employment requirements of the mapping, charting and geodesy professions as they relate to DMA.

## Major Site Improvements Planned

A site improvement project that will affect all of the 2nd Street installation west of "A" Lot and "E" Wing is scheduled to begin late this summer.

installation the appearance of a modern office park, while accomplishing a number of important objectives.

Traffic patterns will be im-

Parade Ground will not be disturbed. Other benefits include replacement of pavement that has depreciated past its intended life cycle and replacement of the

of the Cartography Division, and assistant director of the Directorate of Operations. Other assignments were in Aeronautical Information and Photogrammetry. After ACIC became the DMA Aerospace Center in 1972, he was named Deputy Director for Programs, Production and Operations, the position he held until his retirement.

In addition to his bachelor's degree, Mr. Rahall held the M.B.A. degree from George Washington University.

Continuing to reside in St. Louis following his retirement, Mr. Rahall was a frequent visitor to the Aerospace Center. In 1982 he was the Center's nominee for the DMA Erskine Award for Exceptional Achievement. As president of the Aerospace Charting Seniors, he had installed his successor, Ernie Spaulding, at a meeting last October.

An Army veteran, Mr. Rahall served in the Pacific as a ranger

specialist and later as an assistant to the adjutant general during World War II. He leaves his wife Rose Marie, three children, and grandchildren. Interment was in Jefferson Barracks National Cemetery.

Group, Inc., of Maryland Heights, Mo., will include the replacement of all streets, parking areas and storm sewers at the Aerospace Center's main facility. According to Russ Todd (FEE), staff coordinator for Architect Engineering Design, it will give the 2nd Street

right-turn lane will be added to the exit road at the Main Gate, and a new lane will be added at the Northwest Gate, allowing continuous two-way traffic similar to that at the Main Gate. For pedestrians, a new sidewalk system will be constructed along the boundaries of the Parade Ground. The new system will connect the new entrance to Building 36 and "E" Wing with Buildings 12 and 18, the Credit Union, Building 4, and the Dining Hall.

Landscaping will be added around all buildings on the installation, including the addition of some trees, according to Todd. The

Asphalt gain of about 20 parking spaces is expected from the project, including expansion of the Visitors' Lot from 22 to about 40 spaces. The Visitors' Lot will be relocated to a portion of the present "K" Lot, a move intended to eliminate problems in routing visitors through the complex to the present Visitors' Lot while permitting supervision of the lot by guards at the Main Gate.

Construction of the site improvements will take place in a phased manner in order to minimize disruptions in parking, according to Todd. Total construction time will be about one and one-half years.

### *Back in the Cockpit*

Checking out the cockpit of the P-3 Orion assigned to the Defense Mapping Agency are the DMA Director, RAdm E.A. Wilkinson, USN, and DMA Deputy Director, Brig. Gen. David M. Goodrich, USAF. A longtime Navy P-3 pilot, Admiral Wilkinson was formerly commander of all patrol squadrons in the Atlantic fleet. General Goodrich is a veteran Air Force fighter pilot. For more information, see page 4.

## Construction Accident Claims Life

One person was killed and another seriously injured in a construction accident at the "E" Wing site last week. The accident involved employees of the U.S. Elevator Company, a subcontractor on the "E" Wing project.

Killed was Randy Graves, 25, and injured was Perry Nolker, 27. Both men had been working on the installation of new elevators in the wing. According to reports from the scene the men were apparently working on top of the elevator installing cables when the car dropped the length of the shaft. Graves was from Troy, Illinois and Nolker from St. Louis.

The accident occurred shortly after 3:00 p.m. on March 13. Security personnel activated the disaster notification plan and

Center dispensary staff responded immediately to the scene. The St. Louis City Fire Department and Emergency Medical Service teams arrived shortly thereafter. Both men were provided emergency treatment at the scene while being extricated from the shaft and then transported to St. Louis University Hospitals by city EMS crews. Graves was pronounced dead on arrival at the hospital. At presstime (March 14) Nolker was being treated for head injuries.

The U.S. Army Corps of Engineers, who manage the military construction project, are performing a full investigation of the incident. St. Louis Police and Fire Department investigators also were involved in preliminary investigations. Cause of the accident has not been determined.

