DEFENSE MAPPING AGENCY AEROSPACE CENTER

Vol. XXVIII, No. 2

January 24, 1986

New Security Quarters

Personnel security specialist Denise Foerg consults an employee in one of three interview rooms located in the new quarters of the Facility Security Division (SOF). The new rooms are being used to discuss Personal History Statements (Form 398) and other matters related to security clearances, allowing for more privacy. The new quarters of SOF, located on the north side of the Building 36 lobby (in the old Credit Union area) also contain a training room, fingerprinting room, offices for SOF and the Administrative Security Branch (SOFA), and the Security Police Branch (SOPG) badge and vehicle registration office.

United Way Honors Orienteor

Prayer Breakfast Speakers Named

The National Prayer Breakfast is scheduled for Feb. 6 in the dining halls at 2nd Street and South Annex.

"We hope to carry on the tradition that has been established over the years," said Margaret Ryan (DSMB), speaking on behalf of the Prayer Breakfast committee. "But we'll miss the expert guidance of Virginia Huff." Instrumental in organizing the breakfast in past years, Huff retired last June.

Both speakers for this year's celebration are assistant pastors from Grace World Outreach Center in Maryland Heights, Mo. The Rev. Richard Hufton will speak at 2nd Street, and the Rev. Jeffrey Perry will speak at South Annex. The Aerospace Center choir will sing at both locations.

Personnel are granted administrative leave to attend the breakfast, which is held from 7 to 8:15 a.m.

Volunteers are selling tickets until Feb. 5 or as long as they are available. Tickets will be sold between 7 and 8 a.m., 11 a.m. and 12:30 p.m., and 3 and 4 p.m. in the corridor outside the snack bar on

Meeting the General

Employees of the Scientific Data Department were recipients of the DMA Director's "personal touch" as he toured some of the Aerospace Center organizations January 17. Here Jane Wilkinson, of the Graphic Design Branch, is greeted by General Rosenberg. Assistant department chief Clay Ancell (far left), audio visual specialist John Labusier (center) and Cheryl Evans (right) look on. The general visited the Mapping and Charting Department's Kansas City Office on January 16 taking time there to also talk with employees in the work areas.

Assistant Secretary of State, Ambassador To Speak at Center

Clarence Hodges, the assistant secretary of state, and His Excellency Dr. George Toe

Experience: the International Connection."

place for "Best Feature Story" among organizations with 500 or more employees in a communications contest sponsored by the United Way of Greater St. Louis.

The feature story by editor Paul Hurlburt appeared in the Oct. 18 Orienter. Entitled "Gillihan Twins Reach for their Potential — With a Little Help from Their Friends," it described the participation of employees Rosetta and John Gillihan and their twin sons in programs of United Services for the Handicapped in St. Charles County.

First place went to Monsanto Polymer Products Co. and second place to Christian Hospital North-east-Northwest.

Excerpts from a Parade Ground speech to employees by Bill Florich, cartographer in the Digital Products Department, won third place for best editorial or speech. The excerpts were printed in the Oct. 4 Orienter. Florich was a Torchlighter in the 1985 campaign of the United Way of Greater

lished under the heading "Sister's Words Move Torchlighter." Florich recounted the impact on him of a phone conversation with his sister, an employee of a United Way agency.

The Orienter shared honorable mention for "Best Graphic Design" with McDonnell Aircraft Company. There were nine categories of competition, with the Aerospace Center the only federal agency represented among the winners.

South Annex employees will be sold across from the dining hall between 11 a.m. and 12:30 p.m. or by contacting James McAfee/8367 or Michael Jennings/8410. The price is \$2.75, which has remained unchanged for three years.

The setting up of the rooms and serving of the breakfasts is done by volunteers. Anyone interested in assisting can contact Sharon Degenhardt/4669, Margaret Ryan/4651, Rochelle Cornell/4653, or Michael Jennings/8410.

Liberia, are scheduled to speak to employees in a program introducing Afro-American History Month.

The event will be held Jan. 31 at 9 a.m. in the 2nd Street dining hall. Seating has been allocated among departments, directorates and staff offices, and employees wishing to attend should consult their supervisor. A bus will transport employees from 8900 S. Broadway.