## ACS Luncheon

The next luncheon of the Aerospace Charting Seniors will be held April 10 at Grant's Cabin. Social hour will be at 11:30, lunch at 12:30. Menu is choice of broiled ham or fried chicken. Tickets are \$6.50 per person.

Reservations can be made by sending a check to the Aerospace Charting Seniors, P.O. Box 31193, St. Louis, MO 63131, or by calling June Moran/ 231-4547 or Bob Dains/ 831-1635. Reservations should be made no later than April 5, with menu choice indicated.

# LOOKING BACK

**TEN YEARS AGO . . .** St. Louis Air Force Station, known to historians as the old St. Louis Arsenal, was placed on the National Register of Historic Places during the month of January. The historic district, represented by the installation and certain buildings, is to be preserved for future generations. Now the home of the Aerospace Center, the St. Louis Arsenal has been a continually active military installation since its establishment in the early 1830's. (Orientor, March 21, 1975)

\*\*\*\*\*

**TWENTY YEARS AGO . . .** You have heard the old expression, "You can't learn to swim without getting into the water." Well, ACIC's Cartography Division is currently engaged in a "Simulator Program" that can teach pilots to fly without sending them into the air. The Cartography Division has

the responsibility of preparing source material in the form of three-dimensional relief models for the F-105D aircraft simulator. The 11 and 1/2 by 5 and 1/2-foot models are prepared by exposing the compilation of an area onto a flat aluminum sheet. Layer upon layer of metal contours are then glued to this base forming a stair-step effect of changes in elevation. Modelers place clay artistically over the metal skeleton to form valleys and ridges. The model is then coated with rubber and fiberglass forming a mold, which is separated from the master model and painted in shades of grey representing land, water and radar intensities. A realistic radar scope presentation is accomplished by illuminating the relief model as a point light source moves across it. The terrain shadows and radar reference features that are simulated form a distinctive pattern that serves to orient the pilot. (Orientor, March 5, 1965)

\*\*\*\*\*

**THIRTY YEARS AGO . . .** "When the ACIC personnel expansion began over one year ago, we submitted a plan to Headquarters Air Force asking for approval to modify (including air conditioning) space in the Schauer Building now occupied by Distribution Division. An arrangement to jointly occupy warehouse space with the St. Louis Medical Depot, 8000 S. Broadway

## Nash Increases Productivity

Laboratory, scientific and technical photographer Danny C. Nash (SDRCC) has been commended by the Director for his contribution to the Productivity Excellence Program.

"By striving for performance excellence and offering your ideas for improvement, you have made a very important personal contribution," the letter to Nash from Col. Byron S. Fitzgerald, USAF, said.

Nash received a Productivity Excellence Program Award based on his suggestion to use gummed-label (stick-on) friskets on certain photo products. Implemented during 1984, the suggestion will save the Aerospace Center more than \$66,000 during the current fiscal year, officials estimate.

Friskets, which give identifying

will free space for the Photogrammetry and Cartography Divisions on the first and fifth floors of the Schauer Building. There are a lot of starting and completion dates for various phases of the move, and there may be more than one move for some personnel and equipment; your supervisors will keep you posted. ACIC can well view with pride the production records of the last nine months under very crowded conditions." — Col. Richard W. Philbrick, Commander (Orientor, March 4, 1955)

each product. Printing of friskets on stick-on labels reduces production time to about one-tenth the production time previously required. It also eliminates reworks of the photo product due to a frisket error, as the stick-on label can be removed and replaced without altering the product itself. In addition, savings are achieved in the cost of materials.

Nash received a \$2,181 Suggestion Award in addition to his Productivity Excellence Program Award. He has been employed at the Center since 1962.

## Employees React to 'Disaster'

Moans and groans greeted R.N., of the Dispensary staff. "But

## EMPLOYEE RETIREMENTS

**JOHN A. BURBES** (FEPP), general planner and estimator, retired Feb. 21 with more than 11 years of federal service. He joined the Civilian Conservation Corps in Decatur, Ill., in 1941. When Pearl Harbor was attacked, someone suggested that the entire CCC be inducted into the Army, he recalls. Instead, the CCC was disbanded several months later. Burbes was assigned to the Army Air Corps at Keesler Field in 1943. After the war, he worked as a file clerk for the Veterans Administration for three years. A planner and estimator at the Aerospace Center since April 1975, Burbes said his job dealt primarily with base construction performed by DMAAC shops. He plans to travel, work on home projects, "sleep late."