The theme for this year's celebration is "Afro-American

of the Equal Employment Opportunity Commission. Clarence Thomas, is scheduled to speak in the 2nd Street dining hall. He has been asked to speak on "The Future of Affirmative Action," according to equal opportunity specialist Emmett Burton.

Equal Opportunity Office is looking into the possibility of having a motivational speaker come to speak at the Center. The event is tentatively scheduled for Feb. 21 in the 2nd Street dining hall.

New Numbers For Elevators

Facilities Engineering has announced a new system of numbering elevators in Building 36 which includes the addition of the new "E" Wing elevators.

The elevators within "E" wing, just off the lobby entrance, will be numbers 1-4. The new elevators in the B section are designated numbers 6 and 7. The old passenger elevator in B section, which was number 8 within the old entrance, is now number 7. Elevators in the A section which were numbered 6 (freight) and 7 (loading dock) are now 8 and 9 respectively. The old large elevator in C section which used to be designated number 1 is now number 10. The small passenger elevator in D section, previously number 9, is now number 12 and the freight elevator adjacent to it has been changed from number 10 to number 11.

Image Processing Graduates

Graduates of the Professional Development Program in Computer Science for Image Processing are pictured with Technical Director Paul L. Peeler Jr. (standing at left). The full-time 15-week program at Washington University was sponsored by DMA and known as WUDMA. Those pictured are graduates of the last of three classes, which ended Dec. 18. Seated, from left: Katherine Jungwaefer/DPIAD, Linda Mallery/DPVBA, James Neighbors/SDAAE, Kimberly Kauffman/MCCA and Karen Steinmaus/D5GA. Standing, from left: Peeler, William Pryor/DPIIT, John Gillihan/SDET, Bruce Myles/SDFAC, Kevin Harrison/DPIBE, John Needham/DPIAB, Roy Hurlburt/DPMT, Mark Hoemann/DPVT, Steven Hagedorn/DPLAA, John Havecker/MCCT and William Short/SDFD. ACS Luncheon

The next luncheon of the Aerospace Charting Seniors will be held Feb. 12 at Grant's Cabin. Social hour will be at 11:30, lunch at 12:30. Menu is choice of veal parmesan or baked chicken with dressing. Tickets are \$6.50 per person. For reservations call Joe Brachtensende/ 822-8335 or Bob Dains/ 831-1635 or mail reservations to ACS, P.O. Box 31193, St. Louis, MO 63131. Reservations should be received by Feb. 7. Specify menu choice.

The Direct Line

From
Maj. Gen. Robert A. Rosenberg
Director, Defense Mapping Agency

Health and Safety Are Vital

AS YOU ARE AWARE, the first and principal goal at DMA this year is to "Focus on People." I feel most strongly that if this Agency is to meet the challenge of the demanding Modernization Program ahead of us, and maintain required production schedules at the same time, we will need the best efforts of all concerned, all the time. I will be asking a lot of you — and you have every right to expect the best efforts of management in return. These you will be getting.

One area that I want to place renewed emphasis upon is our Health and Safety Program. Here, we must all work together to ensure that all our employees are provided a safe and healthful workplace, with appropriate medical facilities and preventive programs.

Because some DMA people work in environments where hazardous substances exist, we must ensure adequate safeguards for them. This includes assessment of worker exposures and effective programs of physical examinations.

INCREASED EMPHASIS will be placed upon the Occupational Safety and Health program, the Fire Prevention Program and medical support to all DMA elements, including preventive medicine.

To effect this increased emphasis, we are going to strengthen our safety and health staffs at DMA and provide even better on-the-job health protection. We are currently advertising to fill three key Headquarters positions to direct programs in these areas. They will include a Safety Manager, an Industrial Hygienist and a Fire Protection Specialist. In addition, safety staffs at the two main production centers will be expanded with industrial hygienists.

THE SAFETY MANAGER will be tasked with making the workplace even safer and with providing guidance in this vital

General Counsel Of DMA Raised To SES Level

The position of General Counsel, Defense Mapping Agency, has been elevated to Senior Executive Service level and incumbent Edward J. Obloy has been selected for the post. The action was hailed by Maj. Gen. Robert A. Rosenberg, USAF, DMA director, "as further recognition of the growing stature of this Agency within the Department of Defense.