**FANNIE B. DAVIS** (CMDO), computer systems programmer, retired March 1 with 31 years of federal service. She began her federal career in 1950 as a voucher searcher at the Army Finance Center, then on 4300 Goodfellow. She came to the Center in August 1956 as a keypunch operator. "I have been a control clerk, a tape librarian, a computer operator, and I am retiring as a computer systems programmer," she said. "My retirement plans are to get up in the morning when I get ready and do whatever I want to when I am ready."

**HAROLD Z. HOPPER**, chief of Photogrammetric Data Branch 3 (GDMC), retired March 1 with more than 38 years of federal service. He served with the 82nd

negative engraver, retired Feb. 14 with more than 36 years of federal service, including 34 years and five months at the Aerospace Center.

**RICHARD O. LEFOLDT** (ADDEC), aeronautical information specialist, retired Feb. 1 with more than 34 years of federal service, including 24 years at the Aerospace Center.

**JOHN H. McBRIDE** (GADF), supply technician, retired Feb. 13 with more than 43 years of federal service, including 24 years and eight months at the Aerospace Center.

**CLAYTON A. NEWTON** (CDKIB), cartographer in the Kansas City Office, retired Feb. 1 with more than 32 years of federal service. He was an Aerospace Center employee the last seven years and seven months.

**HENRY P. PURICELLI** (GANE), negative engraver, retired Feb. 1 with more than 32 years of federal service, including 28 years and one month at the Aerospace Center.

## Luncheon Specials

The Luncheon Specials listed are available in the dining halls at 3200 S. 2nd St. and 8900 S. Broadway and in the snack bar of Building 36. Prices of specials vary. Items are subject to change without notice.

## Schuld Ordained Catholic Deacon

Assistant Director of Quality Assurance Gerald C. Schuld was ordained a deacon in the Catholic Church during a ceremony conducted by Archbishop John L. May in the St. Louis Cathedral Feb. 9.

One of 94 ordained deacons in the St. Louis Archdiocese, Jerry studied three years to prepare for his ordination. In the future, he will baptize, marry, counsel, and lead liturgical and prayer services. He has been assigned to work in his parish, St. Francis of Assisi in South St. Louis County.

*Gerald Schuld (QA) takes part in a processional.*

held at 2nd Street and South Annex this month. The volunteer First Aiders had been asked to participate as part of a disaster preparedness training exercise.

"Victims" for the exercise wore realistic costumes simulating a variety of wounded conditions: broken bones, punctures, lacerations, burns, etc. Working in teams, the First Aiders had to assess each situation and initiate immediate First Aid.

"I don't think they realized how realistic the training was going to be," commented Helen Harden,

## Arsenal Credit Union Sets Annual Meeting for April 18

The 1985 Arsenal Credit Union Annual Meeting is scheduled for Thursday, April 18, at the Henry VIII Inn and Lodge, 4690 N. Lindebergh. The meeting will start at 6

p.m. with a cash bar. Dinner will be at 7:30 and the business meeting at 8:30.

The cost of the meeting will be \$4 for members and their spouses and \$13 for nonmembers. The meeting will include a sit-down dinner. Tickets can be purchased at any Credit Union office.

The meeting will feature reports from Credit Union officials and committees and the election of volunteer directors and committee members. Attendance prizes will be awarded.

## Order T-Shirts By March 29

All DMAAC T-Shirt and visor orders for the Junior Achievers must be received by March 29, 1985. For information, contact Walter Fisher (SDDS) at 4005.

A discussion and case-by-case critique by Charlene Hardin, R.N., chief of the Dispensary, concluded the exercise.

"This was better than a First Aid class," commented one of the 27 First Aiders who took part. "I learned a lot from the interaction and from making my own decisions."

MAJ Douglas H. Madigan, USA, Aerospace Center Disaster Preparedness Officer, served as coordinator for the exercise, which was conducted in accordance with the Center Disaster Preparedness Plan.