"I am extremely gratified," he said, "that this recognition was supported by both DoD General Counsel Chapman B. Fox and Assistant Secretary of Defense Donald Latham," who heads the Office of Command, Control, Communications and Intelligence, to which DMA reports.

"We advertised widely to find the best person for this position," the general added. "We had evaluators from outside DMA assist in the selection. Mr. Obloy was clearly the best qualified person, in light of his outstanding service to DMA for the past eight years."

Obloy, 37, has been DMA general counsel since June 1978 and was assistant general counsel for a year prior to that. He serves as legal advisor to the DMA director and is the primary legal authority within DMA. There are nine attorneys under his supervision.

New Chief of OC

Master Sgt.
Larry B. Lee

Employees Should Report Receipt Of Items That Are Substandard

by Dotson Morgan
Chief, Management and Procedures Branch (LOSP)

According to a recent DoD report, product substitution has been identified as the most critical fraud-related problem in the Defense Department. Secretary of Defense Caspar W. Weinberger said product substitution "continues to pose a serious problem in our efforts to develop and maintain the readiness capability necessary for a strong national defense." Detecting product substitution problems should be a top priority of all DoD people, said Weinberger, who asked for "all civilian employees and military personnel to be particularly attentive to possible indicators that show problems exist."

The practice of contractors substituting inferior materials for higher-priced contracted materials is not new. But when contractors deliberately attempt to deliver substitute products that do not meet DoD specifications, the results can be disastrous. Products produced by DMAAC are used on a daily basis by all military services and other DoD agencies worldwide. The use of poor-quality map stock, unstable film products or any other material that would produce a product of less than the highest quality could be detrimental not only to valuable national security equipment, but to the men and women who work with it.

Some cases in point; many items are critical to the production process at DMAAC: map paper, film, chemicals, ink, disk packs, printer ribbons, to name a few. At one time or another, AC has experienced problems with all of the above. We have received map paper that did not meet established specifications and did not pass tests performed by AC production personnel. This has resulted in the expenditure of considerable time and government funds. When products of poor quality are received, we must determine probable cause of the deficiency, for example, handling during transportation or improper storage at source of supply or manufacturer. While this action is being taken, production personnel are often deprived of needed materials for production.

Receipt of film, ink and chemicals with expired or nearly expired shelf life causes delays in production and further expenditures of government funds. Ribbons for word processors have been received improperly wound, causing jamming, breaking or jumping off of the track. Disk packs have been returned because they would not complete a successful hardware format. In most instances, we have been successful in obtaining replacements at no cost to the government. However, any situation that interrupts the production process is costly in one way or another.

One instance has been documented where a manufacturer had packed less than the stated quantity of tab paper in each box delivered.

area to all levels of management in all elements of the Agency. The other professionals will review and provide guidance in their areas of expertise.

The Headquarters Safety Council, revitalized under the chairmanship of Rear Admiral McVadon, DMA Deputy Director, will be meeting quarterly to review Component safety programs and progress toward safety goals. I encourage all of you to contact your local safety office with any suggestions or ideas for improving the DMA Safety Program.

I WANT TO MAKE SURE that DMA's safety, health and fire protection programs are the very best and, I assure you, this has my highest priority. I consider it does little good to put up pretty posters declaring my number one goal for the year is to "focus on people" and then do nothing about it. We do not need posters; we need action. And that we are going to get.

While our safety record has been good, I am going to do all I can to make sure that you have an even safer and healthier workplace. That's what teamwork is all about.

* * * * *

THOUGHT FOR THE DAY: "Navigators Tell Pilots Where To Go; DMA Shows Them The Way."

This was passed to me by MSgt. Bob Voll, USAF (Ret) of DMA's Louisville Field Office. Do you have a thought? If so, pass it to me through your Public Affairs Officer. Also, start thinking about DMA bumper stickers. We are going to have a contest for them. You'll hear more about that.