Accounting Office before coming to the Aerospace Center (then the Aeronautical Chart and Information Center) in January 1954. Assignments have included positions in Missile Support, Cartography, Plans and Requirements, and Programs, Production and Operations. "It's good to be alive and in good health," he commented. "I'm glad to be able to enjoy the many years to come."

ALBERT J. KASPAR (GANE),

## Capt. Mohan Trains in Panama

Public affairs specialist Jim Mohan (PA) spent two weeks in Panama during February as a participant in Kindle Liberty 1985, a joint exercise of the Panama Defense Forces and U.S. forces based in Panama and the U.S. Both active duty and reserve personnel of the U.S. Army, Navy, Air Force and Marines took part.

Captain Mohan, who is Public Affairs Officer of the 131st Tactical Fighter Wing, Missouri Air National Guard, served on the Air Force public affairs staff, providing news and photographic coverage of the event.

"In an exercise like Kindle Liberty '85, people and machines are pushed to their fullest," Mohan commented. "It was hard work and long hours, but the Air Force people had come to Panama to do a job."

The base camp for Kindle Liberty '85 was located at Chitre, a

Thu. - Bakes turkey with dressing, vegetable.

Fri. - Catfish nuggets with cole slaw, french fries.

### Week of April 1

Mon. - Salisbury steak with onion a gravy, two vegetables.

Tue. - Beef stew with biscuit.

Wed. - Fried chicken with french fries.

Thu. - Roast pork and dressing, one vegetable.

Fri. - Fried fish fillet, slaw and french fries.

major town on the Pacific Ocean, where Mohan interviewed participants for news reports of the exercise. Kindle Liberty '85 was one of a continuing series of Panama Canal defense exercises provided for in the Panama Canal Treaty of 1979.

# Fastbreak Are Champions In Competitive Basketball

DMAAC basketball has wrapped up its first season east of the Mississippi. The Competitive League tournament got underway with the four seeded teams doing that which was expected — they won! The Bruins downed the Purple Gang 61-33, the Sweat Hogs advanced by Let's Make a Dribble

55-49, Hecatomb beat the Hollywoods 43-39, and then the Fastbreak had a closer-than-expected win over the Hecatomb 51-46.

In the next round, the Purple Gang's season ended at the hands of the Hollywoods 45-35, and the Bruins sent the Sweat Hogs to the loser's bracket 45-35. Hecatomb stayed alive with a win over Let's Make a Dribble 64-55.

The Sweat Hogs then defeated the Hollywoods 61-42 and Hecatomb 53-51 to get another chance at the Bruins, who had found their way to the losers' bracket with a 47-46 loss to the Fastbreak. This match turned out differently for the Sweat Hogs, as they defeated the Bruins 50-41.

The Sweat Hogs, who had already won three games in 24 hours, couldn't muster one more, as they fell to the Fastbreak in the finale 51-46.

The Fastbreak have regained the crown they lost to the Bruins last year. Art Bennett scored a total of 26 points in his last two games as a Fastbreak before moving on to the courts of Germany.

So ends DMAAC's first season in Illinois. Now the young men's fancies will turn to — of course! — softball.

—Bill Small

## Team Tennis To Begin

Now that the snow has melted and March's balmy breezes are drying up the last mud puddles, it's time to begin thinking "summer," i.e. DMAAC Team Tennis.

Once again the DMAAC Tennis League will provide you the chance to live out your fantasy of being John McEnroe or Martina Navratilova without leaving home. Let's face it, who would want to travel the world and live out of a suitcase, when you can play your tennis after work right in Tower

## What Next?

Mary Ann Pember-ton of Steal Blue dribbles down court, as Theresa Maquire of Silver Streak keeps pace and contemplates stealing the ball. (Photo by Ron Andracssek)

## In Women's Basketball

### Streak Have 1st Legitimate Win!

After eight losses and one win by forfeit, Silver Steak won 22-18 over Greensleeves. With the score of 18-18 in the fourth quarter, Silver Streak suffered a setback when team captain Theresa Maguire, a frequent scorer, fouled out of the game. Apparently determined to win, the coach substituted Janice Hehmeyer, who, undaunted,

quickly scored, gaining a small lead. Pam Digby put the icing on the cake, scoring the last basket with only seconds to go. Top scorers for Silver Streak were Pam Christenson, 6, and Pam Digby, 6. Scoring for Greensleeves were Janice Lowman - 12 and Linda Snyder - 6.

Hilary's, led by Katie Becherer with 8, defeated second-place Steal Blue 18-16 in their closest match ever. Kelly Waymire with 8 led

## Striders News

Aerospace Striders headed into the 1985 road race season with some fine performances at the March 3 Olympiad Marathon and 10K race.

Rene Gamon, forced by injury to drop out of the November St. Louis Marathon after 20 miles, was not to be denied this time. He maintained his pace for the 26.2-mile race and came in with a time of 4:22:36.

Another DMAAC employee, Carol Peluso, ran the marathon with a time of 4:13:30, placing 10th female overall and first female in the masters' class.

In the 10K event, Leon Fennell

Play will be similar to last year, with teams taking to the asphalt on Mondays and Tuesdays between 4 and 5:30 p.m. for some keen doubles play. What is more, your league fee includes a 5-day pass, so you can play on the Tower Grove courts anytime, Monday through Friday.

Last year 83 players participated on eight, well-balanced teams, and this year we hope to see more new faces. So clean out your closet, get out those tennies, and dust off that Jack Kramer. The season starts April 29 and ends Aug. 13. Call John Goodwin/ 4088, Gary Feltz/ 4630, Bob Jones/ 4672 or Ron Tharp/ 4215.

## But Loses to McDonnell Overall

Results of the March 16 Corporate Tennis League match between DMAAC and Monsanto will appear in the April 5 Orientor.

In an earlier match, DMAAC had some fine play, despite its loss to McDonnell Douglas 24-13. In the singles events, Cathy Hatfield and Wanda Weber soundly beat their opponents, 6-0, 6-2, and 6-2, 6-2, respectively.

Steve Hagedorn won the Men's "B" Singles with a 6-3, 5-4, and Mark Sorum played tough in his "A" Singles match but lost in three sets to Mark Saak, one of the better

players in the metro area.

While DMAAC outplayed McDonnell in singles competition, the doubles play decided the final outcome, as DMAAC won only one of the six matches.

Team standings, which do not include Saturday's match, were as follows:

	Points Won	Points Lost
Monsanto	97	50
Southwestern Bell	83	62
DMAAC	58	92
McDonnell Douglas	57	91

—Steve Hagedorn

scoring with excellent defensive positioning and rebounding.

Are you bored watching "People's Court" and "Jeopardy"? There's never a dull moment in Women's Basketball both on the court and off (Groucho was reported being seen in the stands). Watch Women's Basketball at 3:45 and 4:40 every Thursday at the Cherokee Center.

—C. Andrascsek

with a last time of 38:50. Bob Howard was fourth in the same age group with a time of 39:51. Carole Keil took third place in her group with a 46:03. Other participants were Dave Talburtt and Ron Tomlinson.

—Bill Pryor

## Military News

Second Lt. James G. Luebbe, USAF, has returned from a five-week course in computer systems analysis and design at Keesler AFB, Miss. A cartographic/geodetic officer in the Cartographic Data Division, he is assigned to CDCBA.

Standings as of March 7

Team	Won	Lost
Hilary's	10	0
Steal Blue	5	5
Greensleeves	3	7
Silver Streak	2	8

## 'DMA One'

A P-3 Orion aircraft gets a closeup once-over by DMA officials after being assigned to the Agency last month. The patrol plane will be used for airborne gravity gradiometer surveys following modification with new, specialized equipment. Joining DMA Director Radm E. A. Wilkinson for the inspection at Andrews AFB, Md., are, from left, Lt. Col. Billy Mayo, Chief of the Gravity Surveys Office at the Hydrographic/Topographic Center; Dr. Mark Macomber, DMA Director of Systems and Techniques; Dr. Charles Martin, DMA Chief of Advanced Technology; Capt. John Foley; and Willard "Bud" Swartwood, HTC Topographic Department; and Brig. Gen. David M. Goodrich, DMA Deputy Director.