In Sympathy

Dotson G. Morgan, chief of the Management and Procedures Branch (LOSP), died Jan. 2 after a brief illness. He came to the Aerospace Center in February 1979 after more than 23 years in the Air Force. He leaves three sons, including employee Daniel R. Morgan (GADW). Interment was in Green Mount Protestant Cemetery, Belleville, Ill.

Word has been received of the death of Arthur L. Dye, chief of the former Transportation Division. He retired in June 1978 and was living in Pontiac, Mo., at the time of his death Oct. 28. A Navy veteran of World War II, he also served in the Air Force from 1948 to 1967. He leaves his wife Letty and children. Interment was in Jefferson Barracks.

has been assigned as chief of the Office of Communications and Electronics (OC), Det. 1 of the Air Force 1974th Information Systems Group.

Sergeant Lee arrived Dec. 1 from Scott AFB, where he was the NCO in charge of the Special Security Office Communications Center for Hq. Military Airlift Command. A graduate of Mountain View (Mo.) High School, Sergeant Lee joined the Air Force in May 1966.

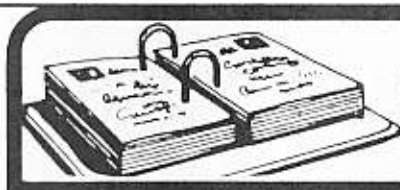

agencies, this resulted in a tremendous overcharge to the government. (This manufacturer is no longer permitted to bid on government contracts.)

While the above examples do not necessarily indicate product substitution or fraud, they do point out that the possibility exists. All employees should be aware of this possibility and immediately report any situation where the government may be getting less than what we are paying for to the proper source for resolution.

An area closely related to product substitution is quality. We advise all personnel involved in the requisitioning and receipt of supplies and equipment to notify the Customer Support Branch/8317 upon receipt of damaged supplies or shortages, of suspected price overcharges, or of any situation where the customer feels that items received through the Standard Base Supply System (SBSS) are less in quantity, quality or condition than those requisitioned.

Funds expended for supplies and equipment come from tax dollars. Ensuring that these dollars are wisely spent is everyone's responsibility.

The preceding article was written shortly before the death of Dotson Morgan on Jan. 2. See "In Sympathy," this page.

Looking Back

TEN YEARS AGO . . . Henry Tomas recently had a book published entitled the "Lithuanian Seashore." The book is a nostalgic memory of life in Lithuania in the pre-Hitler and pre-war days. Tomas is a translator with the Center. (Orientor, Jan. 9, 1976)

TWENTY YEARS AGO . . . Four ACICers are contributing their time and talents to the expanding educational programs of McDonnell Planetarium. Rogers Robinson has been delivering an average of three lectures a week in the planetarium's lecture series. Charles F. Martin and John Hopkins both teach for college-credit. All three have done graduate work in astronomy at Yale. Another ACICer assuming pedagogical duties at the planetarium is Joseph T. McCarron. (Orientor, Jan. 7, 1966)

Campaigners

Volunteers for the Combined Federal Campaign in the Kansas City Office (MCK) are pictured with Office Director Ed De La Pena (back row on the right) and internal CFC coordinator Delois Westbury (front row on the right). MCK's total of more than \$15,000 was 24 percent above the campaign goal, earning recognition for the office in "highest per capita giving" among metro Kansas City agencies. Seated, from left: Thomas Lanham, Louis Reed, Regina Myers, Henrietta Pelzer, Claire Anderson and Westbury. Middle row, from left: Etta Ross, Leon Tucker, Barbara Willsey, Dorothy Hoopes, Trevia Miller, Barbara Hitchings and Jerry Congrove. Back row, from left: Chip Lushbough, Ed Taylor, William Gresham, Bruce Foster, Charles Forbes, Jack Dunbar and De La Pena. Not pictured: Peter Ahammer.

Retirements

Nicholas G. Bova (ADDND), supervisory aeronautical information specialist, retired Dec. 31 with more than 40 years of federal service. Entering the Army in February 1943, he served as a radio operator-gunner with the Eighth Air Force in Europe. His civil service began in May 1948 at the Aeronautical Chart Plant in Air Info. "I'll travel some and probably babysit my grandchildren," he said.

Mary C. Hansen (AQM), contract specialist, retired Dec. 31 with more than 30 years of federal service. She started out as a clerk

children."
Rosemarie J. Weingartner (MCCT), secretary-typist, retired Nov. 25 with more than 11 years of federal service. She began her federal career in February 1945 issuing gasoline rationing stamps in the Old Post Office Building. She worked for the Veterans Administration from 1945-49 and the Aeronautical Chart and Information Center from 1966-67. She returned to the Center in 1979 as secretary of the Carto Training School. "I have seen many cartographers go through the school, and it was great to see them pro-

Bits And Pieces

From the Black Book:

Well, we have made it through the holiday season and settled ourselves into the routines that we hope will take us through 1986. Resolutions have been made and probably already broken for the most part. On January 1st teenagers around the nation assured their parents that they would slow down their driving, pick-up their rooms and do better in school; mom's and dad's vowed to become more physically fit by daily exercise and diets; worker's everywhere decided to re-evaluate their jobs and strive to do more; and writer's of columns pledged to come up with better material . . . on January 2nd, after the sounds of noise makers had dimmed, things returned to normal and we humans went about doing all things as we had done before. But as the old saying goes — "It's the thought that counts." Have a good '86.

Employees Showcase Their Hobbies

Collectively eye-catchers, automobile license plates — old, rare, foreign and fancy — have been winning stares from passersby in the first-floor hallway of Building 36.

The personal collections of cartographers Bill Small (DPT) and Frank Sutera (DPLBC) can be enjoyed by co-workers through

Council representative for Area 9B (SDE), the project will showcase the hobbies and collections of employees on a rotating basis. Wood products of Patty Baker (SDEDB) and cased baskets of Donna Reinhardt (SDEDB) inaugurated the project last month. Next month the focus will center on hand-made quilts.

display. "I'd like to overcome the idea that 'No one wants to see what I do' or 'My work isn't good enough,'" he said. At the same time, he has enough hobbies scheduled to last most of the year, he admitted. Those interested should call him at 4169.

An Aerospace Center employee since September 1979, Lauer grew

Entries Galore in Coloring Contest Keep Judges Busy

by Jim Mohan

The response was outstanding! Over 240 young artists, working with crayons and pencils, put their imaginations to the test and turned out a variety of colorful and unique renditions of the 1985 Orientor Christmas Cover.

Choosing the "winners" was a formidable task for the four judges from the Civilian Welfare Council. "It's so hard to choose because each one is special," commented one of the CWC judges.

This was the fifth Christmas coloring contest. The number of entries (243) surpassed the all-time high total of 184 turned in during the 1982 contest.

The youngsters showed a lot of creativity. Cotton became fur trim, and many added sparkles to dress their creations. There was also plenty of color. Some used crayons, others color pencils or felt-tip markers, some felt that water-colors would give their masterpieces just the right look.

The Orientor coloring contest grew out of a longstanding practice of devoting the front page of a December issue to holiday artwork. Contest winners received a "Santa Box" of Russell Stover candy, provided by the CWC, and a certificate inscribed with their name by personnel of the Graphic Design Branch (SDRG). The original Orientor cover drawing was by Jane Wilkinson of SDRG.

The drawings were judged according to style, use of color and originality. Winners in each age

Roseann Riefler, Renita Sanders, Robert Schmidt, Deannette Scharfenberger, Daniel Webster Storms, Kathleen Mae Storms and Mike Waggoner.

10-12: Billy Blechle, Nicole Bremser, Angela Campbell, Tami Carter, Wanda Causey, Anna Marie Comer, Wendy DeVault, Brian Drum, Denise Gardner, Krissy Keys, Denise LaChance, Shawn Martinez, Colleen McGlynn, Byron McGrath, Ronald Oakley Jr., Amy Overbey, Mike Potts, Kevin Riefler, Jim Robinson and Jackie Statum.

Close Games Begin Basketball Season In Women's League

Women's Basketball has begun its second season at the Cherokee Center, 3200 S. Jefferson. Four teams grace the courts in a rainbow of colors.

On Jan. 13 the White team was leading the Blue at the end of the first half, thanks to Rita Radomski's foul shot, but the Blue won in the fourth quarter 26-23. High scorers were Pat Hudson (Blue) with 14 and Kelly Waymire (White) with 12.

The Red and Green teams battled to a 24-24 tie. A change in league rules has allowed ties to exist in this recreational league. High scorer for Red was Katie

the Civilian Welfare Council.
The brainchild of Ray Lauer,

Aerobics Back

The Civilian Welfare Council will once again sponsor Aerobics. Classes are scheduled to begin the week of Feb. 10. Registration will occur the first week of February and/or the first day of class.

Classes will be held from 3:45 to 4:45 Monday and Wednesdays in the 8900 conference room and Tuesdays and Thursdays in the 2nd Street dining hall.

The classes will run for eight weeks or 16 sessions and will cost \$24 a person. However, the CWC will subsidize the classes at \$10 for each participant, so the final cost for each participant will be \$14. Notices will be posted regarding registration.

noticing two display cases in the newly remodeled hallway. In order to utilize both display cases to the maximum, "it seemed to me that this would be good use for them," he said. (Model airplanes are on display in the other showcase).

Lauer personally sets up each month's display. "For me, it's no big deal to help people display their hobbies," he said. His father, an optometrist, had an office with two display windows, and, as a high school student, Lauer did displays for him.

"The whole principle behind this project is to have something more pleasing to the eye and more interesting to people than just a trophy case," Lauer explained. "I think a lot of us don't know each other's interests and hobbies outside of work."

Lauer said he hoped more people would bring in their hobbies for

up in Washington, Ind. He was working on a master's degree at Florida State when recruiter Ken Whitfield (PPIM) told him about DMA. "It's all Ken's fault that I'm here," he quipped.

Meanwhile the CWC is looking into display possibilities for South Annex. "We have an old display case on wheels, but it doesn't have a top on it," explained CWC chairman John Dellinger. "It's not secure without a top, so we're caught in a bind until we find a way to get a top for it." Employees from South Annex are welcome to participate in displays at 2nd Street, Dellinger added.

Park Sports Fitness Course

Construction is to be completed shortly on an asphalt jogging path and fitness course in Lyon Park, according to city Parks Commissioner Joseph R. Leisure.

Funding and construction is being carried out by the Anheuser-Busch Companies, Inc., with the city's permission, Leisure said. "They just wanted to do something in Lyon Park. The course will be open to everyone," he added.

In addition to the jogging path, there will be 14 fitness stations, with appropriate apparatus for a variety of exercises: chin-ups, sit-ups, hand walking, leg stretching, and log hopping, to name a few. Each fitness station will be surrounded by wood-chip bedding about five inches deep.

Meanwhile, city workers will be preparing the park's two softball diamonds for the upcoming season. About 30 truck loads of dirt were placed on the fields last November,

category are listed.
6 and under: Patrick Barkhimer, Becky Blechle, Lisa Carlson, Kyle Geiger, Lamar Hardison, David Iverson, Todd Kappesser, Jenny Kelly, Kimberly Mach, Tiffany Martinez, Kristen Muse, Rusty Parker, Danny Potts, Katie Schiro, Mark Schnellting, David Soval, Lindsay Robison, Erik Taylor, Aaron Toenjes and Christine Turner.

7-9: Nick Baker, Candy Benda, Rachel Bremser, Latasha Buchanan, Amy Bussen, Amy Carlson, Toby Carter, Scott Iverson, Sarah Kirwin, Philip Orlando, Mike Orr, Laura Park, Mark Rau,

Snyder with 10.
In the second set of games, Red was triumphant over White 19-15. Katie Becherer was again high scorer for Red (11 points) and Kathy Hamby, wife of Chris Hamby, scored highest for White with seven points.

The Green team beat Blue 16-10, with Terri Wilson of Green scoring 10 points and Tammy Pryor of Blue scoring 6.

Congratulations to Evelyn Gallagher, Janice Hehmeyer, Mary Ann Pemberton and Kay Berndt on each scoring their first and only baskets so far this season. Next games will be played Jan. 27 at 4 and 5:10. Spectators welcome.
